When the readjustment of salaries and the weeding out of employes of the public works department had been completed on Saturday. Controller Cote stated that about 60 men, mostly chaimmen, had been dispensed with, making a reduction in the pay lists of about \$62,000. The nine-hour-a-day system will be introduced later for certain permanent employes.

### A DEBTOR NATION

r that Foreign Credit of United States May Become Greatly Re-stricted.

New York, June 15.— International bankers and foreign exchange experts have pointed out, in discussing the flood of gold exports that with the gradual movement of the trade balance against the United States, which seemed certain to continue under the new tarifft and other conditions, the country might become permanently a debtor nation, and our credit abroad greatly contracted. With the rise of exchange to a new high level international bankers, said that they saw little hope of a cessation of the gold export movement until well into the summer. Demand sterling reached 4.59 to 4.896 on Saturday, the highest level for over fifteen years, a higher 's sava on Saturday, the highest for over fifteen years, a higher than it' reached in 1895, when fork bankers banded together in eement not to ship any more gold the country until conditions in improved.

The gold was engaged on Saturday by the Hanover National Benk, and Bernhard, Scholle & Co.

### MARBLE AT ST. JOHN

St. John, June 12.—Some time ago the deposit of marble at Marbie Cove in the North End of the city came into some prominence, because of the possibility of making it an asset of value. The land is the property of the city. Nothing happened, however, but the matter is revived after Mayor Fink's return from Toronto, where he attended the Town Planning Congress. While there he drew the matter of this large deposit to the attention of Wm. F. Bowen of the Crow Lake Iron and Lands Co. Mr. Bowen asked for samples, and these the mayor has secured and is forwarding them to the Canadian office of the company in Narmora, Ont. The company operates both in Canada and the United States.

No sane or honest insurance company would insure his life, however. The falling of the curtain for him has been arranged several times. But archness is Balar Singh's trade, and he foreman or Nirvana.

A few days ago, it is whispered among the Himdus, the prophetic discernment of Balar Singh again saved him. The result, is that some of the Hindus regard the spy as being under the special protection of a very powerful devil and are in favor of giving him up as a bad job. There is another faction which would cheerfuly continue its endeavors to abolish him. But this matter of the extinction of Balar Singh is not what the row is about in the temple of the direct source of all the falsetto and alto language. The prunjab's tongue is a jangting, twanging series of lingual privations at best. The, truth is, so the prophetic dispensed by their crews, or as the free-booting Sikhs in the old time deposed their military commanders when they lost fayor.
