

Miracle

Low Condition

From Taking Parasparilla.

Oh, I know of a land where we all have been. Yes never may go again. Though we're women as brave as ever were seen.

Cures

Parasparilla. She is getting on her feet. It is a very low condition. The lungs and bowels, and the trip across the ocean to make her feel.

THE HOME

THE JERUSALEM ARTICHOKE.

This is a plant of the sunflower family. It is known in France as the French artichoke being of the thistle family, the immature bud of which is edible.

HOUSEHOLD HINTS.

Protect the mattress by laying over it an old blanket, which is far better than a sheet, because, being wool, it absorbs perspiration without giving a chill, and also can be aired more easily than cotton.

HOW TO BUILD A CEMENT SILO.

If your site requires any excavation or drainage, see that it is thoroughly done, for no wall will give much service on a shaky foundation than a good way to build is to get some 2x6x8 spruce planks.

CHICKEN CHOLERA.

We have no confidence in remedies for chicken cholera, and believe the prevention is the only thing that can be done.

POTATOES INSTEAD OF CEBAD.

The low prices of cedar paving timber and railway ties of late years, says the Manitowish Guide, is leading some of our well-to-do farmers to considering the potato as a substitute.

WHAT A CROFTMAN SAYS:

"I found Simple Shortland very easy to learn. The weakest memory can retain the signs with ease. After four lessons I could write any word slowly."

WALTER BAKER & CO.

The Largest Manufacturers of PURE, HIGH GRADE COCOAS AND CHOCOLATES. On this Continent, have received HIGHEST AWARDS.

A CHILD'S MISTAKE.

We do not always realize the curious, and even ludicrous, mistakes into which children are led sometimes by a similarity in names. The other day, in a company of friends, the conversation turned upon the mistakes of children, and the following was mentioned:

THE WORK CURE.

In that moment when, as to most at some time or other, a kind of despairing feeling comes to you—when energy flags, and the head aches, and you feel some disappointment, sink for a moment, and the sure path into more genial, spiritual waters is the duty next you. Do your duty anyway.

WHAT AILED HIM.

A gentleman of Berwyn, Pa., who is employed with an electric light company, has two boys aged three and five years respectively. The older one, through frequent conversations with his father, is familiar with electrical terms.

THE FARM.

WHY THE MAPLE BAR FLOWS.

The maple tree is active in the summer and passive in winter. Pressure, suction and zero are conditions of the tree when not in leaf when dormant and passive. Varied weather, as to temperature, is the cause of these varied conditions.

BROAD TIRE WAGONS.

While the subject of good roads is being legislated in every section of the country those most interested in the subject are doing their best to make bad roads still worse by using narrow tires on their wagons.

THE TERRORS OF DYSPEPSIA.

A Disease that Makes the Life of its Victims Almost Unbearable. A sufferer for years tells how she Obtained Relief—A Bright Ray of Hope for Those From the Bowmanville News.
