

A Plain Talk.

HONEST ADVICE.

Practically every fisherman admits he should have a motor engine that a motor will reduce labor and increase earnings. A large percentage in every district will buy engines within six months—to these we want to give a word of honest advice. So many are selling engines, all claiming the best, it must be confusing and hard for the buyer to know which really is the best. The advice we want to give you is that the FRASER is a big, strong, powerful and reliable engine and very simple and easily understood, practically every fisherman we have sold engines to put them in boats themselves and ran them the entire season without a hitch.

Every man we ever sold a FRASER to is satisfied and thinks there is no engine so good—ask any owner.

At the Battery, St. John's, this year four FRASERS and six other makes were operated. Ten engines have been bought there for next spring delivery. These ten buyers knew every engine sold and advertised in St. John's, they knew the records and merits of all, they saw all work and were right here to get all information and buy the best, and not together but one after the other during September and October every man of the ten bought a FRASER. This should be a satisfactory answer as to which engine is really the best. The FRASER is not expensive. Terms of payment attractive—write us. Do it now.

Miraculous Escape from Awful Death.

Chicago, Nov. 23.—Grover Neilson, structural ironworker, employed on a building in course of construction, plunged nine stories through an elevator shaft last night and aside from a severe shaking-up the only injury he suffered was a broken little finger. Neilson was walking on an iron beam of the skeleton frame work when he mistook a shadow for solid footing and fell. He landed on a pile of sand.

At the City Hall.

A LIVELY SESSION.

The weekly session of the Municipal Council was held yesterday afternoon.

Messrs. Furlong & Conroy on behalf of the City of St. John's, presented a notice of claim for \$50.00 account damage done by defective gully. Referred to Solicitor.

H. M. Whiteway, Rennie's Mill Road, complained of water supply to house. Referred to Engineer Department.

Permission was asked by Jas. Wornell to build annex to house on Springdale Street. Referred to Engineer.

J. B. Butler and E. Doran asked permission to make repairs to houses on Casey Street and Barnes Road. Referred to Engineer.

Harvey & Company applied for leave to make repairs to waterfront stores. Granted.

Mr. J. Cash, Tobacconist, asked if he could erect an electric light sign opposite his store. Referred to Engineer.

The plans submitted by Wm. Connors were approved of.

A petition was read from the residents of Allandale Road, asking for two street lights. Referred to Lighting Committee.

The meeting informed the meeting that when the new water service on the South-side is finished, the regular taxes will be collected.

In matter of the suit of Condon vs. the Council, Solicitor Morris reported that judgment had not yet been sent down.

Mayor Ellis referred to press reports of this which cited what purported to be a criticism of the Council by Judge Conroy in his judgment. The Mayor asked that discussion of this matter be deferred to a special meeting.

Councillor Mullaly held that it should be taken up immediately; that if the criticism was not substantiated it was a libel on the Council and that the Board should vindicate itself.

Councillors Martin, Ryan and Coaker believed that discussion should be postponed until judgment had been given, and Councillor Martin thought that the press representatives should be admitted to the special meeting when held.

Mayor Ellis could not entertain this.

Hair Stops Falling, Dandruff Disappears 25c. "Danderine."

SAVE YOUR HAIR! BEAUTIFY IT! INVIGORATE YOUR SCALP. DANDERINE GROWS HAIR AND WE CAN PROVE IT!

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you will actually see new hair, fine and downy and first—yes—but really new hair—growing all over the scalp.

A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it

Ancient Advice.

Come, let us do our shopping early, before the Christmas rush begins, and a doll with tresses curly—or buy two dolls—if they are twins. This theme is all that I can think of, the only subject for a lay; the bubbling spring that poets drink of for me is dry as last year's hay. I've scratched my head for hours to find a subject for a song, and there is nothing but the weather—and that I've sung about too long. I've racked my brain till it is popping, disturbed the household's restful calm; there's nothing left but Christmas shopping, that one in verses may enliven. Oh, sisters, do your shopping early, before the rushing throngs begin, for when you reach the portals pearly, St. Peter will not let you in! There's nothing doing in this valley, the country's quiet as the town; gone are the caucus and the rally, the suffragists have shimmered down. The poet's briny tears are dropping down his whiskers to the floor; there's nothing left but Christmas shopping that calls for anthems any more. The knee sprung muse is sour and surly, the harp is made of rusty tin. Oh, brothers, do your shopping early, before the Christmas crowds begin!

