Alfonso Developing Into a Very For Slump in Consolidated Lake with coal from Oswego Saturday, and had a hard time of it on the lake.

Stories of Lack of Affection for His Philadelphia Bankers Chip In-The Mother Are Untrue.

Paris, Dec. 15 .- Bellamy Storer, the new ambassador to Austria-Hungary, has arrived here from Madrid and will proceed to Vienna as soon as advised of the time appointed for the official letters referring to the appointment to be exchanged. He will afterward call on Ambassader Perter.

Referring to the recent reports of the ill-health of the King of Spain, Mr. Storer said:

"A most emphatic contradiction should be given to the boulevard slanders against the king and queen mother. Only two days ago, when I saw the young king, I was struck by the fact that he had grown fully half a head since I saw him last July. He had also broadened out until he was full-chested and erect, and he was the picture of manly health. His face reflected his happy disposition and there were no traces of his being weighed down by the cares of state. The king's tender devotion to the queen mother showed their beautiful family life and the close sympathy of the members of the royal family. The report of the intended remarriage of the queen mother was an equally audacious slander."

"I am glad to say Spain is again smiling; the people are happy and the country is enjoying a fair degree of prosperity. The new cabinet brings together some of the strongest repreand promises good results. Fortunately the country is free from grave issues just now, and is rejoicing at the visit of the King of Portugal. Even Venezuela does not engage official attention, and is only of passing public

President's Visit to 'Frisco.

Washington, Dec. 15 .- President Roosevelt has formally accepted the invitation of the citizens' committee of San Francisco to attend the dedication of the navy monument to commemorate the battle of Manila. He suggests that his visit to San Francisco will probably be some time in May of next

Superior Stock.

Company Doing Finely.

Detroit, Mich., Dec. 15 .- A Sault Ste. Marie special says: "The slump in the stock of the Consolidated Lake Superior Company," said F. H. Clergue, "is undoubtedly due to the sensational articles which have been appearing in some Canadian papers to the effect that the steel plant will be shut down for the winter. This is not true, for the rail mills will be running again one week from Monday to their full capacity, and with a full complement. have received from both the Ontario and Dominion Governments contracts which will keep the mills busy all winter." The company, Mr. Clergue added, is doing finely in all depart-

AID FROM PHILADELPHIA.

Philadelphia, Pa., Dec. 15.-The Consolidated Lake Superior Company has been rescued from the financial straits in which it became involved Thursday, immediate cash needs, it is authoritatively stated, have been supplied under a preliminary \$1,000,000 loan arrangement. It is understood the banking system which has agreed to aid the through the Commercial Trust Company as obligations and commitments

mature. A successor to E. S. Lewis, who re signed the office of president yesterday, has not yet been selected, but a meeting of the directors is to be held today, when it is expected a new president will be elected. It is expected he will be named by the banking syndicate, which will finance the Consolisentatives of the dominant elements dated Lake Superior Company. In the meantime Theodore C. Search, vice-president, is acting head of the company. He said on Saturday that a collateral loan of \$3,000,000 would probably be arranged by Monday, and that there would be no bond issue.

Manager Search issued a statement, in which he said the company, finding itself in need of money, had practically arranged for a loan of \$3,000,000 when the break came, upsetting the plans of the directors It was necessary in consequence to negotiate a new Mr. Search also stated that President Lewis had resigned, not because of friction in the board of directors, but to leave the company free to act as it

aw fit.
The common stock closed at 7 and the preferred at 33 on the exchange

Money Stringency in New York. Washington, Dec. 15. - Secretary Shaw declines to say anything for publication as to the attitude of the Inited States treasury department in regard to the present money stringency in New York. There is reason to believe, however, no action whatever is contemplated in the near future, and certainly not as long as the interests involved are not extended to the substantial business operations of the country outside of its present limited

One-tenth of the inhabitants of the Village of Long Marston, in Hertford-

STILL ANOTHER RAILWAY PROJECT

Fourth Transcontinental Route Infringing on the Rights of the May Be Built fer the C. P. R. Proposed—From Toronto to Vancouver.

