COMPTON CENTRE.—Super making is
coming on now. It has started earlier
than usual this season. The roads are
very poor and teaming will soon be over.
Beef and pork are scarce. Butchers are
paying from 4e to 6e a lb for beef, and
from 12e to 12je for pork. Hay is very
scarce. It sells for \$12 a ton, and it is
hard to grea at these prices.—It. G. C.

SOUTH WALSINGHAM. Hogs are selling for 89 a cwt.; beef, from 6e to 7e a bl; eggs., 25; a doz; butter, 25c; wood, 81.0 to 82 a cord. Stock all looking well, feed and water pentiful. The greatest extended with the selling will in all propagation gal.—B.B.

ELGIN CO., ONT.

ELGIN CO., ONT.

ST. THOMAS. — We have had a fize, steady winter, over 70 days sleighing and no extreme cold. There is copients to a serious shortage of feed. Many farmers are buying hay already our spring crops last year owing to the wet spring, did not amount to anything, not even straw. Wheat was the only good crop. The acreage of hay was above the average, and of fine quality.—J. B.

MUSKOKA DIST., ONT.

MUSKOKA DIST., ONT.

GRAVENHURST.—The ice harvest is mostly all done. Cattle are wintering fine. Feed is holding out well. It has been a very poor year for bush work, not enough frost. Some are starting sugar making.—B. L.

MANITORA

MACDONALD CO., MAN.

MACHONALD CO., MAN.
DAODTAM—This size in as been exoptionally favorable with as. No extreme cold to report and thawing the last
few days. Farmers are nearly all ready
for spring work. Four 20 horse power
gasoline motors of the International Machinery Co. are being shipped into this
place for plowing and several smaller
crushing, etc. Grain is all shipped out,
all indications are for about the same
accusping some flax which is being held
for possible demand for seed later on.

## THE DRILL THAT BRINGS BIG CROPS

The LEADER is not just an ordinary drill by any means, but every part has been designed and built just as well as it is possible to make it, and every operation it has to do has been considered, and the drill built to do it as well as it can possibly be done.

The left lever forces the furrow openers into the hardest ground, or Hoel open the land just right for the seed to be deposited and properly covered. They do not clog in trashy or wet land. The force feed forces just the correct amount of seed out all the time without skip. ping or bunching.

The draft is light, and the drill properly balanced. This is the drill you want. You had better order one at once
