NORWICH BRIDE DIED OF POISONING

the Death of Mrs. Orena Riddell

Norwich, Ont., June 20.-When the jury investigating the mysterious death of Mrs. Orena Riddell assembles on Thursday evening next for what expected to be the final sitting of the coroner's inquiry, it is practically a surety that the provincial analyst's report, which will then be ready for presentation, will show the presence of a considerable quantity of prussic acid in the stomach of the woman. This assurance is based on the strong and characteristic odor of the strong and characteristic odor of this deadly acid which was detected about the mouth of the woman when examined by two physicians shortly after her death, and later distinctly of the death, and later distinctly of presence of a considerable quantity of prussic acid in the stomach of the tharrow.

CATER TO THE MOB

But Playwright Sees a Better Day For Cultured Drama.

London, June 18. - If overdressed musical comedy is the only form of dramatics in England which arouses popular enthusiasm and makes managers rich, it must be that England is a musical comedy nation. So says C. M. S. McLellan, author of "Leah Kleschna," "The Belle of New York," and several other well known plays.

"To use slang, as does Mr. Rooseveli and most of my fellow-countrymen, that's coming to you. I mean that every country receives what it deserves, and that applies to the drama, as well as every other form of art. "I have no greater respect for the American theatre than I have for the English. Taking the state of the two countries at the present moment, without any regard for what they are on its side the name, "Syreira Lee, striving for in the future, I have no doubt but that the best cultivated public in England has a clearer knowledge of what makes good and bad art on the stake than any public in America has, kettles, and Syreira Lee herself may But this superior English public is very small and has practically given up going to the theatre in disgust. In London good taste is not stranger, but is deliberately pushed into the background. Now the question is whether that background is growing stronger and preparing for a deadly crusade against the vulgarity of the mob. Personally, I believe the coming; in fact, that it has long been under way, and that in the end it will rout the mob and bring about a renaissance of dramatic art in Eng-

"The talented Maeterlinck could not get past the censor with his 'Monna Vanna,' so he asked himself, 'What is it the British public loves above every. other form of art?" The answer came.
