

OPERA HOUSE

The last performance of "The Blue Mouse," by Partello Stock Company, at the Opera House tonight. Everybody who has seen this splendid comedy has liked it and enjoyed the way this excellent stock company has presented it. Commencing Monday night and continuing for Tuesday and Wednesday, the company offers the sensational drama, "A Daughter of the People," staged with all special scenery and effects. In other cities the company has found this to be one of the most satisfying plays they have presented. It is not an old play under a new title, but an original play, written by Justin Adams. It has a few thrills—many of dramatic situations and strong climaxes—good comedy parts run all the way through it and it has a good love scene. The principal characters in the story afford the leading people of the company an opportunity for good dramatic work.

In addition to the play, an extra strong vaudeville act will be offered in the Three Winsome Harmonists, a trio of charming girl instrumentalists, one of whom is an exceptionally clever cornet soloist. The act comes direct from Halifax and has been a head line feature on all the big vaudeville circuits. There will be a matinee on Wednesday, at which a number of 1 lb. boxes of souvenir chocolates will be given to the ladies.

O.O.O.O!!

Was there ever before such a dark secret as that 7th point? Maybe you'll find it in the gum.

- 1-Crowded with flavor
- 2-Velvet body—NO CRIT
- 3-Crumble-proof
- 4-Swelling purity
- 5-From a daylight factory
- 6-Untouched by hands

HYPHEN-AMERICANS GOING TO GERMANY

Emigration of 4,000,000 U. S. Citizens After War is Predicted—Drop English Tongue

Buffalo, Oct. 15.—Investigations carried on among the German-Americans of this city have disclosed the fact that thousands of them since the beginning of the war have been utterly estranged from ties formerly held with this country and may return to Germany as soon as the war is over. It is now estimated from many interviews had with citizens of German parentage or extraction in Buffalo, Cleveland and other cities that some four million American citizens may at that time return to Germany and Austria.

It appears that only about five per cent of the German-Americans in Buffalo and Cleveland gave their first allegiance to the United States rather than to Germany. More than half of them have begun to drop speaking the English language and use again the tongue of the Fatherland. Even among many of the prominent business men of German blood in these two cities it is not difficult to encounter outspoken bitterness against the United States.

The growing violence of this change in sentiment on the part of German-Americans is attributed by them to the refusal of the United States government to place an embargo on the exportation of ammunition, and the exploitation, in the German press of this country, of German war feelings for the sake of increasing their circulation.

SALMON WILL ASCEND WATERFALLS IN LIFT

Ottawa, Oct. 15.—The Department of Marine and Fisheries is coming to the assistance of the salmon. On many of the best salmon streams in Canada power development works have been constructed or are being constructed. Dams have been built across the streams, barring the salmon's way to the spawning grounds. In times past it has been the practice to overcome ordinary constructions, such as natural waterfalls, etc., by the construction of fishways, but no salmon on an egg-laying mission can climb past a big power dam by means of a fishway.

The Dominion Biological Board has wrestled with this difficulty, and an experiment is now being made by the fisheries commissioner, Prof. Prince, with a new contrivance. The thing is nothing more nor less than an elevator, which, for the benefit of the more cultured fish, may be called a lift. The fish arrives at the foot of the dam and finds his way into the elevator shaft. It is then taken up on a tray to the upper level and permitted to glide into the upper stream.

The tray goes up because another tray, which has been filling with water at the top of an adjoining shaft, gets heavy and comes down. The process goes on repeating itself perpetually. One of these salmon elevators has been built at St. George, N. B., and it works. The fisheries officials believe that this will mean millions of eggs which even the best-intentioned salmon would otherwise take elsewhere.

BELGRADE A SHAMBLES AFTER BOMBARDMENT

Nish, Serbia, Oct. 15.—The official story of the bombardment of Belgrade shows that the Germans are pursuing the same plan of extermination adopted in Belgium. Begun on the fifth, in the afternoon, the bombardment continued until the eighth without ceasing. Tens of thousands of shells of all calibres were thrown methodically with the object of making as many victims as possible and creating a panic.

Before the bombardment the enemy opened a barrier of fire on the roads leading out of the city, killing many persons who were fleeing. During the bombardment enemy aeroplanes flew over groups of refugees, signalling the route to the batteries. The southern part of the city, where the inhabitants had taken refuge, was bombarded all the night of the sixth. The number of victims was great. From a military standpoint the bombardment has had no effect on the plan of operations drawn up for the Serbian troops.

FRENCH SURGEON SEWS SEVERED SPINAL CORD

Paris, Oct. 15.—An operation unparalleled in surgical practice, for the removal of the splinter of a shell embedded the

whole width of the vertebral canal and the suturing of the completely-severed spinal cord, has been successfully performed by Dr. Emile Giron. In communicating the details of his achievement to the Academy of Medicine, Dr. Giron said he had undertaken the operation when the man apparently was dying, and that it had resulted in a manner exceeding his greatest hopes. The patient, Dr. Giron said, was now able to move his legs, his sensory powers were gradually returning, and the wound, which ordinarily should have killed the man, was healing. The patient, the doctor added, was now entirely without fever.

The annual rally of the Lenister street Baptist Sunday school was observed on Sunday with a special programme.

