The total receipts of live stock at the City and Union Stock Yards for the present week, were as follows:

This is a bold statement, but I mean every word of it, and can prove it to you if you will give me the opportunity of sending you indisputable proof from your own neighborhood. I speak particularly to those who have spent their earnings for years on dope (the drug that makes them feel like a young colt one day and like an old, broken-down hack the day after), to those who have tried so many things that they are tired of fooling and want a cure. Those are the people to whom I want to prove my claims before they agree to try my method of cure.

If you haven't confidence in electricity, let me treat you at my risk. I will give you the Belt on trial, without one cent of risk to yourself. Give me reasonable security, and I will take your case, and

### I'LL CURE YOU OR YOU NEED NOT PAY.

Let me treat your case in my own way. Let me apply a steady current of Galvanic Electricity to Your weakened system with my Dr. McLaughlin's Electric Belt. Wear this appliance, night after night, for a few weeks, and it will drive out all those pains and aches; it will restore energy and equilibrium to your nervous system: it will fill your body with fresh strength and energy; it will give you back the powers of Manhood, and make you a Man among Men. Again I place before you more PROOFS:-

Dr. McLaughlin:

Baldwin. Ont., Oct. 9, 1908.

Dear Sir,—The Belt I purchased from you has done in all kinds of good, although I had very little faith in it when I bought it, but in order to give it a fair trial I threw away all medicine and used nothing but the Belt, and it certainly did its work. I can now do as much work as ever without being tired out and have only worn it a very short time. Yours very truly, CHAS. W. TOMLINSON.

Bath, Ont.

Some time ago I purchased one of your best Belts for a weak back. My back was also very sore, but your Belt cured me completely, and I am very pleased to recommend it to any one suffering from weak or lame back.

ROBERT MOTT. DID HIM ALL KINDS OF GOOD.

The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in Men and Women. The Vitality of the body is Electricity—the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life!

Erickson, Perkins & Co. wired J. G. Beaty, 14 West King-street at the close of the market:

Wheat—When we wrote on October 9 that No. 2 red wheat, in our opinion, would be a scarce article before another crop, it was selling at \$1.02, or 2c under May. Yesterday there were sales here of choice No. 2 red at \$1.084½, or 2c over May, and the end is not yet

It is destined for still higher premium. To-day, in absence of support from large holders, and general desire among the smaller longs to take what profts they had at the opening in wheat bought the day before, there was a decline that wiped out all the previous day's advance.

There was nothing bearish in the market information with the possible exception of heavy shipments this week from Australia, which are not likely to reach their destination till March or later.

Ennis & Stoppani wired to J. L. Mitchell of the close.

their destination till March or later.
Ennis & Stoppani wired to J. L. Mitchell at the close:
Wheat—Held fairly steady at a small decline during the early trading under support from leading holders and few of the larger commission houses, but weakened later under constant pressure by some of local longs and selling by pit bears and closed heavy at decline of a cent.

cent.

Corn—Corn has been under pressure all the morning, bad news expecting a large run of corn and leading bears pressed J. R. Heintz & Co. wired R. B. Holder

J. R. Heintz & Co. wired R. B. Holden at the close:
Wheat—The prominent holders of May are confident of higher values, based on their belief that the country supplies are small. It does not appear that the buil leaders have sold their wheat. The selling has been heavy and the market has held up well, taking all into consideration. Oats—We can see nothing to induce purchases at present prices.
