METAL SHARES AHEAD IN UPLIFT OF STOCKS

Commanding Position Assumed by Copper in Transactions on N. Y. Exchange.

C. P. R. ALSO ADVANCES
Three and Three-Quarter Points Rise Registered in Canadian Railway.

NEW YORK, Feb. 10.—Metal shares assumed a commanding position today's upward market, a majority of the better-known coppers, including Utah, Butte and Superior, Chino and Grand, selling at highest prices in their history. Anaconda led the group in point of activity, but failed to reach its high quotation of the preceding month. The upward swing in metals followed a further sharp advance in the price of the metal abroad. Among the other active issues, U. S. Steel advanced a substantial fraction to 14 1/2, while American Coal Products advanced only to yield later to selling of other leaders. Lackawanna Steel, Republic Iron and Steel, New York Air Brake, Railway Steel Spring and kindred stocks were firm at times, but shares with Mexican interests were heavy. Mexican Petroleum, Texas Co. and American Smelting being under constant restraint.

There were some spectacular gains in a few specialties and utilities. General Motors rising 2 1/2 to 50 1/2, United Fruit 1 1/2 to 14 1/2, South Porto Rico Sugar to 18 1/2, American Coal Products 7 1/2 to 15 1/2, and Mackay common 6 1/2 to 11.

Rails lagged in the early dealings, but came forward later under the lead of Canadian Pacific, which made an advance of 3 1/2 to 17 1/2. New York Central's very favorable statement of earnings for December and the year 1915, gave further impetus to standard shares, but the advance in these issues was met by free offerings, causing some irregularity at the close. Total sales, 755,000 shares.

U. S. Steel's tonnage report for January showed only a nominal increase, but put the tonnage at 1,000,000 tons, within close range of the record for over five years. It is generally believed that the unfilled orders would have been without parallel but for the fact that the Steel Corporation has about reached the maximum of capacity for months to come, causing rejection of much new business.

Further light on the prosperous steel conditions was afforded by the Lackawanna Steel advance, which was followed by a similar advance in the shares of American Smelting, which was replaced by a balance of almost \$4,000,000.

New York Central made a net gain of \$42,000 for the year 1915, and about \$15,000,000 for the year 1916, owing to a marked reduction in cost of operations. The Bank of England reported another appreciable gain in its gold holdings, and a moderate strengthening of its liability reserves.

The Bank of England reported another appreciable gain in its gold holdings, and a moderate strengthening of its liability reserves.

WHEAT MARKET RALLIES ON NEW EXPORT SALES

Sudden Cessation of Inquiry Had Forced Speculators to Let Go Holdings.

OATS HARDENED, TOO
World's Requirements Estimated as Much Larger Than Short Time Ago.

CHICAGO, Feb. 10.—Renewal of export buying helped to rally the wheat market today after a sharp break that was due to a unusual whirl of speculative short orders to sell. The close was nervous at the start, but the market rallied to 1-3c down, with May at \$12.34 and July at \$12.01-2.

Corn gained 1c to 1 1/4c net, oats led to 3-8c and provisions 1c to 2-1/2c.

Notwithstanding the quotations at Liverpool showed unexpected firmness it was not until after the market here had undergone a severe tumble that signs of fresh activity on the part of exporters began to appear. Estimates of the amount purchased for Europe put the total at only 600,000 bushels, but in view of the previous nearly complete cessation of business with foreigners, the effect was to restore in a measure the confidence of the bulls.

The sudden flurry of the stop loss selling which for a time overwhelmed the market came about as a result of a moderate initial advance here that gave a new opportunity to discouraged holders who had been unable to unload on yesterday's decline.

On the seaboard which ensued, resting orders to sell were automatically brought into execution wholesale.

Emphasis to the foreign demand for wheat was given by an opinion from a leading authority that the world's import requirements this season would be 24,000,000 bushels in excess of the total as figured two weeks ago.

Shipments from Argentina and Australia would remain light. There were forecasts of green bug danger in Oklahoma and by reports that cash trade was improved.

Oats hardened. Toward the end of the day houses with seaboard connections were active buyers.

Provisions were also current, increased attention, especially ribs. Through the session, the market had an upward slant, influenced by higher prices on hog and by reports that cash trade was improved.
