## Home Education.

The reporter of a Pittsburg paper, who has objected to having his name appear

in print, says: "Oh, dear," she sighed; "I shall have to send Willie after that yeast, and he has such a bad memory! 1 do declare I never saw such a forgetful child in my life. He torments the soul cut of me. Every time I send him to the store he brings back something I didn't send bin for." Then raising her voice, she called : "We are told that it is a custom among the Indians when they are sowing maize to put seven graids of corn into the ground One was asked why this was done. "Well," said the Indian, "we put in one grain for the crows, another for the worms, and a third for the squirrels, we expect that the rest will bring forth fruit." The Indians teach us a lesson.

Then raising her voice, she called : Witte !" "Yes. ma,"

fruit." The Indians teach us a lesson. They teach us to sow good seed liberally, and not to be disappointed if all that we sow does not bring forth fruit. Our a great hurry. I want a yeast cake down Saviour teaches us that some will fall by "You come here this minute : I'm in a great hurry. I want a yeast cake down to the store, and I don't want you to forget what I send you for. I don't what baking powder, same as I had yesterday, but a yeast cake. One of them tinfoil cakes—Willie!'' the Indians to sow more hountifully less the Indians to sow more bountifully, lest with scanty sowing, the crows, the worms

Sowing Seven Grains.

Unseen Protection.

"Yes, ma." "Did you hear what I said ?" "No, ma." "Oh, you do try my patience so. Con here this minute.

The boy appears. "Now I want a yeast cake-how came good hearts and bring forth fruit, thirty, that mud on your coat ? You've been sixty and a hundred fold. The inspired playing in the dirt again ; I'll tell your father when he could be again ; I'll tell your Word tells us, "He which soweth sparfather when he gets home. It's not ingly shall reap sparingly; and he which baking powder I want. Turn your coat

lown. Now, don't you come home with nutmegs, like you did the "A lady was wakened up one morning day before, when you were told to get day before, when you were told to get citron. Your coat is buttoned wrong. by a strange noise of pecking at the window, and when she got up she saw a

The boy escaped to the street, when called out from the window :

Enormous Demand for Eggs.

An egg merchant who goes from house to house buying eggs, told us a few days since, that he expected to have to pay 50 cents a dozen for eggs before Christmas. This is remarkable, when we reflect that the poultry industry of this country

amounted to nearly seven last year hundred million dollars ; and even then we had to import several million dollars worth of foreign eggs. Our own egg raisers ought to have this money. The

The land of Kansas is a wonder. A demand for fresh eggs for food alone far demand for fresh eggs for rood alone rat exceeds the supply. At fifty cents per dozen eggs are as cheap as beefsteak for food. Many persons who keep hens will probably not have an egg to sell when the new person who keep hens will probably not have an egg to sell when the new person who keep hens will ache to look at Wichita. Street car lines the new person who keep hens will ache to look at Wichita. Street car lines town no bigger than a voting precinct will running twenty miles out thto the coun they reach fifty cents. Some one may ask, "what can a body do, when the per-ky old hens stop laying, and the pullets wery ground aquiver with excitement and IMENT the best in the market and cheerrefuse to begin until spring ?? Why ! do as Wm H. Yeomans, of Columbia, Conn., Editor of the Germantown Telegraph did last winter. He says: "Last fall I made you can about a town clear up in the last winter, He says: "Last fall I made you can experiment worth giving our readers." Until Dec, 1st, I was getting from twen, ty common hens, only one or two eggs a day. I decided to try Sheridan's Con day. I decided to try dition Powder. I confess I had but little or two came along by and by. In Wichita faith in its value to make hens lay. you stumble over the churches and ge Commenced feeding, and for nine days saw very little effect. Then the hens began laying and in three months laid rooms, but you have to sneak around and learn the ropes and lie a little to get a Part of the time the thermometer was 12 degress below zero, and my drink. And yet the boomes on go hens were laying a dozen eggs a day. Bob Burdette. hens were laying a dozen eggs a day, while my neighbors (who did not use the "The Merry Maiden and the Tar." powder) were getting none. I now, without hesitation, believe it is a valua-ble aid to farmers for egg-production. powder) She was marriest before she "struck" he tar. Her spirits sank as she beheld Well might he believe, for nearly 72 dozen her new white gown blackened by the eggs, in three months, from 20 common tar. The tar helped a wagon run instead s, with eggs worth 50 cents, is worth ng. I. S. Johnson & Co., 22 Custom trivial accidents are neglected "small things" take the merriment out of the having. I. S. Johnson & Co., 22 Custom House St, Boston, Mass., (the only makers of Sheridan's Condition Powder lives of young girls and maidens. Par to make hens lay). Will send, postpaid to any person; two 25 cent packs of powder, and a new Poutry Raising Guide enjoyment and happiness from life. for 60 cents. The number of cranks who still firmly believe that some of Capt, Kidd's buried gold may be obtained in their immediat neghborhood is still almost innumerable, A correspondent writing from Welsford, River John, to the Pictou Standard, says Mineral-rodists seem to say some time ago, that there were unmistakable evi-dences of Capt. Kidd's hid treasures along the beautiful and picturesque bank of the river at this point. The banks and And because it saves half the labor intervales have been largely honeycombed with excavations. But it remains a secret whether the coveted treasure has been covered or not.

CATARRH, CATARRHAL DEAFNESS, HAY FEVER.

A NEW HOME TREATMENT.

A New HOME TREATMENT. Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby catarth, ca-tarshal deafness and hay fever are per-manently cured in from one to three simple applications made at home by the patient once in two weeks. N. B.—For catarshal discharges peculiar to females (whites) this remedy is a specific. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. DIXON \$SON, 303 West King St., Toron-te, Canada.—Scientific American.

Sufferers from catarrhal troubles should carefully read the above.
