e Canadian Press Association reical School yesterday. It was unaniously decided by the daily paper second that this association seek legislation that would make it a criminal ofto tender for publication false h, marriage, engagement notices, or er similar advertisements.

It was suggested by Wm Findlay of The Ottawa Free Press that the new adng committee should consider the ming of a bureau where all medical

forming of a bureau where all medical copy could be sent, so that the columns of the paper should be clean.

Weekly Subscriptions.

R. W. Young of the The Cornwall Precholder addressed the weekly section on the best way to collect delinquent subscriptions. The subscription price for weeklies was a subject for much discussion, practically all members taking part.

Mr. McGuire of Orangeville favored the offering of the subscription for \$1 for a certain time.

Mrs. Rowe of Manitou, Man., who is in charge of her husband's paper, "Western Canada," while he is at the front, give the mi-mbers of the weekly section some progressive ideas regarding circulation and subscriptions. John Auid, ex-M.P., Amherstburg; H. P. Moore, Acton, and J. Thompson spoke on subscription rates.

Executive Elected.
The following executive was elected:
dis. Rowe. Manitou, Man.; J. A. Mcaren, Barrie; J. H. Brown, Newcastle,
L.B., and G. Broadley, Scott, Sask., with
L.R. Sayler and J. J. Hunter, ex-offide members.

cio members.
A campaign was planned to give greater popularity to Canadian periodicals, and a committee for this purpose was organized, and also to investigate the situation of American magazines in Can-

Before business was begun in the afternoon the members were shown thru the Technical School, under the guidance of the principal, Dr. A. C. Mc-Kay, who explained the work undertaken in the various departments. He also delivered a short address on "Technical Education" when all were met again in the assembly hall.

Committees Report.

The afternoon proceedings were confined entirely to hearing and discussing reports of the various committees. One matter caused much discussion, and that was the appointment of J. R. Robertson of Toronto, J. R. Bone, Toronto, and C. A. Abraham of Winnipeg as a committee to consider certain changes in the constitution in regard to the voting powers of first and second members. Objection was taken to this by members of the trade section and this committee was withdrawn.

The sale of certain publications among

was withdrawn.

The sale of certain publications among the youth of Canada, which tended to lower their morals, was condemned and the matter of unlawful membership of the association by members of certain British journais was recommended for investigation. An increase of subscription of getting the same postage on papers to France as to England was referred to the rostal committee for action President J. G. Elliott.

The retiring president, W. E. Smallfield, introduced to the gathering the newly-elected president, J. G. Elliott of The Kingston Whig, who spoke briefly, and closed the meeting.

Today, at two o'clock, about 175 members and their wives leave Toronto by special C.P.R. train for a five-day trip to Port Arthur and Fort William. They will embark on a C.P.R. boat at Port Mc-more and will spend a day and a half in the Twin Cities, and five hours at Sault Ste, Marie on their return. Preparations for their entertainment have been made in these cities.

The following resolutions were adopted:

STINGING NEURALGIA

The Trouble Due to Nerves Staryed for Lack of Good Blood.

An eminent medical writer has said that "neuralgia is the cry of starved herves for better blood." The one great symptom of this trouble is pain, flerce, stabbing pain, that almost drives the sufferer frantic. The one cause is poor blood; the only cure is to enrich the blood. Heat applied to the inflamed perves will give relief inflamed nerves will give relief, does not cure. Dr. Williams' Pink s furnish the blood all the needed ents, and the blood conveys them lements, and the blood conveys them to the nerves. The only way of getting food or medicine to the nerves is through the blood, and the only way to enrich the blood is through a fair the customs tariff parts of presses, whenever the presses are exempt."

"That the association, on the eve of the customs tariff parts of presses, whenever the presses are exempt." to enrich the blood is through a fair use of Dr. Williams' Pink Pills, In this way neuralgia, sciatica and other nerve disorders are promptly cured, and the whole system benefited and strengthened. Mrs. M. Gleason, R. R. No. 1, Uxbridge, Ont., who was a reason as the suffered intensely from neuralgia, says: In the cause for which the British Empire and I was completely run down. I suffered intense pain all the time. At suffered intense pain all the time. At different times I consulted three doctors, but their treatment did no more than give me temporary relief. Then I tried different medicines, but the result was the same—they seemed no steadily worse, and finally could not leave the house nor do a bit of work. The last doctor I consulted could do tablets to ease the pain, and by this time I had about resigned myself to a life of pain. Then one of Dr. Williams' almanacs came to our house and I read of similar cases cured through the use of Pink Pills. I got the resident worse in the coming year:

"It is recommended that thanks be tendered to the speakers of Thursday night who reflected in an admirable way high two reflected in an admirable way in the newspaper."

"The association rejoices at the news received of the prospective early return to active duty of John McImrle, manager of the association."

Officers Elected.

The following are the officers for the coming year: and I read of similar cases cured through the use of Pink Pills. I got ree boxes and before they were all me the pain began to decrease, and

The epidemic of measles shows but slight abatement as compared with April last, but the total number of cases and deaths from all the communicable diseases shows a decided reduction, as may be seen by the above table.

WILLS PROBATED

Mrs. Lucretia Prosser, a widow, who died in North Gwillimbury, May 9, left an estate valued at \$1645, which according to the will, is to be divided among her five children in the following manner: \$200 to son, Daniel; \$400 to a daughter, Ida; \$100 to daughter, Oliva Graves; \$20 to son, Charles; and to a son, Walter, \$100. The residuary estate is to be divided, after all expenses have been paid, among the surviving children equally.

DON GIVES UP ITS DEAD. Body Believed to be That of Mrs-Fleming Found Yesterday Morning.

Yesterday the Don River revealed a tragedy when it gave up the body of a woman, believed to be that of a Mrs. Fleming, who lived in the neighborhood some time ago. The body was found floating in the river south of the Front street bridge, opposite the Sunlight Soap Works, by a pedestrian. There was nothing on it by which it might be identified. From all appearances the body had been in the water a long time.
