

aminations they are now *compelled* to pass, and in the whole of their work will have the active assistance and sympathy of the Principals—whether that work consist in “brushing up” for entrance to the “Normal” or in obtaining *any* certificate at the County Board. STUDENTS who desire to matriculate at any Canadian or American College or University will receive all the attention and care necessary to enable them to enter with honor and credit. The Subscribers have for a number of years, when their advantages were much less than at present, sent out candidates who have obtained the highest grade of certificates as Teachers, and who have taken a high stand in our Universities.

PARTIES desirous of a BUSINESS or LIBERAL EDUCATION may rely upon receiving it: as a thoroughly practical turn is given to the teaching of Book-keeping, Penmanship, Commercial Law and Phonography in all their ramifications; and as Vocal and Instrumental Music, French, German and other fancy or ornamental branches occupy that space and attention which their importance demands. A practical and thorough Teacher, who has had seven years' experience in London, England, takes charge of the Music Department.

PHONOGRAPHY or “Short-hand Writing,” which is fast rising into an element of a First-class Education, is a novel feature. The system adopted is that of Graham, the one almost entirely used in North America, and one by which the *most rapid* speaker can be easily and accurately reported.

Neither expense nor effort will be spared in making this Institution take rank as one of the first preparatory Schools in the Province, and in rendering it an Academy where a cheap, good and practical education may be obtained.

TEXT-BOOKS.—Teachers or Candidates for matriculation use the books from which they will be examined. The latest and most approved Hand-Books on other subjects will be pressed into service by the Principals or by the Pupils when necessary. There will be no *slavish* adherence to “What is in the Book:” information will be collected from various sources and presented to the pupil either by lecture or by black-board illustration. In certain subjects (as Book-keeping,) the pupil requires no text-book.

THE DISCIPLINE will be firm and courteous, and amongst the Students the principles of true and generous respect for one another and for all that is good and honorable will be inculcated and maintained.

BOARDERS will be made to feel that they are at home, and will meet with all the necessary encouragement and assistance they may
