THEY'VE roused ther up at hat, Then old majestic heart; Did they think thy strongth was

Then old inspects beaut;
Did they think thy strength was past
Because thy row; had cassed?
By Sr. Geomet I despite thy dense,
(And a long one it has been,)
Rew resuld care to rub thy none,
Or to get thy pawa between?

Or to get thy paws between?

After years of tranquil life,
Gaswing calculy at thy bone,
Thou art leaths to wake to strife
In a quarrel not thine own.
But the canne of the opprest
Has been thine from day of birth,
And you cannot tamely rest
While a despit walks the earth.
Boldly walked he, noble brute!
While he fancied that you lay
Toe torpid and too mute
Toe struct to esteen his way.
In features so benign,
In attitude so still,
He marked no latent sign
Of defiance to his will.

You have undecrived him now,
And aghast he stands before
The anger of the brow
And the thunder of thy roar;
For he feels that thus irate,
Both the power and will you bring,
To fix at once his fate
If he tempt thee to thy spring.

Stand up then for the right,
And in war, if it must be,
Strike out with all thy might
Till thy foe is on his knee.
Then take thy rest again,
Leaving eafe the Russian Bear,
Tethered by too tight a chain
Too break it— if he dare

VARIETIES.

The Ohio State Journal tells a story of an Irishman of the better class who thought he must conform to the fashionable mania in paying a visit to the Falls of Ningara. Paddy arrived at the Falls, and taking a look at the surrounding wonders, addressed himself to a gentleman: "And is this Niagara Falls?" "Yes," was the is this Niagara Falls?" "Yes," was the reply. "And what's there here to make such a bother about?" "Why," said the geatleman, "do you see the mighty river, the deep abyss, the great sheet of water pouring down?" Pat, looking at the water, replies hesitatingly. "And sure what is there to hinder it?"

THENEING BEFORE YOU SPEAK .- " DOG smoking offend you?" asked an American landlord of his newly arrived boarder.—
"Not at all, sir! "Life Pm very glad to hear it, as you will find your chimeny is given to the practice."

The fellow who " seized an opportuni ty," came near spraining his wrist.

THE CRACK JAW LANGUAGE.—The Russ

the Electors of the District of What do the Sick Require?
To these who think.—If sick, if suffering the tertures of pain, or afflicted with long illness, site insulated constant tope and most frevent desire is to be anisored and cored of the distraining allustrat, that these. On this principle the R.R.S. SEMEDIES are founded. Instant Reliaf from Pain, Quick Cure of Discasses, Speedy Restoration to Health, is the great platform on which the R.R.R. Theory is prediced.

platform on which the R.R.R. Theory of the age.
The R.R.R. REMIDIES are worthy of the age.
They instantly relieve the bed-ridden from the most currectaining pains, and quickly free the afficted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and braised body, and renew each member and ergan of the human system with strength and power.
The R.R.R. REMEDIES consist of RADWAY'S READY RELIEF, RADWAY'S REGULATORS.
RESOLVENT, and RADWAY'S REGULATORS.

READY RELIEF. RADWAY'S REGULATORS.

RESOLVENT, and RADWAY'S REGULATORS.

RADWAY'S READY RELIEF is for the instant relief of the suffirer from julia; and to check and arrest the progress of diseases; to disinfect animal, malarious, and infectious poisons, thus protecting whoever uses it against all poisonous infection from Contagion, and from sudden attacks of Cholera, Promnesia, Ship Fever, Fever and Ague, &c. Likewise for the effectual and radical removal of all pains and diseases of the Joints, Limbs, Nerves, &c.

Its first action is to remove the pain, (hence its usefulness in Neuralgic cases;) its second, to repair and heal, as in the case of a cut, or wound. If the Relief be applied after the first little smarring is over the pain is extinguished, and the work of reparation now commences. But if the Relief is not applied, there are many chances to one that the pain will continue, and an infimuniton be set up, and instead of a simple incised wound we have inflammation—disease to contend with. Beside, its direct power over pain, the Ready Relief is the most effectual and convenient "counter irritant" that is known to the medical world.

convenient "counter irritant" that is known to the medical world.

If there be a congestion or heaping up of the blood in any particular part, occasioning pain and threatning inflamation or disease, as Sore Threat, Lumbago, or pains in the loins, Pleuratic congestion &c. the Relief will be found the meet invaluable curative. By applying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any one who may doubt this but make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the anost valuable remedy for Diarrhora; and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhora or Cholera in a short time.

DISINFECTANT.

RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of FEVER AND AGUE.

a most effectual cure and positive preventative of FEVER AND AGUE.

So with other fevere and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA.

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept coluble with RADWAY'S REGULATOR, the patent will soon be out of danger, and speedily restored to health. If the R.R.R. Remedies are given, the will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT is the second of the R.R.R. Remedies. It is for the care of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.
For the present, then, let us pass to the consideration of the RESOLVENT, the second of the three R.R.R. Medicines.

The Chaos Jaw Language.—The Russian vermecular may be very expressive; but it is decidedly far from elegant. It calls a "Christian-loving army" Christolibibio aro tooisho. Luckily for the Russians, their country abounds in oil and tallow for where it not for a little grease, the natives would never manage to pronounce such words.

Why cannot a gentleman legally possess a short wife?—Because she can never belong to him.

