

EUREKA

SANITARY CHURN

There's no comparison between the ordinary wooden churn and the "EUREKA". Barrel is stoneware—top is clear glass. Besides being absolutely sanitary, the glass top enables you to see how the churning is coming along without opening the churn. Also made with Aluminum top. The "EUREKA" is the easiest churn on the market to operate. By tilting back the frame until the weight rests on the wheels, the churn can be quickly and easily moved—while the barrel remain upright. If your dealer does not handle the "EUREKA," do not take a substitute but write us for catalogue.

The Range With A Reputation

Some of the Reasons Why

A Perfect Baker—absolutely dependable, every day, year in, year out. Built on honor, of the best materials.

Outwears Three Ordinary Ranges

The only range made entirely of charcoal and malleable iron. Malleable iron can't break—charcoal iron won't rust like steel.

Economical In Fuel

The seams of the Majestic are riveted (not put together with bolts and stove putty)—they will always remain air tight, because neither heat nor cold affects them. The Majestic oven is lined throughout with pure asbestos board, held in place by an open iron grating—you can see it—and it stays there always. Air tight joints and pure asbestos lining assure an even baking heat, saving one-half the fuel. All doors drop to form rigid shelves. No springs. Malleable iron oven racks slide out automatically, holding whatever they contain.

The Great MAJESTIC Charcoal and Malleable Iron RANGE

—has all copper reservoir which heats like a tea kettle, through a copper pocket stamped from one piece of copper, setting against left hand lining of fire box. It boils 15 gallons of water in a very few minutes and by turning a lever the frame and reservoir moves away from fire. An exclusive patented Majestic feature. Open end ash pan does away with shoveling ashes—ventilated ash pit prevents floor from catching fire—ash cup catches ashes. Ask your dealer to show you the greatest improvement ever put in a range.

Don't buy the range you expect to last a life time "unsight, unseen," or you'll be sure to be disappointed. Go to our dealer, and see the Great Majestic—have its many exclusive features explained—find out why the Majestic is 300% stronger than all other ranges where most ranges are weakest. It is the best range at any price and it should be in your kitchen. It is for sale by best dealers in nearly every county in 40 states. If you don't know who sells them in your vicinity, write us and we will send you our book, "Range Comparison." Everyone thinking of buying a new range should first read it.

"EASTLAKE" METALLIC SHINGLES

25 years ago. They are in perfect condition today, have never needed repairs. "Eastlake" Shingles are made of the best sheet steel and can be laid in one quarter the time that it takes to lay any other metal shingle. They are so different from the four-lock shingle which only overlaps 1 1/4 inches, the "Eastlake" has a full three inch overlap, absolutely preventing the drifting snow and rain reaching the wooden sheathing.

Our free booklet, "Eastlake Metallic Shingles," will save you money and worry. Send for it and get the information you want about roofing. Phone Park, 500.
