OF SHORTHORN CATTLE AND
LINCOLN LONG-WOOL SHEEP
HENRY DUDDING,
Ribby Grove, Great Grimsby, Lincolnshire.

To get Champions by the produce of
Champions. These can always be secured
from the Ribby Grove Herd and Flock, the
largest in England, comprising the choicest
lines of blood extant. Theirs is a world-wide
reputation, and suffice to say that at no period
of its history, dating back 150 years, were they
stronger in merit or quality. 86 awards were
won in 1901, and equally good results secured
in 1902, culminating in those great victories at
Smithfield Show, where its pen of wethers won
the 100-guineas Challenge Cup for the best
pen of sheep of any age or breed; and at
Chicago Live Stock Show, in December last,
where a ram from this flock won the \$400
prize offered for the heaviest sheep in the
world. CABLE—Dudding, Keelby, England.

English Shorthorns.

Booth and Bates Shorthorns, topped with Cruik
shank bulls. Young cows, bulls and heifers always
on hand for sale. Eligible for the American herd-
book. Royal and Highland prizewinners included
for the last two years. Close on £400 won in prizes
last year and this.

SHORTHORNS AT ST. LOUIS.

The executive committee of the Ameri-
can Shorthorn Breeders' Association has
decided to enter Shorthorns in the dairy
contest at St. Louis. The herd will be
in charge of Mr. H. H. Hinds, of Stan-
ton, Mich., who had the management of
Shorthorns during the World's Fair dairy
test. All Shorthorn breeders who have
cows of rare merit as dairy animals are
requested to report as soon as possible to
Mr. Hinds. The expense of the test
will be paid by the Association, includ-
ing transportation to and from St. Louis.
In addition to handsome prizes given by
the Louisiana Purchase Exposition, the
Association will also give liberal prem-
iums. The following classes are made for
the test:

Class A will consist of cows entered
for demonstrating the economic produc-
tion of butter-fat and butter.

Class B will consist of cows entered
for demonstrating the economic produc-
tion of milk for all purposes relating to
dairying.

Class C will consist of cows entered
for demonstrating all the products of the
cow, viz., beef and milk, with their
calves judged for their beef merits.

Class D will consist of cows entered
for demonstrating the greatest net profit
in the production of market milk on the
basis of quantity and quality of milk of
a given standard.

The committee to whom was referred
the conditions to govern the demonstra-
tion, recommended that the awards be
based on the following dairy and beef
elements:

1. The dairy performance of the cow in the yield of products as determined in the dairy demonstration of the exposition.
 2. The beef conformation of the cow, and her gain in live weight during the demonstration.
 3. The beef merit as shown in the quality and growth of the calf, and as a prospective profitable butcher's beast.
- The points and their values considered by the judges in making the awards will be as follows:

	Per cent.
1—Dairy performance of cow	40
2—Beef points of cow	35
3—Beef points of calf	25
Total	100

This is the kind of test that
only one fence can stand

This actually happened to a Page Wire Fence on the
farm of Joseph M. Reist, Alsfeldt, in Normandy township, Grey
County, and this is what Mr. Reist writes about it:

"Last spring I purchased 120 rods more and had the fence erected in the woods. Lately
there fell three trees over it, crushing it to the ground without breaking any wires. After the
trees were removed the fence went back to its place and is as tight as before.
I can say from my experience, the Page is the cheapest, best and only fence worth a man's
time and money to put up."
