LAND BOOM PUT LIVING COST UP

C. A. Magrath Says So, Adding That Bad Roads Contribute Also.

MEANS HIGH RENTALS

And Merchants Naturally Tack Added Cost to Consumers' Burden.

OTTAWA, Nov. 27 .- "The high cost of living is to be laid chiefly at the door of the real estate man. Bad roads have something to do with it also."

Those were the outstanding statements nade by C. A. Magrath, ex-M.P., today. Officially he is known as a distinguished member of the international waterways commission, and a member also of the Ontario roads commission.

"No, I don't see that the tariff has anything to do with the increased cost of living," he said. "When I was a boy we paid six cents a pound for sugar, and we are paying the same today; yet there is a heavy duty on sugar.

living," he said. "When I was a boy we pald six cents a pound for sugar, and we are paying the same today; yet there is a heavy duty on sugar.

"You've got to look somewhere else. Our trouble is domestic. It is of our own creation. We have allowed the real estate man to do it. He has maipulated our real estate, and we have paid him our ten dollars a month gambling on the price of sellis; cut at a profit. We are to blame ourselves. We have swallowed his subdivision stories. We have put our money into them and have gone short of cash. The real estate man has wen the pool, and now the people are suffering.

Makes High Rentals

"The work of the real estate man has sent up the price of property in the business districts tremendously. The retail merchants have their stores on that property and they have their rents to pay. They must make large enough profits to meet their rents. Every time the price of property goes up the price of goods the retail merchants sell goes up, too, and the public has to pay. You cannot blame the merchant.

"But the trouble doesn't end at the store." continued Mr. Magrath. "There are the houses we live in. Property has been boosted in the residential districts also and rents have gone away up. These rents have to be paid. "The merchant must make big enough profits to pay his higher rent, and the employe must get a bigger salary to pay the high rent and lay down the higher money at the counter of the merchant. With the wages of his staff going up, the merchant has to get more profits to pay them. And again the public has to pay."

Good Roads Ald Solution

Turning to the roads question which Mr. Magrath is trying to solve in Ontario, he pointed out that if there were good roads there would be good transportation. An automobile would carry if from three to six whiles. Thus the farmer would be able to get to the markets, there would be greater competition and there would be greater competition and there would be greater competition so the farmer sand the public. Today the large majority of the

the demand.

But, as Mr. Magrath pointed out, the farmer is not getting the big prices that are going. The middleman is getting them and they cannot help themselves. The public has to be fed and the cost of littles mounts unward. living mounts upward.

living mounts upward.

The chief trouble, as Mr. Magrath showed, was not in the cost of goods that are imported under a tariff, but in our own home grown articles of food. Good roads would widen the field of produce and the public would benefit accordingly. It is interesting to remember that the senate last session killed the efforts of the government in that direction.

UNIVERSAL PEACE IS STILL REMOTE

Premier of France Meets Socialist's Objection to New Loan.

PARIS, Nov. 27 .- (Can. Press)-Th

PARIS, Nov. 27.—(Can. Press)—The chamber of deputies today took up for debate the question of the new loan of \$260,000,000 to cover the budget deficit, and it is expected a vote will be reached by Friday night or Saturday.

The debate was somewhat delayed by M. Jaurez, the Socialist leader, who moved that no loan should be considered until the government had satisfied the chamber that it would adopt an active pacific program. He urged that the government take the initiative in proposing universal arbitration by the powers of the world in all international powers of the world in all international

ontroversies. The premier, J. Louis Barthou, re plied that such a step was foredoomed to failure because the Triple Alliance during the Balkan crisis had refused to consider arbitration when France proposed that the Balkan question should be submitted to The Hague. It was impossible, he said, for France to begin

The motion was rejected by a vote of 439 to 148, and the chamber then passed to the discussion of the loan. It is generally considered that the government will have a safe majority when the question comes to a vote, and, if actively pushed in the senate, it is hoped that the loan will be issued before the end of December.

GRAND TRUNK LOSS MILLION AND HALF

Unofficial Estmate of Company's Damage in Port Huron Fire.

(Special to The Toronto World.)
SARNIA, Nov. 27. — U. E. Gillen,
Grand Trupk superintendent of the
Western lines, with headquarters at
Chicago, together with several other
members of the system, is on the scene
of the Block 1 fire this morning, looking over the situation.

ing over the situation.

The master car builder of the company arrived in Port Huron last night.
This morning the officials inspected the ruins of the fire, and plans were im-mediately laid to salvage as much as possible of the wreckage, but nothing will be done until the insurance men

pass on the loss.

It was given out uncracially that the loss of the Block 1 shops, together with the reling stock and other equipment. would be close to a million and a half of doll ura

to Fifty-two dollars at the end of the year, with full compound interest to be added. How many wage-earners can say that they have not wasted, or lost, fifty-two dollars during the past year from the habit of carrying money carelessly in their pockets? A3.

Full of Interest

Willis J. Abbot, the author of this book, "writes for the people." He went into the Canal Zone to learn all about it, and did not return until his task was fully completed. From the time when Columbus searched for a natural waterway to the Pacific Ocean, he brings his readers up through the centuries of revolution and warfare, and on through to the realization of the greatest achievement of this day and age. It is a most inspiring story, filled to the full with local color and human interest -a story that will live as long as the

The Above Is a

color panel showing the famous Culebra Cut. **EDUCATIONAL**

The great knowledge to be gained by reading this volume will forever after be a valuable asset to every man, woman and child, for this great waterway is destined to become a mighty factor in times of peace and war. It will revolutionize shipping throughout the entire world; it will bring about changes in the trade and commerce of all the earth; it will open new avenues of business and establish new relationships between the various countries of the globe.
