AN OLD CHURCH BELL

IT CAME FROM LISBON AND HANGS IN A NANTUCKET CHURCH.

The Story of Its Purchase by Captain Clasby and Its Transportation to This Country—A Very Good Clock and a Very Fine Bell, Beneath the outlook in a Nantucket

thurch is the belfry, in which swings the "old Spanish bell." Knowing that this is now a Unitarian church, the visitor will be surprised to see a Catholic cross on the bell. If he could read Porruguese and had not previously acquainted himself with the history of the bell he would be still more sur prised at the inscription on it. translation of this inscription is as fol-lows: "To the Good Jesus of the Mounmin the devotees of Lisbon direct their prayers, offering Him one complete set of six bells, to call the people to adore him in his sanctuary. Jose Domingos Dacosta has made it in Lisbon in the year 1810." Of course the bell must have an interesting history to account for this inscription. That history is briefly as follows:

A plague was raging in Lisbon and certain people in that city prayed to the Virgin Mary for the cessation of the plague and vowed to place a set of six bells in the Church of the Good Jesus of the Mountain if their prayers were heard. "The Mountain" name of a certain district in the city of Lisbon in which there is a very ven erable church called as above. Shortly after this the plague ceased, and, ac cepting this as the answer to their prayers, these devotees of Lisbon proeded to fulfill their vows. The work of casting these six bells was intrusted to Jose Domingos Dacosta, the best

bell founder in Lisbon.

The six bells had been cast, the mas ter's labors had been crowned with success, when Captain Clasby of the Nantucket whaling fleet chanced to visit Lisbon. He had long wisited to buy a bell for use in his native town. In company with Captain Cary he visited the bell foundry of Jose Domingos Dacosta. Captain Cary, it seems, was a connoisseur in bells. Daosta applied the lever to one bell after another as he struck each to ascertain its peculiar tone or tone quality, but each time Captain Cary said, "That will not do."

At last Dacosta raised and struck the bell whose history we are describ-ing. Captain Cary was delighted with the result. "Ah, Clasby," he said, "you need look no further. That's the bell you want. She is a beauty. She

sounds on B."
"Well, sir," remarked Dacosta, "we consider that to be the finest bell that we have in our foundry."

At first Dacosta demurred and could

At first Pacecu de and to selling the bell, since it belonged to the set of chimes designed for the Church of the Good Jesus of the Mountain and was Good Jesus of the Mountain and all appropriately inscribed and all, but Captain Clasby would have no other. Finally Dacosta decided, since the bell had not yet been consecrated and since he could cast another to take its place, that it would be all right to sell.

So Captain Clasby bought the bell, and it was brought to Nantucket by Captain Cary, whose vessel was going home first. In Lisbon, just before he set sail, Captain Cary heard of the declaration of war with Great Britain, for it was now the year 1812. On the way over they were spoken by a Brit-ish sloop of war. Fortunately the Brit-isher had been at sea for some time and had not yet heard of the declaration of war. "The commander asked Captain Cary the news, but Captain Cary says he took especial pains not to tell all he knew. If he had told, our precious bell would probably never have seen Nantucket. It might now be either at the bottom of the sea or it might be swinging in the tower of some English church.

The bell was landed Nantucket and placed in the store cellar of Samuel Cary, where it remained until 1815, when it was purchased and placed in the tower where it now hangs. About \$500 was given for the bell-the society paid about \$350 and the rest was raised by subscription. Even some Friends or Quakers subscribed.

After the bell had been in use a little while the agents of the historic Old South church in Boston heard of it, and they sent a letter to the agents of the South church in Nantucket, saying that south church in Nantucket, saying that they had a very good clock in their tower, but no bell; that they had heard that the South church in Nantucket had a very fine bell, and they would like to know for how much the bell could be bought.

The Nantucketers replied that they

The agents offered to pay \$1 a pound for the bell. Since the bell weighs 1,575 pounds, this would have made the price \$1,575, making a net profit of \$1,075 above the price paid for the bell and \$1,225 above the amount contributed by the society. It seems that the old Nantucketers must have had some sentiment after all and were not purely mercantile in their spirit.

mercantile in their spirit.

If the Nantucketers had agreed to sell, as they might have done, our bell would probably be hanging in the historic tower of Old South church in Boston today. That might have been a great donor for the bell, but it would have been a great deprivation for Nantucket. Moreover, it would now be spending its time in elegant leisure instead of being a very useful bell where it is. The history of this bell is like a verttable parable of human life. The possibilities which occur in the history of the bell remind us of the possibilities which abound in every life.— Opr. Springfield Republican. Springfield Republican.

What a splendid type of tireless activity is the sun as the psalmist describes it issuing like "a bridegroom from his chamber and rejoictors like astrong wants wants." describes it issuing like "a bridegroom from his chamber and rejoicing like a strong man to run a race." Every man ought to rise in the morning refreshed by slumber and renewby rest, eager for the struggle of the day. But how rarely this is so. Most people rise still unrefreshed, and dreading the strain of the day's labors. The cause of this is deficient vitality and behind this lies a deficient supply of pure, rich blood, and an inadequate nourishment of the body. There is nothing that will give a man strength and energy, as will Dr. Pierce's Golden Medical Discovery. It does this by increasing the quantity and quality of the blood supply. This nourishes the nerves, feeds the brain, builds up enfeebled organs, and gives that sense of strength and power which makes the struggle of life a joy. The "good feeling" which follows the use of "Golden Medical Discovery" is not due to stimulation as it contains no alcohol, whiskey or other intoxicant. It does not brace up the body, but builds it up into a condition of sound health.
