Blackwood's Magazine AND THE British Reviews.

COTT & CO., New YORK, continue to yublish the following leading British eriodicals, viz:

THE LONDON QUARTERLY (Conservative.) II—THE LONDON QUARTERLY (Conservative.)
III—THE EDINGUAGH REVIEW (Whig).
III—THE EDINGUAGH REVIEW (Whig).
III—THE NORTH BRITISH REVIEW (Free Church)
IV—THE WESTMINSTER REVIEW (Liberal).
V BLACKWOOD SEDINBURGH MAGAZINE (Tory).
The present critical state of European affairs will render these publications unusually interesting during the forthcoming year. They will occupy a middle ground between the hastily written news-item, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals read, rs must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theol gical character, we urge them upon the consideration of the reading public.

EARLY COPPES

The receipt of ADVANCE SHEETS from the British publichers gives additional value to these reprintss inasmuch as they can now be placed in the hand-of subscribers about as soon as the original edi-

RELIEF ANDHEALTHTO YOUR INFANTS
We have put up and sold this article for over ten years and can say, in confidence and truth of it what we have never been able to of any other medicine—never has it failed on a single instance to offect a cure when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effect and medical virtues. We speak in this matter, what we do know, after the years experience, and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered. THOS. JONES
