CONVENTION CALL FOR LABOR MEN

Trades and Labor Congress to Meet in St. John.

HAS LENGTHY PROGRAM

Enforcement of Immigration Laws Thruout Year to Be Asked.

J. C. Watters, F. Bancroft and P. M. Draper, president, vice-president, and secretary-treasurer of the executive council of the Trades and Labor Congress of Canada, have issued from their offices, Ottawa, the following "convention call":

To the officers and members of Provincial Federations of Labor, Trades and Labor Councils, National Trades Unions, Federal Labor Unions, and International Local Trades Unions in the Dominion of Canada, greeting:

Fellow Labor Unionists and Brothers: The 13th annual session of the Trades and Labor Congress of Canada will convene in the Armories building, Barrack square, foot of Carmarthan street, City of St. John, Province of New Brunswick, beginning at 10 o'clock Monday morning, Sept. 21, 1914, and will continue in session from day to day until the business of the convention has been completed.

Last year's meeting of the congress, in the City of Montreal, was an unqualified success. The place selected and the work done there contributed to mark it as one of the most important of a long series of conventions. This year the City of St. John, N. B., has been selected as the place of assembly. This brings the congress to the heart of the maritime section of the Dominion and will afford an opportunity for the people on the Atlantic coast to learn something of the importance of the great labor movement now going on in the interest of the wage earners, and will be marked by the fuller consideration of many momentous questions left uncompleted last year. There will also be fresh and vital issues discussed.

Rules on Resolutions.

The particular attention of affiliated organizations is called to Article III., Section 2, governing the introduction of resolutions, which reads:

"Sec. 2.—That all resolutions for the consideration of the congress shall be received by the secretary-treasurer not later than ten days prior to the opening of the convention, the same to be printed and issued at the opening session of the congress. Resolutions submitted contrary to this section can only be introduced and dealt with by the congress on a two-thirds vote of the delegates present. The executive shall appoint a committee on resolutions from the credentialed delegates, and said committee shall meet at least one day prior to the opening of the convention, for the purpose of considering all business submitted to them."

As the years pass, the problems that the congress has to study and solve become more numerous, more complicated, more urgent and more extensive in their scope. Even during the past year many of the situations which at the Montreal Convention it was hoped would be soon ameliorated, have grown more accentuated and more difficult of improvement. At St. John, this year, further consideration will be given to matters left unfinished last session and in connection with which fresh difficulties have arisen during the past ten months. Among the subjects that will demand careful attention at this year's convention may be mentioned the following:

Subjects for Convention.

1. Dominion and provincial legislation affecting labor interests.
2. The repeal of the present useless alien labor law.
3. Enforcement of the misrepresentation and monetary clauses of the immigration laws all the year round.
4. Consideration of the proposed 8-hour bill.
5. Pronouncement on the administration of the Workmen's Compensation Acts in the various provinces.
6. Amendments to the Industrial Disputes and Investigation Act.
7. Payment of wages on all railways, fortnightly.
8. Proposed amendments to the Dominion Elections Act, abolishing the $200 deposit now exacted, and making election day a public holiday.
9. The case for labor on old age pensions and pensions for widows with children in Canada, now pending before a special committee of the Dominion Parliament, and many other features.

In last year's convention call it was pointed out that labor was far from having the monopoly of organization, and that against its interests there are some of the strongest and best equipped organizations in Canada and abroad. This grim truth becomes daily more apparent. The consequence is that a proportionate increase in activity and watchfulness is imperative. In fact, it would be highly useful if a part of the attention of the convention were devoted to a serious study of this situation.

This is the time to elect your delegates. Let them be carefully selected. It is important that active, intelligent, experienced, and, above all, reliable men should come from all sections. The friends of Labor must be "up and doing." Elect your delegates at once. Do not leave that vital duty to the last moment. This year's congress must be strong beyond the ordinary, especially in the capacity and strength of the delegates. Let not one moment be lost—now is the time.

Take the Water Way for that trip to-day

VIA CANADIAN STEAMSHIP LINES

View *Niagara Falls* from the belt line scenic railway in the run past the rapids, whirlpool and Falls; Buffalo, with its big stores, is but a few miles distant.

At *Niagara-on-the-Lake*, there is a wealth of historical material of interest to the patriotic Canadian. Old Fort George, Navy Hall, where the first Parliament was held in 1792, and the Historical Building filled with relics of 1812 and possessions of early settlers. *Hamilton, Burlington* and *Grimsby Beach* offer special facilities to picnic parties through their smooth sandy beaches and beautiful picnic grounds; although all of the places mentioned have places reserved for picnickers. For those who like longer trips, the *1,000 Islands* and *Rochester* are well worth a visit, and at no time can they be seen to better advantage than right now at the beginning of the Summer season.

FRENCH CIVIL SERVANTS THREATENING TO STRIKE

Canadian Press Despatch.

PARIS, June 30.—Apprehensions are said to prevail in the French cabinet owing to the possibility of a strike of state employes in consequence of the rejection by the finance committee of the senate of a bill to give government employes a Saturday half-holiday. This action was taken by the committee regardless of the earnest representations of Rene Viviani, premier, and Joseph Noulens, minister of finance.

The workmen's organization feels strongly on the subject, as successive governments have given public assurances of the granting of the Saturday half-holiday, popularly known here as the "English week." There has been considerable agitation, and it is considered almost certain that a strike will ensue.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Public Building, Durham, Ontario," will be received at this office until 4.00 p.m. on Monday, July 20, 1914, for the construction of the building mentioned.

Plans, specification and form of contract can be seen and forms of tender obtained at the offices of Messrs. Forster & Clark, Architects, Owen Sound, Ont.; Mr. Thos. Hastings, Clerk of Works, Postal Station "F," Yonge St., Toronto, Ont.; the Postmaster, Durham, Ont., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

GERMAN MAYOR DONATES MATHEMATICAL PUZZLE

Canadian Press Despatch.

BERLIN, June 30.—Herr Seiferth, mayor of the little Saxe-Weimar City of Weida, has made a donation to the city which has set mathematicians to figuring compound interest problems of an unusual sort. The donation consists of $50, and it is to be invested and the interest compounded regularly for 340 years, or until 2254. In May of that year 70 per cent. of the accumulated interest is to be at the untrammeled disposal of the municipality. The remaining 30 per cent. is to be similarly compounded for a further 100 years, when the total shall vest as an absolute gift in the city. Estimates of the sum that will be available in 2254 vary from $1,250,000 to $15,000,000, always assuming that financial conditions do not vary greatly from what they are today.
