

## Canada is Acclaimed by the EIU for its Superior Business Climate...

- Canada understands the importance of its business community and has created an environment to encourage its success.
- Canada is the best place for doing business among the G-7 over the next five years according to the Economist Intelligence Unit (EIU) and it ranked third overall out of 82 countries in the Economist Intelligence Unit's global business rankings for the forecast period (2016-20).
- The country also ranks well for its infrastructure, market opportunities, low taxes, and foreign trade and exchange controls.
