

its capital and surplus position within a specific time frame when it closed its doors. No legislation will prevent bad business decisions from being made; however, the proposals in the discussion paper on financial institutions relating the self-dealing and increased powers for regulators will stop repetition of many of the concerns raised surrounding this issue.

CANADA-UNITED STATES RELATIONS

SUMMIT MEETING IN QUEBEC CITY—DECLARATION ON INTERNATIONAL SECURITY—EFFECT ON EMPLOYMENT IN ATLANTIC PROVINCES

Hon. Duff Roblin (Leader of the Government): Honourable senators, I have another delayed answer in response to a question raised in the Senate on March 20, 1985, by Senator Thériault regarding the summit meeting in Quebec City.

(The answer follows:)

Seventeen out of 24 radar stations are scheduled to be phased out over a three-year period. Of the seven that will not close during this phase-out, four of these are in the maritimes: Goose Bay, Gander, Newfoundland; Barrington, Sydney, Nova Scotia. The only other maritime CADIN/Pinetree radar station, St. Margaret's, New Brunswick, is scheduled to close in 1988 as part of the third phase, and involves 60 current civilian jobs.

Due to the proximity of St. Margaret's to CFB Chatham and the upcoming need for personnel at that base, the prognosis is good and anticipated employment loss should be minimal.

In addition, should any individuals not be assumed by CFB Chatham, offers of employment elsewhere within DND should be possible.

BROADCASTING

THREATENED JAMMING OF U.S. RADIO STATION BY CUBA—POSSIBLE INTERFERENCE WITH RADIO STATION CFRB, TORONTO

Hon. Duff Roblin (Leader of the Government): Honourable senators, I have a delayed answer to a question raised in the Senate on May 29, 1985, by Senator Stollery regarding threatened jamming of a U.S. radio station by Cuba.

(The answer follows:)

Both the U.S. and Cuba have been advised that Canada would not wish to see a "radio war" develop and urged both governments to resolve the dispute over Radio Marti through negotiations.

Canada received formal assurances from Cuban authorities that should they choose to retaliate by operating high power transmitters, they would contact us to explain their action and to resolve any difficulties caused to Canadian stations.

We expect that if Cuba decides to retaliate against the Radio Marti programming, they will choose frequencies

which would primarily affect U.S. broadcasting with minimal impact on the broadcasting service in Canada or any other country with which Cuba intends to maintain good relations.

The officials in my department and staff at the Canadian embassies in Washington and Havana are monitoring the issue closely.

CAPE BRETON DEVELOPMENT CORPORATION

APPOINTMENT OF PRESIDENT

Hon. Duff Roblin (Leader of the Government): Honourable senators, I have a further delayed answer to questions raised in the Senate on March 27, 1985, by Senators Muir, Graham and MacEachen, regarding the Cape Breton Development Corporation and the appointment of a president.

(The answer follows:)

Mr. Derek Rance is 48 years of age and has an MBA from the University of Western Ontario—1963. He also has a B.Sc. (Mining Engineering) from the University of Witwatersrand, South Africa, 1959.

He was most recently employed by Phillips, Barratt, Kaiser Engineering Limited of Vancouver, B.C. and was under contract with Sodimiza Copper Mines in Zaire as Directeur Général Adjoint.

He was appointed on March 22. His appointment took effect on April 2 and runs for a three-year term.

The terms of reference of this position are, as stated in the act to establish the Corporation:

6. (1) The President is the Chief executive officer of the Corporation and has on behalf of the Board the direction and control of the business of the Corporation with authority to act in the conduct of the business of the Corporation in all matters that are not by this Act or by the by-laws of the Corporation specifically reserved to be done by the Board.

TORONTO HARBOURFRONT

PUBLIC ACCESS

Hon. Duff Roblin (Leader of the Government): Honourable senators, I have a delayed answer to a question raised in the Senate on May 8, 1985, by Senator Davey regarding the Toronto Harbourfront.

(The answer follows:)

Admission to Harbourfront has been and will continue to be free. The public's access to the Harbourfront site shall not be restricted.

As in the past, certain special events offered on the site such as concerts, plays, dance performances, et cetera, require the purchase of tickets at reasonable prices. This is not to be confused with a "gate admission" fee which does not exist and is not proposed.
