FREIGHT RATES

Merchants of Spokane Allege Unjust Discriminations By Railroad Companies.

Spokane, Wn., Jan. 14.—A battle over freight rates, the result of which may affect wholesale centres all over the nation, began at the court house this morning before interstate commerce commissioners Charles A. Prouty and Franklin K. Lane. It is the suit of the city of Spokane the Chamber of Commerce to Spokane, the Chamber of Commerce to Spokane and Puyallup. He founded was editor of that paper for several years. He is at present a contributor to nearly all the leading poultry pacity of Spokane, the Chamber of Commerce and the Spokane Jobbers' Association against the Great Northern, the Northern Pacific and allied railway

The complaint charges unjust discrimination in fereight rates, the rates on goods shipped from eastern points to Spokane being based on the through rate from the east to the Pacific coast plus the return rate from the coast to published cases in which anaemia and other diseases of the blood as well as nervous diseases have been cured by these pills, which, it need hardly be mentioned, owe their efficacy to their mentioned, owe their efficacy to their power of making new blood, and thus acting directly on the digestive and nervous system. In all cases of anaemia, decline, indigestion and troubles due to bad blood, and all affections of the coast cities contend that the lower rate is justified by the danger that water competition would throw the traffic to steamer lines if the roads charged higher rates. It is also contended that steamer lines if the roads charged higher rates. It is also contended that to adopt the principle of requiring rates from the interior points to Spokane to be equal to or less than the rates to the coast might revolution
