FOGGY

Novelty Mine Said to Have Been Taken Over by the Montreal Gold Fields People.

YESTERDAY ON THE EXCHANGE

Mr. Parker's Pamphlet - Something About the Wiarton-Colorado's Mineral Yield.

rstood that the Montreal Gold mpany have secured control of ty mine in Rossiand Camp. The Novelty lies between the Coxey and the Gertrude, already owned by this syndicate, exchanges for some time past. The an-nouncement will be very interesting to Novelty shareholders, a large number of whom are resident in Toronto and other earts of Ontario. tock has been active on the loca

About the Wiarton.

advertising columns this morning call tion to the Wianton mine, in Camp nney, which is being put upon the et by the Camp McKinney Develop-Company, through C. D. Rand, min-roker of Spokane, Wash. The Warrsoperty, as will be noticed by the cut h goes with the advertsiement, lies hy between the famous Cariboo and Waterloo mine, and the indications are the same vein crosses the three proces. The Wiarton consists of 43 acres and; crown granted. The company is alized at only 32 minufred thousand its, divided into 600,000 shares of \$1 l. The treasury stock cons as of 200, shares, which will be treated as a receased the owners take 200,000 as partment for the property, the remaining 600 to be sold from time to time and of the proceeds \$10,000 in cash to be ed in the treasury of the company, to spent upon the property before any of treasury reserve stock above referred as touched. Inasmuch as the Cariboo Waterloo are capitalized at one and a mer and one million dollars respectively, small comparative capitalized of the About the Wiarton. small comparative capitalization of the property will be found an additional attion to investors. Some of the stock is well being offered on the market.

Mr. E. Garthy Parker of Toronto hands as a nicely gotton up fittle pamphict entitled "Republic Mining Camp." As a frontispiece the publication has a map, showing the relative positions of the Rossland, Ymir, Republic and other mining claims of the Kootenay, and adjacant portions of Washington (State. In a personally signed introduction, Mr. Parker tells his readers that he has issued the pamphlet in response to a demand for information on the part of his clients. He then goes on in the course of nine pages of nicely printed matter to outline the character's tics and point out the wealth of the district. He takes up the geography geology and topography of the camp and then deals in order with a number of the numerous mines already proved or under development. Mr. Parker's pamphlet is well worth reading.

Company, and it is the intention of those who purchased this stock to elect a Board of Directors from HAMMOND GOLD REEF among Montreal and Toronto business men and list the Company's stock on the Exchanges of these cities. Reports from the best Mining Engineers in Colorado can be had on application. This block of 250,000 shares is all that will be offered for sale, and it is expected to be subscribed for

within a very limited time. The above cut shows the properties of the Globe Hill Consolidated Co. with reference to surrounding Mines, also the Tunnel

The above cut shows the properties of the Globe Hill Consolidated Co. with reference to surrounding Mines, also the Tunner running through them.

The distance from the Globe Hill Consolidated properties to the several Mines indicated can be better determined from the figures given above, as they were taken from an absolutely accurate plan. All of these mines, including the Globe Hill Consolidated properties, are in a body contained within one-quarter (1-4) of one square mile.

Extract from report of Alton L. Dickerman, one of the foremost American Mining Engineers:—

"The veins of the El Paso Gold King Co. should pass through the west end of the "Foggy" and "Good Enough," while through the east end of the same should pass the phonolite vein of the Anchoria Co., as well as the vein of the Moon Anchor. The vein of the Arcadia Co. in the Lone Star and the Abe Lincoln is traced directly into the "Happy Boy."

"A large porphyry dike passes from the Anchoria Leland and through the "Foggy" and "Good Enough" about 500 feet from the east end lines. Where the veins should cross this dike or join the same, there we may look for value, and it is my opinion that that upon these claims will be found a good paying property."

that upon these claims will be found a good paying property."

Extract from letter to us from First National Bank of Denver, the largest Bank west of Chicago:-

"In my opinion when sufficient development work is done upon these properties they will become paying mines." FOR FURTHER INFORMATION APPLY TO

THE WIARTON

CAMP MCKINNEY, B. C.

The above cut will show you the location of the WIARTON, which lies between the properties of the famous Cariboo company and the Waterloo, which is fast developing into a phenomenal property. The Cariboo ledge passes through the entire length of the Wiarton and into the Waterloo ground. The property consists of about 43 acres, is crown granted, and is wned by the CAMP M'KINNEY DEVELOPMENT COMPANY, British Columbia corporation, with a capital of 600,000 shares of \$1.00 each. The treasury stock consists of 200,000 shares, which will be treated as a reserve. The owners of the property take 200,000 shares as part payment or the property; the other 200,000 shares will be sold from time to time, and out of the proceeds \$10,000 in cash will be placed in the treasury of the company and spent upon the property before any of the treasury stock will e offered for sale.

The Cariboo company has a capital of 1,250,000 shares and is selling for 31.72 per share. The Waterloo has a capital of 1,000,000 shares and is elling at 13c. per share. The WIARTON has 600,000 shares and a limited number are now offered at 22c. per share, payable as follows: 7½c. per share on application, 7½e. in two months and 7c. in four months. Arrangements are now being completed with a prominent mining engineer who will proceed o Camp McKinney in the course of a few days and start active development
