They have yet to speak in Albert, Westmorland, in Halitax and Chatham. It may be that wher they get through with their other meetings it will be too late in the season to visit Northumberland. #### GRIT VS. LIBERAL CONSER-VATIVE RULE.

When Mr. Blake's model Grit party assumed the reins of power in 1873. Canada was in a prospercus condition and its revenue amply sufficient to meet all the expenses of the Government, but under the financial management of Sir Richard Cartwright. the prince of Grit financiers, a change took place, for the revenue of the country fell short several millions of its expenditure, and the Government had to borrow money-for which the country had to pay interest-to make up the deficiency. For several years did Sir Richard and his Government allow this state of affairs to continue without making the slightest effort either to reduce the expenditure of the country or increase its revenue. and when requested, he refused to re-adjust or increase the tariff as he that they"had gone to the line beyond which it would be impossible to pass sum. without resorting to direct taxation."
