N. TORONTO COUNCIL MET ON SATURDAY RIGHT

Ratepayers' Association Also Had Their Say--Here and There In the County.

NORTH TORONTO, Mar. 10.—(Special.)
Saturday night's session of the town council, called to find some solution of the treet railway difficulties, did not evolve street rai way difficulties, did not evolve anything very striking, only one company, that represented by Macdonell, McMaster & Geary, being present. The plans submitted were largely of an informal character, and these will be reduced to writing, and later council may have some data to come and go on. While willing to hear suggestions and discuss plans for radial lines, council do not seem favorable to private companies, nor yet disposed to tackle the larger question of a municipal system.

Engineer James has a plan to increase the town's water supply, and thinks that right within the municipal limits he may locate plenty to help out the situation for at least the next two or three years. There is a water-bearing gravel ridge up there in the Bedford Park district which looks good, said the engineer tonight, and we will at once proceed to place some of it under a 72-hour test in order to try out, its volume. If, as it appears, there is good ground for our belief the significant of the street of the seast temporarily east tempora

Saturday night's meeting of the North Toronto Ratepayers' Association was not big, but it was lively and had a good deal of snap to it. President Banton was in the chair, and after they had touched on the body blows the town had received at the hands of the private hills committee, they started in to analyze the causes, and that of the freight question was laid in a measure at the door of the town solicitor. "It was never intended that we should remove the lighter class of freight from Yonge street," said Mr. Banton, "and in framing up the clause relating to the freight business the way they did the solicitor and council brought the whole weight of the farming community against us."

weight of the farming community against us."

They expressed disapproval of the council meeting behind closed doors, where public franchises were concerned, and declared that there was not enough publicity given to matters of this kind.

Ald. Maguire was thoroly scarified and advised to acquaint himself with local conditions before he made statements derogatory to the sewer system of the town. There was no disposition to go to the city for relief, and confidence was expressed in the ability of the council and engineer to provide an adequate supply of water within the ten-mile area, if not right within the town limits.

of water within the ten-mile area, if not right within the town limits.

A new policy was decided upon in respect to the Ratepayers' Association, and this was to hold meetings in different parts of the town. Next Saturday night a rally will be held in the Bedford Park Public School, and Engineer James has kindly consented to give a talk on "Transportation and the Motor Bus in North Toronto." This will be one of the best meetings of the season, and it is expected that there will be a big crowd.

The northern branch of the Union Bank of Canada have their new building at the northeast corner of Yonge and Joseph street well on to completion and ready

for occupancy.

In Zion Baptist Church this morning, Rev. Mr. Wearing took for his topic "The Jesuit Oath." A company of the Boy Souts, having Mr. McConneil of Wycliffe College as instructor, will meet every Friday evening in Eglinton Presbyterian Church.

The Ladies' Aid Society of St. Cuthbert's Church will meet at the home of Mrs. Brassey on Thursday, on Balliol street, in the afternoon. On Wednesday evening at eight o'clock Rev. J. J. Preston, M.A., will give a lantern service in St. Cuthbert's Church.

WESTON Great Throng Attend Opening of New Recreation Rooms.

Recreation Rooms.

Wideston, March 10.—(Special.)
The copening of the magnificent new Weston Recreation Rooms, situated at the corner of Main and Mill-streets, and erected in affiliation with the Weston Presbyterian Church, has been a red letter day in the history of the town and one long to be remembered. The new building, in effect a local Y. M. C. A., is modern in every respect, contains reading room and gymnasium room, a swimming tank, large hall and auditorium capable of accommodating 500 scholars. It will be used as a Sunday school and will cost in the neighborhood of \$20,000. The building assumptiously furnished and inside and out is all that could be desired.

Dedicatory services took place today, when Rev. R. P. McKay preached at 11 a.m., Rev. Mr. McGillvary at 3 p.m., and at 7 p.m., Rev. st. W. Stephen. A feature of this afternoon was the procession of scholars the the streets learing the church and national flags and being joined at the Methodist Church by the pupils of that church. So great was the throng that scores were unable to gain admission. The services will be continued next Sunday and Monday.

WEST TORONTO

WEST TORONTO.

WEST TORONTO, March 10.—(Special.)
—The funeral took place this afternoon of Frederick Whittle of Priscilla avenue, the young mechanic who died suddenly in the Russell Motor Car Company's works on Thursday last. Deceased was 24 years of age. Interment took place in Humbervale Cemetery. Rev. Edward Morley of St. Paul's Anglican Church, Annette street, officiated.

On the way to a small fire yesterday one of the Keele street station's detachments came to grief at the corner of Annette and Keele streets. The wagon was the combination hose and chemical one and in rounding the corner the whole outfit upset, throwing all the firemen some distance. Fireman Campbell was thrown rather heavily on his head and was stunned for some time after the accident, but the others, beyond a few

The new civic electric belt line, which will in all probability be Gibson Manufacturing Company, doubling their built this summer to relieve the constantly increasing Independent Tire Company, erecting big concrete demands of this section, will run along both these Dozens of other industries have been lately

At present, St. George's Heights is three minutes' walk to a car line. The proposed Toronto-to-Guelph radial will run within three or four blocks of the property.

It is within a mile of the city hall. The city is built right up to the property. It is required at once for the homes Guelph needs. Quick turnover is

What Mayor Thorp of Guelph Has to Say:

Speaking of the eastern end of the city:

"The concentration of industries in this section of the city calls for an immediate increase in the number of dwellinghouses that will be required to take care of the increased population, which naturally follows the establishment of the differ-

at from \$100 up. The lots are worth much more, and

are bound to increase in value in a few short months.

TERMS—\$25 DOWN; BALANCE \$15 QUARTERLY

SEE OUR SPECIAL THIRTY DAY OFFER

"At the present time there are, practically speaking, no vacant houses in this section, while the new industries locating here, and the additions to the existing ones, call for an increase of at least 900 workmen, which means an increase in the general population of 2500 people.

"In addition to the new works which are locating here, there are already about seventy factories of various kinds in this city. I may further state that, in view of the above industrial activity, it is my firm belief that a considerable increase in real estate values may be expected in the near future, and especially in St. Patrick's Ward and St. George's Ward, by the advent of the new industries.'

And, mind you, since the mayor wrote this letter, negotiations have been entered upon and completed with many other big firms.

A Few Convincing Facts:

Guelph and Environments Have a Population of 18,000. Real estate in Guelph is advancing more rapidly

than any other city of its size in Ontario. The increase in building in 1911 over 1910 was 301 per cent.; 1912 is already breaking this record.

Guelph owns all her public utilities, gives cheap service, and makes her profits reduce taxes, which will eventually disappear. The assessment is on a very low valuation.

Guelph is the largest shipping and transhipping point on the main line of the G.T.R. from Toronto to the Canadian border at Sarnia.

Guelph is visited each year by 200,000 people attending the Provincial Winter Fair, and visiting the Ontario Agricultural College and various conventions, besides thousands and thousands who visit the city for its natural beauty of surroundings.

Special 30 Day Ofter

Every purchaser buying a lot in St. George's Heights and Extension before April 10 will not be charged interest nor taxes. This gives the investor/an untrammeled opportunity to make without trouble, big profits on his investment. The prices of lots run from \$100 to \$150-\$25 down, \$15 quarterly-and 10 per cent. off for cash.

Guelph is growing so fast that you cannot save yourself from making big money.

You have read what the mayor has said about real estate. You have read of the new industries, building now and coming in. You have long before heard about Guelph's progressiveness.

Will you let this chance slip by?
