The Tractor Demonstration at Cobourg

(Continued from page 3.)

display was a continual reminder to display was a contract contact to the prospective tractor buyer that when he has purchased his tractor his outlay has only begun. In fact, one tractor user from Hastings county estimated that the cost of a tractor was not quite 50 per cent of the whole machinery and tractor hitches would cost equally as much. In addition to these implements, there was a large these implements, there was a large exhibit of small threshine machines and ensilage cutters and blowers, Manufactures evidently recognize that the popularizing of the tractor is going to mean also a wider use of small capacity threshing machines to inform he tractor news. They also amatic capacity threshing machines to be driven by tractor power. They also recognize that farmers are going to own their own silo filling equipment and they are preparing to meet this demand

In all, some 70 companies had exhibits on the grounds. In addition to the tractors and tractor accessories, there were three companies with milkthere were three companies with milk-ing machines, several with gasoline and kerosene engines and a long ar-ray of home lighting plants, water systems, and even power washing machines. If these household conmachines. If these household con-veniences also are due to arrive along with the tractor as a part of the pow-er farming of the future, then the trac-tor will be certain of an abundant welcome from the farm women of Onintin.

milk shall be 35 cents per gallon, de-livered to the distributors, and that the price of cream be 7 cents per point butter fat. Owing to the feed and butter fat. Owing to the feed and labor situation those prices are re-commended only for the period to January 1st. They constitute an advance of 40 cents per eight gallon can over the price recommended by the association one year ago.

association one year ago. In the Toronto district the pro-ducers announce a change of policy. Immediately after the meeting of the Toronto Milk Producers' Association at which a price of \$2.80 per elekt sallor as was decided upon, the Milk Dealers' Association announced that they would not pay this price and proceeded to look for milk further afield. The producers now approunce that they added the per third price along the look for milk furthers field. The producers now announce that their advance will not go into effect on October list. At a meeting of the executive held on Suci. 18% is a second of the executive held on Suci. 18% is the second of the executive held on Suci. 18% is the transformed to the executive held on the price of the executive held on the price of the executive held on the held of the executive held of the difference of the held of theld of the held of the held of the held of th

(9) Prices for Condensed Milk

1069

HE prices being paid by the milk condensories for their milk f.o.b. the factories for the month of September, as gathered by Farm and Dairy, are as follows :---

Canadian Milk Products, Limited, controlling plants at Brownsville, Belwith an element \$2.26 for 3.5 milk points, is paying \$2.26 for 3.0 mink with an advance or deduction of three cents for each one-tenth of one per cent increase or decrease in the test. In other words they pay \$2.29 for 3.6 milk and \$2.23 for 3.4 milk.

The Borden Condensories are pay-ing \$2.30 for 3.5 milk with the same increases and deductions as Canadian Milk Products, Limited. The Carnetion Milk Company are paying \$2.37½ for 3.5 milk with in-creases and decreases of 6½ cents for each point change in the test of the milk. That is, for milk testing 3.6, they pay \$2.34, and for milk test-ing 3.4 they pay \$2.92

The Peterboro' Milk Products, Lim-

The Peterboro Milk Products, Lum-led, contracts run from May to Octo-ber. They are paying \$2.10 per 100 lbs. and paid that when some of the other condensories were paying \$1.90 during the summer months. They state that their milk has not tested over 3.02 and considerable of it has

over 3.02 and considerable of it has

The action of the Toronto Milk Producers in demanding \$2.80 for an eight gallon can of milk, means that they

gallon can of milk, means that they expect to receive \$3.50 for 100 lbs, of milk. If the Toronto dealers pay this price it will affect the price of all the milk condensories. As the amount the condensories can pay is finited by the Ailled Governments Purchas

by the Ailfed Governments Purchas-ing Commission, it may necessitate a complete readjustment of prices in all these districts. For this reason it is possible that the Canada Food Board will endewror to prevent the Toronto producers obtaining the increased prices they are asking for.

Extended Harvest Leave

THE Militia Department has issued

ference to harvest leave

"Instructions were issued by tele-gram from Militia Headquarters to

all military districts on the 14th inst., extending harvest leave until October 31 to all men in Categories "A." "B" and "C" who were actually working

on farms and required for the purpose

of saving the crops, subject to im-mediate recall should necessity arise. District Commanders were by the same wire ordered to deal with ail

cases so as to avoid unnecessary travel and expense. Supplementary instructions were also forwarded to

Instructions were also forwarded to District Commanders to notify all men concerned by letter or telegram, as circumstances might require, in order that it should not be necessary for men to return to their unit headquar-

ters to obtain extension of leave. This

extension of leave of absence applies

given to permit them to work on farms, whether such leave was grant-

ed by Commanding Officers or leave of absence boards. Any man by whom notification has not been received should communicate at once with his

"The action thus taken will to some extent retard the flow of rein-

some extent rearrance the now of rem-forcements, but it is considered that it is justified by the special needs of the spricultural community at this season and the importance of increas-ed production. All men on leave are

expected to report promptly on Octo-ber 31, and an effort will be made to

make up for time lost by speeding up training during the month of Novem-
