

No. 1.—McLAUGHLIN GEAR, CORNING BODY.

We are the inventors of and patentees of the only genuine and proper McLaughlin Gear. Other similar Gears are imitations of ours. Full wrought Circle, Clip King Bolt, Bent Reach mortised to head block.

Axles—15/16 inch, double collar steel.

Wheels—A standard, Sarven patent, Parker front, nickel dust caps.

Painting—Body and seat, black; gear, carmine, green, or black, nicely striped.

Trimming—Hand buffed leather, high spring back, spring cushion, carpet, floor cloth, apron with pocket, plated brass combined dash rail and rein holder, plated brass seat handles, patent noiseless rubber and brass washers, wrought iron three branch steps, solid foot dash, (See "Note," page 10.)