Toronto, Dec. 15 .- Messrs. Johnston & Falconbridge, barristers, of this city, have given notice of an application to be made by the Central Canada Railway Company to the Dominion Parliament at its next session for authority to build railway lines, which, when completed, will give Toronto a direct communication with the Pacific coast and various points of the North-

ern Northwest Territories.
At the last session the Central Canada Company obtained a charter for a railway to run to the Pacific coast from a point at or near the mouth of the French River. The present application is for a link to con-nect this line with Toronto. This link is to run from Sudbury to Scotia Junction, thence southerly via Balsam or Sturgeon Lakes in the Town-ships of Besley, Verulam, or Fenelon, to the capital of Ontario.

Authority is also sought for power to build a number of other lines, including a continuation of the company's main line from Tete Jaune Cache, by way of the Thompson and Fraser River valleys to Vancouver: branch from the company's main line in Keewatin district to Port Churchill on Hudson Bay; a line from some point on the Thompson River or its tributaries to Waddington Har-bor, or Bute Inlet; and a line from near the site of Fort Assinibola to some point on the Peace River and westerly to Portland Canal, on the strikes in a northerly direction through Manitoba and the Territories. The Central Canada Railway Company is independent of the Canadian Pacific, Grank Trunk, and Canadian Northern. In its promotion, Mr. T. W. Patterson, of Vancouver, has been associated with Mr. E. F. B. Johnston, of this city. No construction has as yet been started.

COAL IS \$10 IN HAMILTON

Dealers Put the Price Up \$2 Per Ton.

Philadelphia and Reading Railway Co. Started 75,000 Tons Sunday.

Frankfort, Mich., Dec. 15 .- Two car ferries of the Ann Arbor Railway are tied up at their docks here, bebause of the insufficient coal supply. There is not ten tons of soft coal in storage here, where about 150 cars are usually kept.

New Haven, Conn., Dec. 15. - The plant of the New Haven Iron and Steel Company has been closed, owing to lack of fuel.

TEN DOLLARS A TON. great quantity of anthracite coal, having got it in by water from Oswego SPAIN'S NICE YOUNG KING THE NEWSPAPERS BLAMED ing got it in by water from Oswego since the mines resumed work, have raised the price of that commodity from \$8 to \$10 per ton. The steamers Michigan and schooner Ryan came in with coal from Oswego Saturday, and Unless the weather moderates considerably no more coal will be received by water, and rail shipments ore very

slow as yet. LETTING IT OUT. Reading, Pa., Dec. 13.-The Reading Company is taxed to its utmost to keep coal traffic moving. Up to tonight the company transported about 10,500 cars for the past week, or nearly 325,-000 tons. All the collieries are worked to their full capacity. Never before in the history of the anthracite re-gions has there been such activity. Soft coal is becoming scarce, and the

Reading Company is having a hard time in getting a full supply. Reading, Pa., Dec. 14.-The Philadelphia and Reading Railway Company had over 50 locomotives in service transporting coal to market yesterday and today. The company claims that 75,000 tons were started, and is now on the road. Most of it is destined for the large eastern cities.

Absolutely Unfounded.

Ottawa, Dec. 15.-A cable has been received from Lord Strathcona stating that a dispatch from Montreal in a morning London paper said that foot and mouth disease existed in Canada, and for this blamed the Ottawa authorities' regulations. The agriculture department has forwarded a reply to the High Commissioner stating that the report was absolutely unfounded, company will provide it with funds and that no disease exists in Canada, and that every precautionary measure had been taken to keep Canada protected from the disease.

HOUSE OF LORDS GOING TOO FAR

Commons Regarding the Education Bill.

London, Dec. 15. - The amendments made by the House of Lords in com-mittee on the education bill are not numerous. Very few of them are important, but as one, if not two, seems to infringe on the exclusive rights of the House of Commons, it is possible there may be rather a lively debate when the bill goes back to that house on Tuesday next. The majority of the peers present on Wednesday night, including eighteen bishops, carried against the Government an emendment which makes the local authority liable for keeping denominational schools in good repair.

