

Letters patent are issued for the invention of Andrew Allan and others, of Montreal, for the purpose of the acquisition and working of a line of vessels between Montreal and other ports of Canada and the United States, for the purpose of carrying and forwarding goods and passengers thereby, by the name of "The Montreal and Acadia Steamship Company," with a total capital stock of \$500,000, divided into 5,000 shares of \$100 each.

Prison architecture has reached the acme of perfection at Due West, South Carolina. They have a building there in which windows and doors are entirely dispensed with. The prisoners are hoisted outside by means of a rope and dropped in from the top. Once in, it is evident that they must stay in a place so wonderfully defended in every facility. A captive may have kind friends outside willing to aid him, but what friend can secretly bring a derrick and rope into the prison; and if he could, how or by whom it is to be worked.

Right Hon. Mr. Childers returned to Hamilton on Saturday, and will remain there for some time.
