HANDSOME NEW CARS.

Some Elegant I. C. R. Property in
the City Tuesday.

The I. C. R. has recently purchased a considerable quantity of handsome rolling stock from the Barney & Smith Car Company of Dayton, Ohio. A passenger and sleeper coach of the new purchase, comprised part of the train which left for Halifax last evening. The coaches were sumptuously equipped, and models of elegance and comfort.

The coaches are especially graceful in design, and artistic in decoration. The wood finishings throughout are of light oak, and carved into fanciful and pleasing patterns. The seats are of the reversible type, very commodious and covered with tinted plush.

The coaches are lighted with the "Pintech" gas, the jets of which are placed in specially designed globes.

The parcel brackets are attractive, being of solid brass rods, worked and brought into clever patterns.

Every toilet accommodation to be found on the leading railways is included in the I. C. R. latest property. Mr. E. G. Russell last evening said that in regard to easy locomotion the cars were in every respect the equal of any belonging to the large American railways upon which he had travelled. "Each of these cars," continued Mr. Russell, "which have been purchased at quite as much as a first-class locomotive, that is to say, about \$19,000."

THE NORTH SHORE.
Visiting Anglers Perform Generous Act—
Much Building Going on in Campbellton.

Campbellton, June 11.—The new jail of Campbellton is nearly completed.

Dr. Webb, of the Vanderbilt railway system, and party of anglers, arrived at Campbellton Monday by special train. They will be about a week on the Restigouche, salmon fishing.

Campbellton is still building up. K. Shives is putting up a building for a steam laundry on the north side of Water street, to be run by Dr. Sprule.

Wm. Glover, who lately sold out to Adams, Currie & Co., has started a new building west of his old stand.

D. Bruce is putting up a fine building opposite the Baptist church. The ground floor will be occupied by Alex. Firth as a book store.

Mountain residences are also in course of erection.

The sewerage commissioners have extended the time for receiving tenders to the 22nd inst.

It is expected that the Bank of New Brunswick will open its agency here next week, as the building they are to occupy is now being put in condition.

The early closing law of certain business places in town is causing quite an ill feeling and a petition, numerous signatures, is being sent to the town council against the enforcing of the by-law. Complaints have been laid for the infraction of the by-law, but it is questionable in view of public feeling whether the prosecution will be proceeded with or not.

The non-resident anglers of the Restigouche have generously undertaken to put up a new barn for Geo. Mann, who last week had his destroyed by lightning.

FIRE AT ST. MARTINS.
Wm. H. Davidson's Dwelling Entirely Destroyed Tuesday Night.

St. Martins, N. B., June 12.—A dwelling house on Chester street, owned and occupied by William H. Davidson, was entirely destroyed by fire last night. Mr. Davidson is away from home working with Barclay Bros. and there was no one in the house at the time but his wife and two small children. Fortunately the fire was discovered before it had retired or the consequences might have been more serious. All the contents of the house were saved, and there being no wind the fire was easily prevented from spreading.

Mrs. Davidson cannot account for the fire, but it is thought it was caused by a defective fuse, as the fire first appeared in the roof. The loss is partially covered by insurance in the Manchester.