If the Lords spiritual had desired to confirm the popular impression, of which the Bishop of Hereford warned them, that their policy was one of grab, they could scarcely have hit upon a more appropriate method. Their object is to get their own schools provided for them gratuitously out of the rates and taxes, while refusing on behalf, not of the church, but of the clergy, to surrender cleri-

cal control. The Kenyon-Slaney clause, as modified by the Lords, does not altogether suit them. It is still ambiguous and obscure but if it be found to carry out the intentions of the lord chancellor it will enable the whole body of the local managers, or the majority of them, to prevent a clergyman teaching religions in a school, although he can appeal to the bishop of The company's main line the diocese, if authorized to do so by a trust deed, on the specific question whether the doctrines taught are or are not allowed by the Church of Eng-

How such a clause, if not further amended by the Commons, will work in practice is beyond the power of anyone, lawyer or layman, to pre-dict. One thing is certain, it will raise a fine crop of lucrative litigation for the gentlemen of the long robe. On this point, however, the Lords are clearly within their rights.

The Bishop of Manchester's amendment, dealing with the liability for repairs, raises the question of privilege, for if the managers are not liable to the local authority in this the peers have added to the public burden. Ever since 1671 both houses have accepted the principle, then laid down by the Commons, that "the right of granting aid and supplies to the crown is in the Commons alone, as an essential part of their constitution, and the limitation of all such grants as to matter, manner, measure or time is only in them." Although this resolution applies in its terms to taxes and not to rates successive speakers, including the late speaker, now Lord Peel, have held as regardthe privileges of the Commons, that there is no difference between rate and tax. Both are charges upon the people, and though rates are not directly imposed by Parliament, the power of imposing them can be derived from no other source. At all events the Commons never yet ad-Hamilton, Dec. 15.—The local coal mitted that they have not the sole dealers, only two of whom have any right to determine whether a school or any other institution shall he maintained from public or private funds. Every proposal from the Liberal benches in the Lords was voted down

by overwhelming majorities. The Health Convention.

New Orleans, Dec. 15.—The American Public Health Association concluded its annual convention by electing officers, headed by Surgeon-General Wyman for president. executive committee includes John Amyet, of Moronto. Washington, D. C., was chosen as the next place of meeting. Resolutions were adopted urging that illuminating gas be placed under municipal control, and asking for legislation that will require railroad and steamship companies and hotels to furnish pure drinking water.

WHAT IT MEANS TO YOU Few People Realize the Importance of Good Digestion Until It

Is Lost. Many people suffer from dyspepsia and do not know it. They feel mean, out of sorts, peevish, do not sleep well, do not have a good keen appetite do not have the inclination and energy for physical or mental work they once had, but at the same time do not feel any particular pain or distress in the stomach. Yet all this is the result of poor digestion, an insidious form of dyspepsia which can only be cured by a remedy specially intended to cure it and make the digestive organs act naturally and properly digest the food eaten. Bitters, after dinner pills and nerve tonics will never help the trouble; they don't reach it. The new medical discovery does. It is Stuart's Dyspepsia Tablets and is a specific for dyspepsia and indigestion. It cures because it thoroughly digests all wholesome food taken into stomach, whether the stomach is in good working order or not. Stuart's Dyspepsia Tablets by di-

gesting the food, instead of making the worn out stomach do all the work gives it a much needed rest and a cure of dyspepsia is the natural result. When you are nervous, run down and sleepless, don't make the common mistake of supposing your nervous system needs treatment and fill your stomach with powerful nerve tonics which make you feel good for a little while only to fall back farther than

Your nerves are all right, but they are starved, they want food.

Nourish them with wholesome every day food and plenty of it, well digested, and you can laugh at nerve tonics and medicine. But the nerves will not be nourished from a weak, abused stomach, but when the digestion has been made perfect by the use of this remedy all nervous symptoms disappear.

Who ever heard of a man or woman blessed with a vigorous digestion and good appetitie being troubled with their Good digestion means a strong neryous system, abundance of energy

and capacity to enjoy the good things Stuart's Dyspepsia Tablets will certainly set your stomach and digestive organs right; they can't help but do it because they nourish the body by digesting the food eaten, and rest the

You get nourishment and rest at one and the same time, and that is all the worn out dyspeptic needs to build him up and give new life to every organ and an added zest to every pleasure. Stuart's Dyspepsia Tablets are a godsend to the army of men and women with weak stomachs, weak nerves and justly merits the claim of being one of the most worthy medical discoveries

BIG SHIPYARD FOR SANDWICH

and N. P. Railways-Cost, \$1,000,000.

Chicago, Ill., Dec. 15 .- James J. Hill, president of the Great Northern Railway, arrived in the city Friday night, and with him came the semi-official announcement of ambitious plans contemplated by the Great Northern system, not the least being the construction of a large fleet of modern vessels for the lake carrying trade.

