Canadian Air Transport;

Dear Sir;

With regards from a phone call which I have received from Mr. Zane Pikowicz. as to registration of a Piper PA-20 Cdn. registration CF-DGL your file no. DGL (WCAR)

I have purchased the above mentioned aircraft,, for parts and it will no longer be in service . It has been dismantled and should not be on the register for airworthiness

I have the log books but do not have the Certificate of registration which Mr. Pikowicz has asked me to forward to you. However I beleive this letter will suffice in confirmation that the aircraft is no longer in service and can be removed from the Canadian aircraft registry.

WCAR

Piper PA-20 1a4 ser no. 20-398

Engine ser. lycoming O-290-D 430:00

Propeller Semsenich ser. no. 1308:00

date of last C of A July 7, 1972 registered CF-DGL

This aircraft has been dismantled and will no longer be in service

I hope the above information is what you require and that this will releive Mr. Pikowicz of any further responsibility with regard to this Aircraft ..

If you require any further information please feel free to contact me.

Kind Regards;

*George Fortin*
