## MATURING BONDS Their Reinvestment

There are a great many Bonds and other similar investments maturing this year. The present market offers unusual opportunities for investment. We are

for Bank and Reyal Trust Company.

building for the Bank of ng completion, will be a two-storied iding, occupied on the ground floor

olished grey granite, with the structure of terra-cotta. The ver story is high, having large winws surmounted by ornamented semircular tympaniums, with a richly pulded hand of ornament around the natire opening. The upper story has maller windows, two over each one of ne larger ones below. The main ennce on Yonge-street has the polish-Anthracite conciliation board a faller from the frame of the granite forming the frame of the floors, and over this is the emblem of the bank, in bronze. The front of the building on Yonge-street is divided into three tays with the main entrance in the middle and a large window on each side, with the accompanying smaller windows over them. Harvey Fiske's Sons have sold all the panying smaller windows over them. Harvey Fiske's Sons have sold all the floor of the panying smaller windows over them. The Queen-street side is divided into the queen-street side is divided into the panying smaller windows over them. Actual. Post the panying smaller windows over them. Sterling, 80 days' sight..., 485.10 bays correspondingly treated. corner and on each pier between

above the granite to the cornice. The cornice has preferring an above is the high attic, giving a nearly level outline to the building. All of this terrar cotta has been made in England, by the Douiton Company of Lambeth, Lendon.

The vestibule at the main entrance has a marble panelled floor with square tiles of Tennessee in centre and bridge of International Paper Company of the staircase hall at the left is entered for the staircase hall at the left is entered for the stairs and the flooring and of the stairs and the flooring and of the stair and the flooring has an outside border of verde antique, with an inner border of mosaic lifes, and then light Tennessee in rectangular tiles. On the valls of the inner vestibule and the stair hall is a high Italiau marble dade. Directly opposite the mean cut rance are the doers of the banking room. This large room, with the manager's room and the vault, occupies the rest of the floor area of the building. On the left are columns of scagliolia, with ortamental caps, and on the right the large windows. The ceiling is vaulted with a flat segmental vault divided fire panels by beans, with penetrations at a cap side. The ceiling of the space at the left beyond the columns has a skylight ever, and the glass of the vaulted spaces is clear at the left beyond the columns has a skylight ever, and the glass of the vaulted with a flat segmental vault, and the left of the floor area of the Chicago, Rock Island & Pacific to the Chicago, Rock Island & Pacific to the Chicago, Rock Island & Pacific of the rectangular tiles. On the restain the large windows. The ceiling of the space at the left beyond the columns has a skylight ever, and the glass of the vaulted graces is clear. class of the vaulted spaces is clear athedral glass with opalescent border. The walls have a high panelled wainscot of cak, with burlap panels and
plaster above. The flooring in the public space is of marble similar to that
of the staircose hall while that of the
banking space is of clear pine. The

coverings of embossed leather.

The first story is divided into public space, offices, and working space for the Royal Trust Company. The walls and the control of the cont nanager's room has a slightly coved bace, offices, and working space for the Royal Trust Company. The walls and ceiling of plaster, with a burlap ado around the rublic space, and the rublic space, and the rublic space.

## MARKET HAS BETTER UNDERTONE.

World Office Monday Evening, Aug. 30.

With a better market at New York there was less disposition among local traders to try and hammer the speculative issues at the Toronto Exchange. The tables were turned on the shorts in Sao Paulo this morning, and this was also a deterrent to pressure in other securi-The demand for stocks from the outside was quite small to-day, with the buying chiefly in the bank shares. With few exceptions, a much better undertone pervaded the whole market, but there is not the slightest immediate evidence of any bullish speculation.

# MINERAL BELT EXTENDS RIGHT ACROSS DOMINION

Theory He'd by Prominent Mining letters on application. Professor Who Spent Years in the Cobalt Camp.

Perhaps there is no stronger believer in Cobalt than Prof. F. E. Schoonmak-

er of Detroit. The professor first en-tered Cobalt in April, 1905, when there was only one log camp there.
In discussing the Ontario silver fields

with Prof. Schoonmaker yesterday, his opening remark was to the effect that on his first entry into Cobalt he disregarded his conventional ideas in regard to his previous gleanings of geology and mineralogy. "It is to this," he said, "that I attribute much of my success in the camp. 'I have been absent from Cobalt now

for upwards of a year, having been compelled to take a rest during that period to recuperate after the labors of the time spent in the camp.

"When I first went into the district I stayed a full year before I felt competent to give any decided opinion on any of the propositions which were on any of the propositions which were brought to my notice, and the benefits of this were plainly seen from the re-ports which I made and the success

New York Cotton.
