THE RUSSIAN MULBERRY

Was brought from 49° north Lat. in Europe, and introduced into this country by Russian Menonites, many of whom settled in Nebraska several years ago. The trees are of a distinct variety, do not degenerate from the seed, are of rapid growth, and after the third year from the seed are continual bearers of a fine fruit, which much resembles the Blackberry in form and color, and is somewhat similar in taste. This tree is very hardy and tenacious of life. Utility and ornament could not be better blended in any tree.

WATEROUS ENGINE WORKS CO. BRANTFORD CANADA

The sectional safety boiler is manufactured expressly for the "North West" trade. This boiler is so arranged that it is readily taken apart in sections enabling purchasers to clean thoroughly every part of it and prevent burning out. We know from experience this is absolutely necessary with the alkaline waters of the great Western prairies. Largely used by the Pacific Railway Company and all the large Colonization and Rancho Companies.
