

# The Fleury Pulverizer

## Pulverizes and Packs the Soil

### How a Pulverizer Helps

A good seed bed is composed of a fine mellow soil well packed to ensure capillary connection with the subsoil.

Such a seed bed will produce better crops than a lumpy one of the same chemical composition.

This is why a good pulverizer should be a part of your equipment. Other things being equal it insures better crops.

It is often necessary to plow land when it will break up into large chunks or clods. In such a case, a pulverizer is indispensable for fining the soil.

The fact is, almost any soil is benefited by being pulverized and packed after plowing, regardless of its condition.

Light, loose soils are kept from drifting by being treated in this way.

### The Fleury Does the Business

In the first place it is sufficiently heavy for its work—there is no necessity for weighting.

The sections are so constructed that they pulverize all lumps and pack the soil so it is in good seed bed condition. At the same time, it helps to produce a surface mulch which holds moisture.

It does the work of both a pulverizer and a land roller. Also, this pulverizer is sufficiently flexible to accommodate itself to rolling land.

Besides this, it is very durable. It has bushings that take the wear instead of the wheels. The ends of the wheel hubs are chilled, which reduces the end wear on the wheels.

#### READ WHAT A FARMER SAYS OF THE FLEURY PULVERIZER "TONGUE TRUCK"

John Deere Plow Co., Winnipeg, Man.

Hamota, July 8th, 1910

Dear Sirs:—Yours of the 5th inst. to hand re tongue truck for pulverizer, and beg to say it is entirely satisfactory and much easier on the horses than the old style. My man drove the old style pulverizer last year, and he says that the tongue truck makes a wonderful difference to the horses; it apparently is perfectly strong and I think there is not much room for improvement. We packed about 175 acres with it and you can hardly tell it has been used, and I would not buy a pulverizer without a tongue truck at any price after using it with one.

Yours truly,

WM. WRIGHT

These are a few of the excellent features of the FLEURY PULVERIZERS. Ask us for further information. Fleury Pulverizers are made in the following sizes: 16 Section, 1 pole. 22 Section, 1 pole. 22 Section, 2 pole. 24 Section, 2 pole. 22 section, 2 pole, pulley hitch, with double trees. 24 section, 2 pole pulley hitch, with double-trees. 22 section with tongue truck.

# NEW DEAL WAGON

### New-Deal Wagon

Is made of air-sea-sored lumber.

Is equipped with double collar skein.

Skeins are dust-proof, therefore will hold grease longer and run easier than others.

Skeins are heavier; bell is longer and larger, taking more axle.

Has riveted grain cleats (not nailed or screwed).

Bottom of box is reinforced both front and rear.

Has clipped gear, both front and rear.

Box is made flax tight

### New-Deal Wagon

Spring seat with 3-leaf springs (not single leaf).

Steel bolster stake plates on side of box.

Neckyoke 48 in. long (not 42 in.)

Has trussed tongue, cannot break or warp.

Has a channel iron reach really indestructible.

Is extra well painted, striped and finished

Possesses a great many distinctive features of merit.
