PULLMAN'S MEN AT WORK

are Accepted—Train Wreckers
Arraigned—A Plot to Destroy a Bridge Discovered in

CHICAGO, July 17.—The announcement that the strikers at Pullman were on the point of surrendering and asking for employment in the palace car works at the reduced wages, is confirmed. Thomas Heathcote, leader of the Pullman strikers, admits that all his influence and that of the other labor leaders was required to prevent a general stampede of the workmen, and officials of the Pullman Company say they expect orders from headquarters any day to open the ear shops, which have been closed more than eight weeks.

CHEYENNE, Wyo., July 17.—The members of the A.R. U. here and at Laramie have voted almost unanimously not to return to work. The following telegram was received from Debs: "Roads in the hands of receivers occupy the same position as all others in this strike. The proposition was made to the General Managers and has been refused; our position is doubly strong in consequence. Renew every effort and carry it out to a finish. There is nothing to be afraid of. We must and will win. (Signed) E. V. Debs."

CHICAGO, July 18.—There was a sensational climax yesterday to the troubles that have disturbed railroad circles during the past three weeks when President E. V. Debs of the A.R. U. and his cabinet, Vice-President George W. Howard, General Secretary Sylvester Keliher and L. W. Rogers, chairman of the executive committee, were taken to the county jail and incarcerated as prisoners of the United States for violation of the injunction issued July 2 by Judges Wood and Grosseup, restraining them from combining and conspiring to hinder interstate commerce traffic or the movement of United States mails.

The imprisonment of the chiefs of the Railway Union was not in any sense an to hinder interstate commerce traffic or the movement of United States mails. The imprisonment of the chiefs of the Railway Union was not in any sense an arbitrary proceeding. Although predicated upon what the courts regarded as an open and defiant violation of orders previously issued, an opportunity was afforded the defendants of presenting bonds for their appearance in court a week hence. This proposition, however, was rejected on the ground, as emphasized by President Debs after the court had rendered its ultimatum, that the principle involved was one entirely too serious in its nature to admit of the defendants availing themselves of any technicalities that might be regarded as loopholes in the law. Bondsmen offered aid to the union leaders, but their overtures were declined and the prisoners suffered themselves to be taken to jall and locked up. There, unless in the meantime they should tire of incarceration, they will remain until Monday morning.

CHICAGO, July 19.—The stampede of

CHICAGO, July 19.—The stampede of Pullman strikers has begun. It had been expected ever since Debs sent his letter to the railway mauagers offering to surrender f his men were given employment again. The break came from a quarter least expected. One hundred and fifty Hollanders, who had been ballasting railroad ties behind the foundry, went back of their own accord and asked for work. The men were accepted and began where they left off when the Kensington rioters scared them from the works. No attempts were made to interfere with them. Col. Turver's troop's were patrolling the district, prepared to drive away any agitators or walking delegates who might assail the Hollanders.

when death relieved him from his suffering. Another accident occurred yesterday

his horses got frightened and ran away,
and the boy, being unable to extricate
himself, was killed.

Intense Suffering in Turkey.

CONSTANTINOPLE, July 20.—The suffering caused by the earthquakes is more widespread than was at first supposed. The loss of property is felt more keenly every day by the homeless and half-fed families who have camped in the parks and cemeteries. The local relief fund is entirely inadequate to the emergency here and in the provinces, especially in and around Adabazar, the Chalaldja and Gallers. The sufferers have been helpless in their wretchedness. As soon as communication with the provinces shall be restored the reports of privation and disease will probably begin to reach the city. A Horror in the Black Sea.

Odessa, July 23.—It is now certain that 140 persons went down with the Italian steamer Columbia, which collided with the Russian steamer Viadinir in the Black Sea a few days ago. All the evidence badly inculpates the Russian seamen who abandoned the Columbia and her crew and massengers to their fate, although the vessel floated an hour and a quarter after the collision.

Orrawa, July 17,—In the House last night, on the motion of Sir John Thompson that the Northwest Territories Act be read a third time, Mr. 3.cCarthy mov-d an amendment that the Territories be granted full power to deal with the question of education. This means the abolition of Separate schools in the Northwest. The Territories are composed of 66,000 people, 18,000 of whom are Catholies. Mr. McCarthy argued that it was preposterous to have a separate system for so small a minority of the population.

Mr. Sam Hughes moved an amendment that all theological teaching be done away with in schools. The amendment of Mr. McCarthy, he said, allowed Separate schools if the province wished it, but he wished to see all Separate schools when of the earth. He attributed the strikes and anarchistic outbreaks in 5the United States to the offscouring of Europe who got their education where theological institutions had control of education.

The amendment to the amendment only got two votes, Mr. Hughes himself and MacDonald. Assinabols.

OTTAWA, July 18.—In the House Lieut.

Colonel Tisdale brought up the question of the suspension of Col. Powell, the Adjutant-General of Militia, by Major-General Herbert. The Colonel, who represents South Norfolk and who is a follower of the Government, read from the law on the subject to show that the Adjutant-General was most unjustifiably suspended by Major General Herbert, who commands the Canadian militis. He pointed out that there was an existing fallacy that the Major-General was an Imperial efficer, and that there was an existing fallacy that the Major-General was an Imperial officer, and above criticism. It was true that he held rank as an Imperial officer, but he was nevertheless an officer of the Canadian Government and under the control of the Minister of Militia. He held that the Major-General was totally unacquainted with the needs of the Canadian mili is and that the sooner he resigned it would be the better for his own repetation and the interests of the force.

Major Sam Hughes, who represents North Victoria, declared Major-General herbert as commander of the militia to be a failure.

The Minister of Militia defended the Major-General to some extent although he did not say he was right in suspending the

In the evening Sir John Thompson said that the charges which Mr. Tarte had made in the House against the judges of Quebec were not sufficiently explicit to warrant him to allow an enquiry into the same. He would, however, make a departmental inquiry into some of the points raised.

OTTAWA, July 19.—There was very good progress made with the business before the House yesterday and the outlook is that prorogation will be reached on Monday next, if not on Saturday. The Premier announced that morning sessions would commence to-day and would be held until the end of the session. The whole of yesterday's afternoon session was devoted to a discussion of the money subsidies to railways. The first batch of resolutions, amounting in all to over \$1,400,000, were adopted.

OTTAWA, July 20.—The House divided yesterday on a resolution of Mr. Mulock to throw out the bill granting to the Canadian Pacific railway drawbacks on material to be used in the construction of new iron bridges on the road. The amendment to the bill was defeated by a large majority. It had only in all sixteen supporters. The bill was read a second time. The whole of the afternoon session was devoted to the passing of another batch of railway subsidies. They totalled \$8,102,-000, all of which were passed.

The House divided on the amendment, which was lost by 20 for and 50 against.

The House then went into committee on other resolutions, after which Sir John Thompson's bill to amend the Dominion Election Act was taken up and given a third reading.

In the House at night Mr. Daly, in answer to Mr. Laurier, said that prorogation would take place on Monday. The tariff bill was read a third time and passed.

Mr. Haggart withdrew his railway passenger ticket bill, which provided that before a rebate would be given for the return of a taket a receipt would have to be given the company that the party saking the refund was the owner. Messrs. Mills, Sutherland and Mulcok opposed the bill, and Mr. Haggart said he would drop it.