"Pat" As Teacher.

On the Sunday when Their Royal Highnesses, the Duke and Duchess of Connaught and Princess Patricia were in Victoria, B.C., in September, the Duke and the princess attended the morning service at Christ Church Cathedral, and, upon leaving, Princess Patricia promised Dean Doull that she would return in the afternoon and take one of the classes in the Sunday school. She did so, and was given charge of a class of young girls from six years upwards. The topic was the first verse of Hymn 417 of the Hymn Book, well known to all English Church people by its first line, "Brightest and best of the sons of the morning." There are four lines to the first verse of the hymn, the last one reading "Guide where our infant Redeemer is laid."

Princess Patricia managed to secure answers from the children as to the meaning of the first three lines of the verse, but when she asked what was the meaning of the words, "Our infant Redeemer," there was an absolute silence on the part of the pupils.

"Surely," said the princess, "some of you know what these words mean."

"Yes," came the answer from one of the children. "I know, it means our Bishop."

And it is said that Princess Patricia is telling the story herself as an illustration of the influence of Bishop Roper in his diocese.

The heavy downpour of rain early this morning caused the drains on the Long Street and Death Hills are very much cut up in ruts, and it will take many dollars to put them in a good condition again.

News has just reached here of the marriage at Montreal on the 9th inst. of Mr. James Martin, of this town, to Miss Eva Pearl Owens, of Montreal. The bride is a daughter of the late Mr. Thomas Martin, of this town. We wish the young couple much happiness.

The Supreme Court is sitting at Carbonear to-day but will sit here again at noon to-morrow, when the case of Acting Sergeant Spracklin will be heard before a special jury.

Much interest was centered in the case of the King against Otto Wells for misappropriating goods, which was heard yesterday. The case occupied the whole day, and the court room and surroundings were crowded with interested people. The Judge's charge to the jury was forceful, concluding about 9.15 p.m. The jury then retired and after nearly two hours deliberation they returned to court with the verdict of Not Guilty. The young man was then discharged.

Coal is at a premium again here now, but we are promised several loads in the near future. If they miscarry we will likely have to "blow to our fingers" before the spring.

The many friends here of Mr. Geo. Pynn, Sr., were sorry to hear yesterday of his death at St. John's. Mr. Pynn was a carpenter by trade, a son of the late Captain Joseph Pynn. He leaves one sister, Lily, who always lived with him and accompanied him to St. John's for treatment a couple of weeks ago. He also leaves two brothers—Augustus here and Gilbert in New York, besides a large circle of relatives and friends to whom we tender our sympathy.

The concert given by Miss Cody's musical pupils at the Academy Hall, last night, was quite a success. Miss Cody's concerts are always good, and the singing was of a high order.

A very pretty wedding took place at St. Joseph's Church, Riverhead, on Tuesday morning, when Mr. Michael Bruce, of Long Harbor, P. B., led to the altar Miss Mary Callahan, daughter of Mr. John Callahan, of Riverhead. The ceremony was performed by Rev. Fr. Walker in the presence of a large number of friends. Miss Callahan was one of our most popular young ladies and takes with her to her new home the best wishes of a very large portion of our citizens.

Thrilling Stories Told by the Rescued.

Saulte Ste Marie, Nov. 26.—Survivors of the shipwrecked steamer Ruth Shore, and of their rescue by life savers just before the boat plunged to the bottom of Lake Superior, near Grand Marais, on Sunday.

"I have sailed the Lakes for years and never before encountered such an experience like this one," said Arthur King, a fireman on the steamer, to-day.

"It was not long after the boat struck the heavy seas that her seams opened and the water poured through them just like it goes over a water fall. There were two men and their wives aboard as passengers. The women were remarkably cool, but they did not know the real danger. We, down below, knew we were right in the graveyard of the Lakes. The windows were soon smashed and the stern torn away.

"As the boat began to fill the first got low. I was standing in water up to my waist and deck hands passed coal as fast as they could scrape it together. As soon as they would get a pile of it together water from the seams would wash it away, and finally we threw a number of bags of hard coal we were carrying as freight into the boxes. All night long we tossed around the Lake in that condition.

"Just before noon Sunday, the life savers on shore six miles distant saw our white flag and came to our rescue. We all jumped into the life savers' boat and, made for shore.
