BRAMAN'S COMPANIONS CAPTURED YESTERDAY

Police officers landed John Leggett and Cambridge Goldsworthy, near Sussex—Also recovered stolen goods from cache near Long Lake—Mystery of recent burglaries about cleared up.

John Leggett, aged 17, and Cambridge Goldsworthy, about the same age, were rounded up yesterday morning by Detective Lucas, Patrolman James McNamee and Chief of Police Asbel of Sussex, at a point about two miles from Norton, or between that village and Apohaqui. At the time the youth were arrested they were walking eastward along the I. C. R. track.

In the capture of these two young fellows the police have rounded up a quartette of thieves, viz., John Braman, Joseph Pettie, arrested Monday, and the two boys placed in custody yesterday. About all the loot stolen from W. H. Thorne's establishment on June 16th and the money stolen from Howard J. Mowatt's drug store, last Sunday morning, has been recovered. The greater portion of the stolen goods was obtained through the arrest of Leggett and Goldsworthy.

Ever since the arrest of Braman on Monday morning Chief of Police Clark has been untiring in forming a cordon about the province, so that Pettie, Leggett and Goldsworthy could not escape.

The chief went to work on the matter in a systematic manner and left no stone unturned to bring the youthful robbers to justice. He immediately sent officers to search all the places about the outskirts of the city where he thought the boys might be, and he kept the telephone and telegraph wires hot with messages to all parts of the province and Nova Scotia, giving the police authorities in the different places a full description of the fugitives.

The First Clue.

On Monday evening the chief learned that two youths answering to the description of Leggett and Goldsworthy had come out of the woods near Colebrook, and were working eastward, and officers were immediately sent in that direction. The young fellows did not remain long in the open for they took to the woods again and the next thing learned about them was on Tuesday afternoon when they were supposed to have been at Bloomfield, R. N. B. The chief then decided it would be best to send officers along the line as far as Sussex and work back westward and thus meet the young crooks. Accordingly Detective Lucas and Patrolman McNamee were despatched from the city on Tuesday night's express leaving at 11.30 o'clock. This proved a good move and resulted in the quick capture of the two wanted.

When the St. John officers arrived at Sussex early yesterday morning they were met by Chief Asbel of that town. An automobile was secured and, shortly after daylight, the three officers started along the road westward. It was learned by the officers that Leggett and Goldsworthy had passed through Bloomfield about five o'clock Tuesday afternoon and were walking along the road in the direction of Bellefleur.

Doubled on Their Tracks

The young fellows had walked along the Bellefleur road for some distance and turned back along the back road going in the direction of Sussex. Yesterday morning about eleven o'clock the officers located the two youths walking along the track about two miles from Norton. The boys did not see the officers who managed to take a point so that the young fellows were quickly surrounded when they reached the spot where the officers arose about them and covered them with their revolvers. The boys had no chance to escape and called out that they were unarmed. They were immediately taken in charge and searched.

Goldsworthy had nothing in his pockets of any consequence, but his companion was well supplied with money, having no less than \$125.20 which the police say is part of the money stolen

HON. J. K. FLEMMING DENIES UNTRUE STORY IN TIMES

Gave no instruction for payment of W. H. Berry, either in May or June—The Times caught in another falsehood.

In reference to the statement in the Times of Tuesday in connection with Hon. J. K. Fleming and W. H. Berry travelling together to St. Stephen on June 2, Hon. Mr. Fleming said, yesterday, that on that date he did go to St. Stephen by train from Woodstock. At McAdam he met W. H. Berry and travelled on the same train with him to St. Stephen. In consequence of the fact there was no other train, Mr. Fleming, previous to his arrival at McAdam, had no knowledge that Berry was going to travel on the same train from McAdam.

On his arrival at St. Stephen Hon.

Parades and Picnic part of programme—Non-political dinner to Hon. Mr. Hazen, by Fishermen's Protective Association.

Saturday will be a gala day in Lorneville. The glorious twelfth will be celebrated in the morning and afternoon by two parades and a picnic. In the evening the Fishermen's Protective Association which has been recently formed, will tender a non-political fish dinner to the Hon. J. D. Hazen, K. C., M. P., Minister of Marine and Fisheries and honorary president of the association, John B. M. Bax, K. C., M. L. A., and Thomas B. Carson, M. L. A., the local members for the county and G. Earle Logan. This dinner is being tendered showing the appreciation of the fishermen of Lorneville of the successful efforts put forward by the local members in defeating the St. John River Hydro Electric bill before the local legislature last March. Mr. Logan acted as counsel for the fishing interest of St. John harbor, Lorneville, and Musquash. C. B. Lockhart, M. L. A., and Commissioner R. W. Wigmore will be present as guests of the association.

Buried Loot in Woods

After being captured Goldsworthy appeared to be rather nervous. His companion looked as if he was greatly worried over being captured. Detective Lucas in a talk with Leggett managed to get him to tell where the articles stolen from the Thorne company's store was. Leggett informed the officer that there was a large quantity of articles hidden in the woods and would show where they were.

Last evening about 7.30 o'clock Leggett was taken from the central station and with Officers Lucas and Pettie drove to Long Lake where the young crooks have had a camp. At a place in the woods near the back of the lake, and some distance from the camp, he pointed out where the articles were buried and these were recovered by Officer Lucas. It was necessary to take a large valise to carry the stolen articles. When the valise had been filled to the top it was brought into the city and Leggett was once more placed in the cell, where, with his companion he will remain until this morning when he will be arraigned before Magistrate Ritchie, and most likely remanded to jail to await a preliminary hearing on the charges of breaking and entering and stealing.

The Stolen Property.

The stock of stolen articles recovered by the police from the hiding place of the thieves would be worth a tidy sum of money, the list in part, being as follows:

Two .32 calibre Savage automatic revolvers, one .38 calibre Browning automatic revolver, one .25 calibre Browning automatic, one .45 calibre Colt revolver with holster and belt, one cartridge belt, two hunting bags, one full of ammunition for the .25 calibre Colt revolver, and the other containing about six boxes of ammunition, amounting in all to about 350 rounds.

After recovering the above articles Officer Lucas drove to Leggett's home and there he found a .38 calibre Savage revolver and a cartridge belt. Most all of the revolvers recovered were loaded.

No Scarcity of Guns.

The premises of W. H. Thorne and Company were broken into on June 16th, and the next two days no less than four camps in the vicinity of Long Lake were broken into, the camp locks having been broken by being shot off with revolvers.

Officer Lucas had a look about this section of the lake shortly after and found a number of empty cartridges and it is possible these will furnish some evidence as to the persons suspected of the breaks.

Officers Lucas and McNamee when they arrived in the city yesterday evening they were pretty tired having been without sleep for over thirty hours. They speak in the highest terms of the work done by Chief Asbel of Sussex.