Gunology.—Shilabar tells us the following gun story: Speaking to day with the son of a gun regarding some gunning exploits he told me of a singular instance of a gun hanging fire, which, where it not for his well known veracity, I should feel disposed to doubt. He had snapped his gun at a grey squirrel, and the cap had exploded, but the piece not going off he took it from his shoulder, looked down into the barrel, and saw the charge just starting, when bringing it to his shoulder again, it wont off a person in the following style of classics: I could take," said he, the "little end of nothing, whith the it down to a point, punch out the pith, of a horsehair, and put in forty thousand such acuts as his, diake them up, and they d'rattle?"

An Irishman being asked, on a late trial, for a certificate of the server of the seaso continuates the such seaso cheese diseases deposits of the secretion of the same we have given to the second of the forty thousand such acuts as his, diake them up, and they d'rattle?"

It is mailest that the descand deposits must be first removed, the sustaining cause be take adoption and that the absorbants and stimulate them into action, and at the same time parifying the blood alone will act on the absorbants and stimulate them into action, and at the same time parifying the blood alone will act on the absorbants and stimulate them into action, and at the same time parifying the blood alone will act on the barrel as a medicine that will act on the absorbants and stimulate them into action, and at the same time parifying the blood alone will accept just the same parifying t A remember to the order state of a distinct of the control that of

We now request the reader's attention to the R.R.E. REMEDIES.

We now request the cander's attention to the third of the R.R.E. REMEDIES.

Every pill taker should examine the theory on which the REGULATORS are founded. Everyone "who taker pills," will find RADWAY'S REGULATORS the most pleasant and safe Regulator of the Liver, Bowels, Kaneys, and other organs of the system in see.

'We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately proceeding disease or inflammation, viz : inflammation, are the elley irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT is treatment of inflammation, are the chief purposes of the REGULATORS

But how is nervous irritation the cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain and nervous centers, and what irritates the brain caness irregularities of the glands; and when the glands refuse to do their work, the foreign unster which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to ext you can easily understand that the blood will becarrupted by it, and diseased action will follow; and it will be just as surely corrupted if the glands do not abstract the wors out materials from it.

Again if the kideays he interfered with in their action, from any irritation whatsoever, why then we have the salts of the arrivation of the carbon in the blood, producing headaches, coma, drewsing in the blood; producing headaches, coma, drewsing in the blood is the canse of the fovers of

RADWAY'S REGULATORS induce a healthy regularity of glandlular action No. Contiveness or Dyspepsia or Indigestion, or Pains in the Side, or Liver, Complaint or Pains in the Kideeys will trouble you if RADWAY'S REGULATORS are taken: and we positively assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will care them R.R.R. REMEDIES are suited to the treatment and manifed will care most of "the ills that flesh is

R.R.R. REMEDIES are suited to the treatment and unsided will care most of "the ills that flesh is heir to." The sanghinary practice of the lance, the cupping glass, and leeches, they entirely dispense with, and banish forever the pernicious use of that baneful drug, calome!

If you be sick, we advise you to resort a ence to the R.R. REMEDIES, as the most prompt in their action, the most sure and effectual of remedies. Instance of diseases prevented, of rapid cares, and almost miraculous recoveries we can furnish you the certificates and eredentials without number.

But these may be obtained without merit as well as with it, and, without knowing the circumstance prove nothing to your mind.

as with it, and, without knowing the circumstance prove nothing to pour mind.

The R.R.R. Remedies are for sale by druggists everywhere. Pensons desirous of learning more of our REMEDIES, are referred to our FAMILY FRIEND a Monthly paper. A copy will be sent free of charge, to all who will send in their names and address.

RADWAY & Co.,
May 4, 1854. 162 Fulton street, (up stairs) N.Y.

The Laws of Prince Edward Island TROM 1773 to 1851, both years inclusive—2 volReyal 8 vo., with a copious Index; published
under an Act of the Colonial Legislature, and carefully revised and conselidated, by Commissioner
appointed for the purpose, may be had at the Bookstore of G. T. HASZARD.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

Is the cheapest, safiet, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASHean be accomplished BEFORE BREAKFAST—no rubbing being required.

This yonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much qiicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the handeyer the most delicate material; but whilst it is incomparable for permanently whitening Linena, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOQLLENS, COLORED PRINTS, MUSLIN and LACE.

FAMILY PHYSIC.

THERE has long existed a public demand for ar effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectively submit to the public decision. It has been attempted here, and with what success we would respectively submit to the public decision. It has been unfortunate for the patflish hitherto that almost every purgative medicine is acrimoulous and irritating to the bowds. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obtiruction or derangement in the bowels. Being purely vegotable, no harm can arise from their use in always quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the compliants which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Appetite, Listiessness, irritability, Bilious Headache, Billous Freeders, in the side and Loins; for, in truth, all these are but the con-

may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languer and Loss of Appetite, Listlessness, Irritability, Billous Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they sfind prompt and sure relief in Costiveness, Flues, Colle, Dysentery, Humors, Serofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional done stimulates the atomach and bowels into healthy action, and restores the appetite and vigos. They purify the blood, and, by their timulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary desiry should never be carried too fire, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will no longer doubt what remedy to employ when in need of a cathestic medicine.
