GOOD TRIP FOR BOARD OF TRADE

Arrangements Completed for Cruise to Detroit, Cleveland and Buffala.

A SPLENDID PROGRAM

Everything Being Done by U. S. Officials to Ensure Success of Outing.

Members of the board of trade who have not yet secured berths for the cruise leaving Toronto June 10, at 11 a.m., should do so at once, as already the list is rapidly filling.

The following program has been arranged:

On arrival at Detroit June 11, 10 a.m., automobiles will be in waiting to take the visitors over the parks and boulevard drives, returning to the board of commerce for luncheon; address of welcome from the president and others; in the afternoon at three o'clock, ball game, Detroit v. Boston, American League; 5 p.m., sail up the Detroit River into Lake St. Clair with a number of the Detroit Board of Commerce for guests to dinner. Leave Detroit 9 p.m. Friday, arrive Cleveland 10.30 a.m. Visitors to be taken to the chamber of commerce building in special street cars; informal inspection of downtown district; 12 o'clock, luncheon at the chamber of commerce hall; this luncheon will also be attended by the Canadian Club, Cleveland. Speeches of welcome by city and state officials, followed by a four-hour automobile tour of inspection of parks and boulevards, departing from Cleveland between 5 and 6 o'clock.

Visit Steel Plant.

Reach Buffalo Saturday morning at 10 o'clock; visit to the Lackawanna Steel Company plant, the largest plant of the kind in the world; luncheon and reception at chamber of commerce; inspection of parks and boulevards system after luncheon, leaving Buffalo at 3.30 p.m. and reaching Toronto 8.40 p.m.

The trip promises to be one of special interest to the members, and everything is being done by our hosts to make our visit pleasant and profitable. Mayor Hocken, Ald. Robbins, chairman of the parks committee, and Commissioner Chambers will be guests of the board, as well as members of the city press.

RANKS OF LIBERALS TORN BY DISSENSION

Lloyd George Admits Internal Troubles Are Threatening Asquith Government.

Canadian Associated Press Cable.

LONDON, June 2.—Addressing a meeting at Criccieth this afternoon, Lloyd George said that the great rock ahead of the Liberal party was dissension in its own ranks.

"If we do not heal it, having already suffered a few hard knocks from it, we are not worthy to have in charge such great questions as the leaders of the Liberal-Labor party are committed to," he said.

EXAMINATION RESULTS

FIRST CLASS AND HIGH SCHOOL ASSISTANTS' CERTIFICATES.

The following students in the faculties of education at Toronto and Kingston have been granted certificates by the department of education as public or high school teachers in the Province of Ontario. The certificates will be mailed to the students concerned in the course of a few days. Unsuccessful students will be notified by letter.

The students who were in attendance at the faculties of education for the year just closed have pledged themselves to teach in the schools of the Ontario provincial system for at least the first year of their subsequent teaching experience.

BRASS TABLET TO MEMORY OF J. B. LUND

Special to The Toronto World.

VINELAND, June 2.—A brass memorial tablet to the memory of John Bernard Lund, placed by the "Ex." Yacht Club in the reading room at the Horticultural Experimental Station, Vineland, was unveiled by Dr. Creelman in the presence of a few of the deceased's intimate friends. The commodore of the Yacht Club opened the ceremony with a few well chosen words, which were followed by a most fitting eulogy from Dr. Creelman. T. H. Lund then spoke a few words in response and read a letter from Rev. T. Lund, the deceased's father, in England, expressing his gratitude for what had been done to commemorate his son's memory in Canada.

At 10.30 the same morning a memorial service was held in St. Andrew's Church at Grimsby.

SLIGHT DECLINE IN BUILDING PERMITS.

Another decline in building permits in comparison with last year is shown in the returns for May. While there is a decrease in the value of permits issued, the number and the erections are much increased, which indicates that the building trade is in a very healthy condition.

During May, 1914, 1030 permits for 1477 buildings were given out, to cost $2,827,513, bringing the total of the year to date to $10,541,086. Last May there were only 976 permits for 1271 buildings, but the cost was $2,915,392, and the total to the end of May, 1912, reached $11,547,797.

All these Men are Specialists

THE BIG successes of the day are being accomplished by specialists. The Safford hot water heating system is a splendid example. Not only do we specialize on the Safford system as a whole, but we specialize in every part. One result of our

specialized methods is the simple Safford hot water boiler, which has only nine main parts above the base (ten parts less than the ordinary boiler). Another is the Safford's extra large amount of direct heating surface, having 70 per cent. immediately around the fire, whereas ordinary boilers have but 51 per cent. Another is the rapid circulation of water, due to the fact that the water, after being heated, has only one-third the distance to travel to get out of the Safford's fire-pot that it has in an ordinary boiler.

The foregoing facts mean more to you than you possibly realize. A boiler of few parts means one that will be very unlikely to get out of order—one that will be very easy to manage. A large amount of direct heating surface and rapid water circulation means a perfectly heated home and economy in fuel consumption. But to get the whole story of

Safford Boilers and Radiators

send for our "Home Heating" booklet. It will only take you a minute or two to write a post-card-request for it. And this booklet will show you the road to a more comfortable home in winter and a 33⅓ per cent. reduction in your coal bills. That is surely worth while.

STOOD ON GRASS MAY GO TO JAIL

Thomas Adams Fined One Dollar Which He Was Unable to Pay.

Ten days in jail is awaiting Thomas Adams unless he can find $1 by Tuesday next. Adams pleaded guilty before Magistrate Cohen at the police court yesterday afternoon to the serious offence of standing on the grass in University avenue on May 28. It appears Adams had just turned out of Agnes street when a number of cadets came by, and he, feeling the military fever in his blood, could not risk the temptation of watching them. To do this he committed the offence of "the wearing of the green" and was duly summoned.

Not having the necessary funds with which to meet the demands of the city, he was given the alternative of ten days, or one day for every ten cents. The defendant had been out of work for some time and his wife was taken sick and he had to send her to their home in England. Since then he has had to send practically all his money, which amounted to $7 a week when in work, to keep her and his child.

A week was given him to find the money.

REFUSED SALARY INCREASE.

A proposal of the board of control on the recommendation of Commissioner Harris of the works department, to increase the salary of Engineer George T. Power from $3000 a year to $4000 a year, was struck out. Mr. Power has received an offer from the Canadian Stewart Company in connection with the harbor improvements.

Canada was honored and Toronto was the meeting place of a group of men who are doing much to improve conditions for urban dwellers. A meeting of the city planners, held in Toronto during the past week, presages much benefit to city dwellers generally. A group view of these gentlemen, with other visitors, appears in this week's issue of The Sunday World. Copies will be reserved by ordering now from any newsdealer.

BALKAN WAR CAUSES CHANGES.

Remarkable changes as a result of the Balkan war were reported at the Missionary and Christian Alliance conference last night at the Bible College. Rev. E. O. Jago stated that the establishment of a constitutional government thruout the Turkish empire lead to great progress along missionary lines. This had been intensified by the blow to the faith of the Turkish people in their religion, given by the victory of the Balkan allies. Now the scriptures could scarcely be printed fast enough.