For Baby

The Allenburys' Foods

Now more than ever, the welfare of Baby is of great importance to the State and Empire. His welfare depends primarily upon his food, and the majority of babies are hand-fed. Opportunities for friendly advice constantly occur. Help towards baby's welfare by knowing and recommending the 'Allenburys' Foods. Among their many advantages are—

- (1) The marked similarity of the Milk Foods to maternal milk, when mixed ready for use.
- (2) High percentage of fat (cream) present:
 - (a) Human milk contains 3.5%
 - (b) The 'Allenburys' Milk Food No. 1 " 3.33%
 - (c) " " " " No. 2 " 3.06%
- (3) The ease with which the Foods are digested even by the most delicate baby.
- (4) The progressive character of the dietary.
- (5) Complete freedom from noxious germs.
- (6) Their portability and the simplicity with which they can be prepared.

Infant Feeding and Management—A sixty page booklet containing valuable information sent post free with large size sample of the Food. State age of Baby.

Game Traps

Our Traps are made by one of the oldest and best manufacturers in this particular line. They are sure to go and sure to hold. The Newhouse Traps are the highest grade, and to professional trappers no further introduction is needed than the name Newhouse. The Victor Traps are also well-known; while costing considerably less than the Newhouse, they are the best traps for the money on the market, and are made in the same pattern throughout as the Newhouse brand.

MUSKRAT OR MINK TRAPS

Single Spring With Chain

This Trap is used for catching muskrats and other small animals. We recommend it to the farmer for catching skunks, weasels, rats and such other animals as may visit his poultry houses and barns.

No.	X	H	H3
Suitable for	Rat	Muskrat	Mink
Spread of Jaws, inches	3 1/2	4	6 1/2
Victor Traps, each	15c	20c	25c
Newhouse Traps, each	20c	35c	50c

FOX OR BEAVER TRAPS

Double Spring With Chain

This Trap has double springs with chain and is suitable for catching fox, beaver and other. Professional trappers use it for catching foxes. It is very convenient in form and is strong and reliable.

No.	E	N	D
Suitable for	Fox	Otter	Beaver
Spread of Jaws, inches	4 1/2	5 1/2	6 1/2
Victor Traps, each	35c	45c	50c
Newhouse Traps, each	70c	95c	\$1.10

BEAVER TRAPS

Double Spring With Chain

This is the regular form of Beaver Trap. It is larger than the Otter Trap and has one inch greater spread of jaws. It is a favorite with those who hunt and trap for a living.

No.	X	H	H3	N	D
Suitable for	Rat	Muskrat	Mink	Fox	Beaver
Spread of Jaws, inches	4	4 1/2	5 1/2	6 1/2	8 1/2
Victor Traps, each	15c	20c	30c	40c	50c
Newhouse Traps, each	20c	30c	40c	50c	60c

JUMP TRAPS

Single Spring With Chain

These Traps are lighter in weight and therefore easier to carry than the other styles. They lie very flat and are easily secreted in the runways of animals. Made with full wide meeting faces and much less likely to break the animal's legs as are other makes of this style trap. These Traps are warranted in every respect.

No.	X	H	H3	N	D
Suitable for	Rat	Muskrat	Mink	Fox	Beaver
Spread of Jaws, in.	4	4 1/2	5 1/2	6 1/2	8 1/2
Each	15c	20c	30c	40c	50c

TREE TRAPS

These Traps are nailed to a tree over den or close to runways of animals. Another way is to fasten the trap to a board, in an upright position near places where animals frequent. The illustration shows trap in use.

No.	X	H	H3	N	D
Suitable for	Rat	Muskrat	Mink	Fox	Beaver
Size of Jaws, in.	4	4 1/2	5 1/2	6 1/2	8 1/2
Each	15c	20c	30c	40c	50c

STOP THIEF

WIRE SPRING TRAPS

For Catching Small Fur-Bearing Animals. This Trap is light, strong and effective. Kills the animal and does not injure the fur. Can be set in many places that other traps can not. No. H—For Weasels and Ground Squirrels. Each 12c. No. E—For Ermine and Mink. Each 15c. Every Trap furnished with chain.

BEAR TRAPS

This Trap is used for taking bears. It is furnished with a very strong chain.

No. RX—For small sized Bears; spread of Jaws 9 inches, weight 11 1/2 pounds. Each	\$5.00
No. R—For the common Black Bear; spread of Jaws 11 1/2 inches, weight 19 pounds. Each	\$7.50

BEAR TRAP CLAMPS

For Setting Bear and Other Large Traps. Every trapper knows how difficult it is to set a large trap alone in the woods, especially in cold weather, when the fingers are stiff. One of these clamps applied to each spring will, by a few turns of the thumb-screw, bend the springs to their places without difficulty, dispensing with the inconvenient and dangerous use of levers.

No. R—Spread 5 inches. Each	40c
-----------------------------	-----

GENUINE FRENCH MARTY MOUSE AND RAT TRAPS
The most successful Rat and Mouse Traps ever invented; they are wonderfully effective and catch their full capacity night after night as long as the rats hold out. Impossible for rat or mouse to escape when caught. Made only in France and not to be compared with imitation traps sold as "French." None genuine without trademark.

Mouse Traps, Each	35c
Rat Traps, Each	85c