This move is contemplated, it is stated, for the purpose of putting the Northern Pacific on a parity with the Lehigh, the Great Northern and other systems in lake transportation. Traffic east and west between the

big centers is tending more and more toward part rail and a part lake service, and accordingly the railroad systems of the Northwest in the future must be able to compete on water as well as on land if they expect to keep their earnings.

It is stated that the company may also decide to construct a number of passenger boats plying from Detroit and Toronto, having secured an interest in the business of the Bertrams, shipbuilders, of Toronto. The latter, it is further said, will construct a \$1 .-000,000 plant, completely equipped, at Sandwich, across the river from De-

The primary object of this plant will be to build boats for the Canadian Pacific, but it is also the purpose of the new company to enter the field for general contracts for building and repair work. Nearly all the repair work for Canadian vessels is now done in American shops.

JOHNSTON WAS NO HERO

All Glamour Stripped From the 8 Murder of Miss Hassett.

Result of the Inquest-Sentences of Three Murderers Commuted.

Philadelphia, Pa., Dec. 15.-Some of the glamour was stripped from the Johnstone-Hassett shooting case Saturday by Coroner Dugan, who was determined that the actor-murderer should not be remembered as a hero. The rumors of a death pact between the man and woman were swept away at the inquest, as were also the stories that Miss Hassett fired the first shot | 9 that led to the double killing. It was shown that Barry Johnstone, fired three bullets she was kneeling before him in the street, evidently praying for her life, and that he left his victim and hurried away, only killing himself when

he saw a policeman was at hand to prevent his escape. Your verdict," said Coroner Dugan to the jury, "must make it clear that this man Johnstone was not a hero, but a cowardly murderer,"and the jury

so declared SENTENCES COMMUTED. Montpelier, Vt., Dec. 15. — The Legislature, after being in session all night, with a short address of a few

hours about daylight, adjourned sine die at 8 o'clock Saturday morning. Governor McCullough signed bills commuting the death sentence of three murderers—Frank Shaw, Frederick Eastwood and Charles Doherty SHOT TO DEATH.

South Bend, Ind., Dec. 15. - Four negroes, with drawn revolvers, enter-ed the store of John Koonzeman, in the western part of the city Saturday night and attempted to rob the store. Koonzeman attempted to drive the negroes from the store and was shot to death. The murderers escaped.

AWAKENED JUST IN TIME

Chatham Family Escapes Asphyxiation-Two Laddes Seriously III.

Chatham, Dec. 15.—The family of Amos Birch, North Chatham, retired early Friday night, three children sleeping upstairs, while three adults occupied the lower rooms in close proximity to a large coal stave. At an early hour Saturday morning Mrs. Birch's sister was awakened by a very severe headache and oppressive feeling. The lady, it appears, is somewhat subject to headaches, and determined to get up and take a powder. As soon, however as she attempted to rise she fell to the floor in an unconscious condition. This awakened Mrs. Birch, who made an effort to rise, with the same result, falling fainting on the floor. Fortunately, Mr. Birch was able to come to the rescue. Dizzily he made his way to the doors and threw them open, letting in the fresh air. He then went upstairs to the children, and experienced some difficulty in awakening them, as they were in a condition of partial stupor. Dr. W. R. Hall was summoned, and after some difficulty the two ladies were brought to. The children seem but little worse for their dangerous experience, but both ladies are very seriously ill. The gas encaping from the coal stove was evidently the cause of their asphyxiation.

Child Desertion in Toronto. Toronto, Dec. 15.-The police found a two-weeks-old female on Saturday afternoon left in a coal yard. Investigation leads to the belief that the woman who deserted the child have been a patient in the Burnside Hospital, where she gave the name of Hattle Jones, and said she had friends in Cobourg. She left the hospital on Saturday morning, much against the wishes of the authorities there. An application was made at the infants' home to leave the child there, but the reply was that the mother would have to remain also. To this the woman objected, and it thought she went immediately to the aforesaid coal yard, where the infant was found. The child's cheeks were frozen when found by the police, who handed her over to the infants home. The police have no trace scoveries of the mother, but they suspect that 67-e-zxy she went to Cobourg.

THIS STORE

Will be open every night until Christmas.

Tuesday Evening's Special Attraction.
