and ice. I was generally wet from head to foot, and every second night of the week I would, without changing my clothes, stay up and run the mill till daybreak. So you see I was for two days at a time in a suit of parti-ally wet clothes, and this would last lill the ice had melteil in the pond. After a few years rheumatism fastened itself upon me as a reward for this in-discretion, and ever increasing in its malignity it at last became so bad that for weeks in succession I could only go about with the aid of crutches. At other times I was alle to hobble about the house by the aid of two canes, and again at other times it would ease off a little and I was able to hob a little work, but could never stand it for more than a couple of hours at a time. The least bit of walking in damp wea-ther would overcome me and I remem-ber one stormy night when I tried to walk from Coragne Bridge to my home a distance of five miles that I hud to sit down by the roadside six times to case the terrible pain that had seized my legs. During all those years of agony I think I tried all the patent medicines I could get a hold of, but they did me no good at all. I consulted do tors, but my sufferings remained undiminished. In the fall of 1895 I went to a doctor in Buctouche to see if there were any means by which I might at least be eased of my suffer-ing. The doctor said frankly. "Mr. Murray you rannot be cured nothing can cure you." I was not satis-fied and then I determined to try Tr. Witams' Pink Pills. I procured half a dozen boxes and continu-et taking them a cording to direc-tions. That dozen boxes and continu-et taking them a cording to direc-tions. GERMANS IN ARGENTINA. The Germans are proving the closest rivals of the British in the development of new foreign industries just at pre-sent. In South America particularly their capital and enterprise are mak-ing a deep impression. The poorer im-migrants to South America are main-ly Italians, of whom something like 200,000 a year overflow into the New World; but the capitalists are mainly Germans, and a considerable stream of German emigrants sets that way. It is rather a curious circumstance that the bulk of the Italian emigrants are carried from Italy to South America, as well as from Italy to New York, by German steemers. German steemers.

DOCTOR'S RUSE. An envious young lady called a phy-sician for a slight ailment, which she magnified into a serious one: Run, said the doctor to a servant, giving him a prescription, to the nearest chemist and bring back the melicine as quickly as you can. Is there much danger? replied the young lady in alarm. Yes, said the doctor, if your ser-vant is not quick it will be useless. Oh! doctor, shall I die?" gasped the patient. There is no danger of that, said the doctor, but you may get well before Thomas returns. DOCTOR'S RUSE.

We, the undersigned residents of London, Ont, submit the following sworn verdict in the case of "Amberine " vs. Beneficiaries.

COUNTY OF MIDDLESEX.

We find from evidence and actual experience, 1st-That "Amberine" will and has produced growths of hair upon heads which were previously entirely bald; 2nd—It stops hair from falling out; 3rd—It removes Dandruff in a few days; 4th—Cures itching of the scalp; 5th—Cleanses the scalp, restores vitality to the roots, and makes hair grow.

In conclusion permit us to add, we highly recommend "Amberine" to one and all. Ladies who are troubled with breaking or falling out of hair are specially advised to give it a trial.

ROOSTERS DO THE HATCHING.

ROOSTERS DO THE HATCHING. In one respect the Spanish peasants are alread of the rest of the world. They have learned to make cocks hatch aggs and loo': after the chickens, while the hen, being at liberty, can and does lay more eggs than site would if ham-pered by her maternal duties. The trick is performed in this way: They carefully pluck the feathers off the roosters' under side, and the bare skin is then irritated with nettles until in-flammation sets in. The cock soon finds that the pain caused by this cruel pro-cess is mitigated by warmth and soft-ness, and this makes him willing and eager, although for purely selfish rea-sons, to hatch a brood and let the lit-tle chicks sit under him.

MONEY FOR TREES.

Few people have any idea of how much money is spent by the municip-ality of Paris in planting and looking after the trees which line the prin-cipal boulevards and avenues of the French cavital. The annual report of the superintendent gives the total number of trees chanted at 87.655, each of which represents an initial cost of \$35. The annual evenditure of mein \$35. The annual expenditure of main-tenance is \$52,500.

Dangerous Hemorrhages From the Kidney and Bowels Checked and Cured by KOOTENAY. Hemorrhages from any of the internal organs is no trivial matter. It is some-thing that is most alarming and calls for prompt action. There is no time for experimenting, as delay is dangerous. The remedy that has proven itself effica-cious is the remedy you want. That remedy is Kootenay Cure. It can cure you as easily as it did Mr. Robert E. Beckerson of the .City of Hamilton, Ont., who gives a sworn declaration that for over six years he was a most terrible sufferer from Kidney and Liver trouble. declaration that for over six years he was a most terrible sufferer from Kidney and Liver trouble. He had hemorrhages of both the kid-neys and bowels, and was in a very bad shape generally, until he began taking Ryckman's Kootenay Cure. He says :-- "I can now speak of it as a great medicine. It acts on the kidneys, builds up the system, and gives strength to the weak and despondent. It gives me much pleasure to recommend Koot-eray to all suffering from kidney troubles. My eyesight was very bad, and I had great dizziness at times. I could not sleep at nights, but would lie awake in agony for hours. All this trouble ceased after taking Kootenay Cure, and my eye-sight is greatly improved by the use of that medicine. Chart book free on application to the S. S.
