LITTLE GIRL IS BADLY BURNED

Clothing Catches Fire in Long Wharf House — Was Playing With Matches

Leaving her four little children playing together in a bedroom of their home on Long Wharf this morning, Mrs. Walsh, wife of Bernard Walsh, was startled just a few moments later on reaching the street to hear screams coming from the direction of the house. Running back she was horrified to see her six-year-old daughter, Gretel, almost throwing herself down the stairs in her haste to reach assistance, her body and clothing in flames. The child had been playing with matches unknown to the mother and one or more of the dangerous toys had fallen and set fire to some bed clothing and the flames quickly enveloped the little girl, seriously burning her body, face, and arms and scorching her hair. Her little brother ran out before her, giving the alarm, and a call was sent in from box 145 and the department responded. When it was seen how badly the child was injured the ambulance was summoned and she was taken to the hospital. Previous to the arrival of the ambulance the mother and others had endeavored to ease her sufferings and Mrs. Walsh herself was badly burned about the hands in trying to extinguish the flames and tear the clothing from the little one's body. Stephen Daley, who was nearby, took his coat and wrapped it about the child, thus aiding materially in putting out the fire. Mrs. Walsh feels very keenly about the accident. She is at a loss to know how it could have occurred so quickly, as she had been from the house but a few minutes.

SHIPWRECKED MEN ARE IN CITY TODAY

Captain Lewis and Crew of the Clayola Saved Nothing

Captain Lewis and the crew of the schooner Clayola, which wrecked ashore on Cross Island, near Machiasport, Me., on Friday night last, reached the city last night. The Clayola is owned by J. Willard Smith, and was on her way from this port to Boston with a cargo of lumber. On Friday night the schooner sprang a leak and became unmanageable. For several hours she drifted about and finally ran ashore on the island. The captain and the crew had considerable difficulty in getting ashore, and so quickly did the little schooner break up that they had to leave her and get away without any of their belongings. Later they were taken to Machiasport by the life saving crew of Cross Island. Captain Lewis and the men, considering themselves very lucky in getting ashore with their lives. The schooner is a total wreck. Captain Lewis will remain in the city for a few days before proceeding to his home in Nova Scotia.

SWIMMING THE KENNEBECASIS

One of Trio Remains in Cold Water For More Than Hour, in Attempt at Rotheasy

A Rotheasy correspondent sends the following interesting story: On Saturday evening an attempt was made to swim the Kennebecasis at Rotheasy. The yacht Helica, of Fredericton, R. I. (Doctor Part), anchored off Rotheasy Park, being the starting point, and Long Island the objective. Doctor Part, of Providence, R. I., and Doctor Ellison, Abner Brotherton, the skipper, acted as time keeper. Three men took the water at six o'clock. J. P. Burns of Dalhousie, H. Freeman of Yarmouth and F. P. Denison of St. John. Twenty-two minutes from starting Burns was lifted out of the water. Burns and Denison still stuck to their oars, but Burns was a strong swimmer with a powerful overhand stroke. In forty-three minutes Burns reached the island and commenced the return trip. Denison was only four minutes behind him, using the breast and "trudgeon" strokes. After being in the water fifty-four minutes Burns was lifted out and after a conversation it was decided to abandon the return trip. Denison was lifted out after sixty-three minutes. Both men, when seen an hour or two later, seemed little worse for their immersion in the cold water. Burns is a Nova Scotian of Irish descent. Denison is a native of Ireland and is a daily bather in the waters of the Kennebecasis. Both men are training for a big swim in July.

GUN CLUB PLANS

To further the convenience of those members of the St. John Gun Club who go to the country and find it difficult to attend the Wednesday afternoon club shoot, has been arranged to commence at three o'clock sharp. As no arrangement had been made for handicapping members who have not shot before and have no scores from which to determine an average, it was decided by the managing committee to allow these members a handicap of twelve; also, that in future no greater handicap than twelve be allowed anyone whose average is below thirteen or whose scores are below thirteen or more will be allowed the full handicap; the difference between twenty-five, which is scratch, and their average, as previously arranged. If experience proves that these handicaps do not work out properly the managing committee will change them to whatever seems most fair.
