### CROP SITUATION

Winnipeg, Aug. 13.—Moderately high temperatures with good ripening winds are setting forward day by day. The probable date of general harvesting, which now for much of the country looks like toward e end of next week. Scarcity of binder twine, and of harvest help are making themselves felt already. Many districts are sending in estimates of the big extra number of harvest hands needed, and some of the bigger farmers are going east to assure themselves that they will get competent men and energh.

petent men and en gh.

With a few days more of good ripening weather, the crop situation of the prairie provinces could not be better. There is no prospect of a bumper yield, but favorable harvest weather always granted, there should be a good average yield, which means somewhere around eighteen bushels of wheat exceptionally high average grade. Indeed, unless something untoward intervenes, the Canadian prairie west will probably have double the amount of grain up to export grades of any one previous season.

# HOUSE REJECTS VETO OF TAFT

Underwood-Lafollette Wool Revision Bill Passed by Congress.

NEWS GOES TO SENATE

Vote an Illustration of Support Re publicans Are Giving the President.

Washington, Aug. 13 .- By a vote on 174 to 80, the House this afternoon passed the Underwood-Lafollette woo revision bill over President Taft's veto. This was accomplished by the Democrats, aided by the votes of 21 Reubneans.

The wool bill is the first big measure that has been passed by either branch of Congress over Mr. Taft's official disapproval. The President's defeat was due in a large measure to the fact that 60 Republicans were ab-sent from the House. Many of these, but not all, were paired with Democrats. The failure of the party to turn out its full strength for a vote on this important measure is, however, an impressive illustration the kind of support that the Taft ad-ministration is receiving from Repub-licans in Congress. The wool bill now goes to the Senate. There is no likelihood of the necessary two-thirds vote being mustered in that sbody. The bill passed the Senate in the first instance by a vote of 35 to 28, with 31 senators absent or not voting. Six Republicans' votes are all that the Democrats can hope to command in the Senate for the compromise wool bill, and this number would not be ufficient, even if the full Democratic sufficient, even if the full Democratic strength of 43 were present in the Senate. It will require 63 votes on a full Senate. With the six Republicans voting with the Democrats the Senate would be divided 49 to 45. While the Democratic leaders in the Senate acknowledge that the effort is almost hopeless, they said today they almost hopeless, they said today they were going to make the strongest kind of an effort to recruit Republican

Less than an hour after Rosenthal was murdered he told "Bridgie" Webber in front of the Murray Hill Baths, in the presence of Rose, and with Jack Sullivan standing by that he hadn't much money with the standard of the standard Rose, and with Jack Sullivan standing by, that he hadn't much money with hin, and he ordered Webber to give Rose or Schepps \$1,000, "so that the boys could get out of town in a hurry." He told Webber that he would pay him the whole \$1,500 the next day. Webber sent Jack Sullivan three times to get the money from Becker, but the lieutenant dodged payment and Webber never got his money.
