A Bright Outlook.
"Whatever I have been, and that means nearly every thing," said Mr. Copp, "and the opposition party as a union and confident as it is possible to be. There is more enthusiasm among the workers than I have ever seen in a party on the 'eve of battle' and everywhere I find indications of stronger feeling against the government on account of broken promises and unfulfilled pledges."

REAL ESTATE IMPORT

Property—Mr. Finn action Closed—Sale
That the activity in Courtenay estate has barely commenced is the fact that negotiations are in progress for some of the largest deals in that section which have yet taken place. An interesting purchase was made yesterday when H. F. Gordon, of Brunsell, bought the two lots on the east corner of Red Head and Leonard roads on "Island Place."

Farmers Fooled.
To my mind the present government and the governments which preceded it stand condemned for not giving the farmers a square deal. What the government spokesmen boast of what they have accomplished I am sure farmers in my audience will agree with me that the government has never brought any direct advantage to them.

Cheap Money for Farmers.
"If I am elected to office," continued Mr. Copp, "I will undertake to see that the farmer will directly benefit from the provincial treasury, with the object, principally of keeping our own boys at home, I will inaugurate a system of loaning money on, or guaranteeing loans on farm properties at a low rate of interest and increase the rate of interest on the money loaned to the farmer to 10 per cent. The public debt of the country is made up largely of subsidies to railways and guarantee of bonds, of measures for the benefit chiefly of the wealthy, whereas the present campaign has founded subsidies were granted the province had no money, who in the case of bond guarantees the security is in the hands of the government.

Will Take Highways Out of Politics.
Mr. Copp made a most effective criticism of the government's administration of this province, and said the chief cause of the exceptionality which greeted his statement was the money expended under partisan direction for political effect.

Mr. Copp
Mr. Copp was then heard in a masterly address, scoring point after point against the government and outlining his own policies which have been received with much favor by the people of the province. After dealing with the financial standing, the debt increase, and pledging of the credit of the province to the extent of \$7,267,000 for railways, Mr. Copp dealt with the stumpage question and crown lands policy, proving conclusively that an increase in toll accounts for the increase in the receipts and advocated the taking of an inventory of the crown lands in order to take proper steps for their preservation. After predicting success for the party, Mr. Copp touched on the aid to agriculture and the expenditure of road money, two matters of vital interest to the province. On these latter points he said in part:
