BRITISH CARRY OUT AIR RAID.

LONDON, To-Day.—The Royal Flying Corps carried out a raid on the Ghustelles airdrome, according to an official announcement by the Admiralty to-day. Although heavily attacked by an enemy formation, bombs were successfully dropped on the objectives. All the British machines returned safely.

THE SUPERMEN ON TOUR.

AMSTERDAM, To-Day.—Official announcement is made in Berlin that Field Marshal von Hindenburg and General von Ludendorff have arrived there for a council of war with the Emperor. Last week Field Marshal von Hindenburg and General von Ludendorff made a visit to Austrian headquarters.

ARRESTS IN CONNECTION WITH HUGE CONSPIRACY.

SAN FRANCISCO, To-Day.—Preparations for war with England were being made in the United States by German agents and Hindu agitators more than a year prior to the outbreak of the European War, according to a statement made here to-day by United States District Attorney Preston. That assertion was made in connection with the filing of 134 indictments in the United States Court here yesterday in connection with violations of American neutrality.

DEMAND FOR REPRISALS.

LONDON, To-Day.—An intensified demand for reprisals has followed the air raid yesterday. All the night papers declare the people of London are furious at the inadequacy of the city's defences as it was revealed yesterday.

tack were able to enlarge the ground captured on July 1. Near Allies on the left bank of the Meuse, northeast of Verdun, the French took the offensive and carried three strong sallies. One was west of Le Mort Homme and the other two southwest of Hill 304, dominating the height west of the Meuse and against which the German Crown Prince threw ineffectual attacks during the past week. The German efforts to dislodge the French from their newly won positions were fruitless.

PUTTING THE SCREW ON GER-MANY.

WASHINGTON, To-Day.—Government control of American exports authorized in the provisions of the Espionage Act was directed to be put into operation on July 15 by President Wilson to-night with issuance of a proclamation requiring the licensing of shipments to all countries of the most important export commodities.

DEMAND FOR REPRISALS.

LONDON, To-Day.—An intensified demand for reprisals has followed the air raid yesterday. All the night papers declare the people of London are furious at the inadequacy of the city's defences as it was revealed yesterday.

2.00 P. M.

THE FRENCH RAID ON ESSEN.

AMSTERDAM, To-Day.—A frontier correspondent of the Handelsblad reports that five persons were killed and several houses were destroyed during the bombardment of the German city of Essen, the home of the great Krupp works, on Friday night. A correspondent of the Tele-graph says that bombs were dropped on the Krupp works and that the reports of the damage inflicted are conflicting. Estimates of the number of the destroyers vary between 15 and 40. A semi-official German statement received here from Muenster, Westphalia, says, "Enemy aeroplanes visited industrial districts, dropping eight bombs and causing damage to the extent of 2,000 marks. No industrial works were hit, and there were no casualties."

DEBATE IN FRENCH DEPUTIES.

PARIS, To-day.—A noisy scene attended the public sitting of the Deputies which followed a week of secret sessions, at which were discussed events connected with the offensive of April 16. Until an early hour this morning the Chamber, which began the public sitting yesterday, continued the discussion of the resolutions proposed as the result of the secret session. Although there were frequent demands for an adjournment, Premier Briot closed the debate for the Government, declaring that the April offensive was costly but that instead of being a check, as asserted by some, it was a real suc-cess. Mistakes undoubtedly had been made, the Premier said, but we cannot rob our Generals of the audacity that gives victory.

ONLY SON KILLED.

MONTREAL, To-Day.—Flight Lieut. Hugh Allan, only son of Sir Montague Allan, was killed in France on Friday last. Sir Montague lost two daughters and Lady Allan was badly injured when the Lusitania was torpedoed.

CHINESE REPUBLIC RE-ESTABLISHED.

WASHINGTON, To-Day.—Official despatches to the Chinese Legation here to-night said the Republic had been firmly re-established at Nanking with Feng Kuo Chang, former Vice-President, as President of the new Provisional Government. Republican troops were reported converging toward Peking to drive out the Manchu forces remaining in possession there in the name of the Imperialists.

FRENCH SUCCESSES.

LONDON, To-Day.—North of the Aisne the French again have checked the German Crown Prince in an effort to regain the line of the Chemin des Dames. Attacking on four sectors along a front of seven and a half miles from the mouth of Laffaux Mill to Froldmont Farm, the Germans were met by a determined resistance on the part of the French, and sustaining heavy losses were repulsed completely, except on the eastern end of the line between Boves and Froldmont Farm. Here on a front of nearly two miles the fighting was desperate and the French after several hours were able to regain some lost elements. Later in the day in local engagements the French recaptured more lost trenches. East of Cerny on the eastern end of the Aisne front General Petain's men in an at-

Your Boys and Girls.

At all times of the year the baby's skin is very delicate and should receive great care in regard to cleanliness and keeping very dry the parts that are likely to become wet; as for example, changing wet diapers at once as soon they they are noticed to be wet. In summer even greater care should be taken in protecting the baby's delicate skin.

A full tub bath in the morning and one or two sponge baths during the day will do much in war weather to prevent skin troubles in the baby. The bath should not be too hard. If one is staying in a locality where the water is noted for its "hardness" a bran bag may be used in the water.

The use of soap should be carefully considered. It is usually unwise to put soap on the baby's face. The face should be bathed with a clean wash cloth before the water is allowed to become soapy.

Pure white castile soap is the best kind to use for the baby. If one does not care for this, then some very delicately scented French soap is the next best thing. Never use strong soaps of any kind on babies or young children. Only a little soap should be used on the wash cloth for head, body and extremities; then all this should be very carefully rinsed off with a french cloth and water. The child should never be dried while the body is still soapy.

Milady's Boudoir.

When the short skirt was accepted as an institution, women began to be more particular about their shoes. As they grew wiser and surer of themselves and their place in the world, they began to use their splendid sense in demanding the right shoes for their feet. That made the makers of shoes change their lasts. They were forced to make shoes that approached sane lines for women's wear as well as for men.

The present shoe has the long vamp and splendid appearance which characterize the best type of custom made shoes. The short vamp and the stubby toe are frowned on by the best dressers. The long, slender foot, like the long, tapering hand, has ever given the impression of aristocracy in the accepted meaning of the word.

Some say there are more flat feet now than ever before, but it must be remembered that women are now using their feet as never before and also women have ceased to accept any old shoes and hobble about and suffer in silence. They are not afraid to speak when their feet trouble them, and try every sane means to better their condition.

Here is the rule in all the good shoe shops for general wear. When one buys Tango ties and Sandals there is more individual freedom of choice. But where one woman buys low heels for dancing there are a million who wear shoes for general use.

Given the consciousness of good shoes and good gloves and a woman can rise above the knowledge that her gown is not the freshest in style and appearance. Crown her with a modish and becoming hat and she can even forget the shortcoming of the rest of her clothes.

Household Notes.

Ginger poultices are as efficacious as mustard and will not blister. They should be made in the same way.

Raisin Bread.—To ordinary dough made with one quart of whole-wheat flour, add one cupful of seeded raisins. Part of the flour should be reserved for dredging them. Do not put the raisins in until just before kneading.

Prune Salad.—This is delicious for luncheon. Stew one pound of large prunes until soft, without sweetening. Drain and pit; then fill the cavities with nut-meats or cream-cheese, and serve on lettuce leaves with mayonnaise dressing.
