A "FENIAN" SHOT DEAD IN WALLACE.

During last and the fore part of this week the good folks of Wallace have been so ex-cited over the anticipated Fenian rising, that many of tham have passed sleepless nightand anxious days. But we are glad to learn that they, as well as the neighbora. of the adjoining townships, have arrived at the conclusion that there is no occasion for enemv all "this ado about nothing." To give a faint idea of the extent to which this unnecessary excitement was carried, we have only to chronicle the fact that one of the Fenians was shot dead a night or two since by a Wallace farmer. He retired to bed with his better half, not without making himself sure, however, that his musket would not be found wanting in the hour of need. He laid himself quietly down after the usual preautionary measures had been taken, placed his "shooting iron"-doubly charged -by his side, and waited patiently without closing his already over-tasked organs of vision. No sooner had the clock announced the hour of twelve, than a noise was heard at the four-paned window, and a piece of an old Elora "Observer," which was pasted over a broken light, ruthlessly torn off. Imagining that the Fenians had arrived in earnest, he jumped up in the twinkling of an eye-the wife cried Holy St. Peter save us-the children were in an uproar-the dog barked savagely-the cock crew-the musket was discharged and as quickly reloaded. Having waited in breathless suspense for a quarter of an hour, and hearing no further noise than the dying struggles of his poor victim, our hero crept noislessly to ness of apprehension, are really and truly the door, opened it, and OI the sight that presented itself to his astoniahed vision—the dead body of one of his best cows was welastonishing.

Rumours.

A great many rumours have been flying about town for the past two or three days some of them calculated to have a most mis chievious tendency by shaking confidence in the immediate future of the country. S far as we can learn, nothing has transpired to alter in any way our political relations with foreign nations. The latest telegraphic news contains no hist of these alarming ac counts. The Quebes papers of Saturday have statements which we quote with refer ence to the calling out of fifteen more com panies of volunteers. But down to a late hour vesterday afternoon, nothing had been heard on this subject at the office of the Brigade Major ; nor do we find the order referred to in the Official Gazette. We may add that nothing had been heard with reference to the story of the two young men members of the Victoria Rifles, having been placed under arrest, and that that statement which was rife in town on Monday, is be lieved to be untrue. We have the best authority for saying that all the men are behaving exceedingly well .--- Montreal Herald.

Quebee, Dec. 31. Yesterday, at the parish of Chateau Ri-cher, about fiftceu miles below Qaebee, in the county of Montmorenei, the habitants misunderstanding its nature, resisted the draft for the service Militia, which was attempted to be carried out agreeably with the general order of the 13th inst. There was quite an affray, violence was used, and the authorities had to leave,

As soon as the news arrived bere, two companies of volunteers and two field batteries were ordered to the scene of action.

Upon their arrival it was discovered that the rioters had fled, and only three men were found, two of whom were arrested. The draft proceeded this morning without inter ruption, and the volunteers returned to the

city. The affair caused quite an excitement.— The inhabitants were afraid that they were to be called out for frontier service.

Pay of Volunteers. A good deal of confusion and some dis-

cussion is going on in the newspapers, just now, in reference to the pay which the government will allow to the Volunteers who may be called out for active service. The 18th clause of the Volunteer Militia Act (27 vic. cap. 3) specifies that the Volunteers may be called out in aid of the civil power in case of riot or other emergency, and shall, when so employed, receive from the municipality in which their services are required, the following rates of pay-viz., officers the daily pay in Her Majesty's service, with an additional sum to each mounted officer, of two dollars per day, and non-commissioned officers and privates one dollar each per day. with an additional dollar per day for each

horse actually and necessarily used on such occasion, and shall be provided with proper lodging by such municipality.

The 42nd clause of the same Act provides that -"Whenever the Volunteers, or any part thereof, shall be called out by reason of war, invasion, insurrection, or imminent danger thereof, the officers, and men of the Volunteers, so called out for active service, shall be paid at such rates of daily pay, and shall receive such allowances in every respeet as are paid and allowed to officers. non commissioned officers, and men of the relative and corresponding rank or grade in

Her Majesty's service."

It appears, however that the government is determined to act in a more liberals manper with the Volunteers, and remunerat them for the time they may loose in assisting to preserve the peace of the country Those who grumble at the ides of giving the Volunteers liberal payment should remem ber that a large proportion of the companies is made up of artizans, mechanics and other who are in a position to earn good wages at home, and whose business would suffer materially, by being taken to the frontier

MORE VOLUNTEERS CALLED OUT .- A General Order, published in the Official Gazette of Saturday, states that His Excellency the Commander-in Chief has been pleased to call out for active service fifteen compa nies more of the Volunteer Active Force the Province, to be added to the three Administrative Battalions named in the General Order of the 23rd ult. Five of the fifteen companies are to be from Montreal. The remainder is to be composed of one company from the 29th Battalion V. M. Infantry, St. Catherines, the Dunnville Rifle Company, the Simcoe, Barry, Whitby, and Scarbor-ough Rifle Crmpanies, the Lacolle Infantry Company, the Hemmingford Company, the Megantic Rifle Company and one Company from the Richelieu Light Infantry; the whole to be apportioned as follows :- Four with the first or Western Administrative attalion, and to be stationed at Windsor; Brady, Peter Buchanan, John Brown, John six with the central battalion, and to be stationed at Niagara; and five with the third

or Eostern battalion, and to be stationed at Laprairie .- So says the Quebec News.

Apropos of the approaching draft a cor-respondent of La Minerse writing from the country says :- "It is astonishing how connubial our young habitants have since it is proposed to draft for the Service Militia. Within the last few days six couples have received the nuptial benedic-tion in the little church of our little village and five others are about to follow them to the altar." In view of the above it may be well to state that married men are placed in the second class of available men, and are only drawn when the unmarried list is ex-

A terrible accident happened on the North Kent line, December 16th. A train from Maidstone ran into a train of ballast trucks, in the Blackheath tunnel. Several of the in the Blackheath tunnel. Several of the passenger carriages were smashed and many of the occupants wounded. Unfortunately the mischief did not end here, for 'no less than five men were killed. They were all men employed by the railway company, and had probably been engaged with the ballast trucks when the accident happened.
