

## Bonnie Cope Wins 2:11 Pace at the Woodstock Meet

Bertha Walsh Captures 2:30  
Pace in Straight Heats—  
2:24 Trot Postponed.

WOODSTOCK, July 11.—This city inaugurated trotting and pacing after twenty years of inactivity. It was opening day, and the crowd was not large, but as usual the racing was good. The track was fast, and the horses circled the half-mile track in great fashion.

Two of the events were finished, but the 2:24 trot was split after some great racing. Wednesday and Thursday will surely see the greatest racing ever held in Western Ontario.

About 75 horses are stabled here, and the meet has brought the old-time crowd to the city.

First Race—2:30 Pace, \$400.

## EIGHT MILES OF HUN TRENCHES NOW BRITISH IN 10 DAYS FIGHTING

Gain Includes Five Strongly-Fortified Villages, Heavily  
Wired and Entrenched Woods and Strong  
Redoubts.

[Canadian Press Cable.]  
London, July 11.—(10:37 p.m.)—The capture of the whole of the German first system of defence on a front of 14,000 yards (nearly eight miles), after ten days and nights of continuous fighting is announced in the official report from British headquarters in France. The number of prisoners taken exceeds 7,500.

The British today recaptured nearly the whole of the Tignes wood, the war office announced tonight. All but the northernmost end of the wood is again in British hands.

The text reads: "The capture of the whole of the Tignes wood, the war office announced tonight. All but the northernmost end of the wood is again in British hands."

"After ten days and nights of continuous fighting our troops have completed the methodical capture of the whole of the enemy's first system of defence on a front of 14,000 yards. The system of defence consisted of numerous and continuous lines of fire trenches, support trenches and reserve trenches, extending for various depths from two thousand to four thousand yards. It included five strongly fortified villages, numerous heavily wired and entrenched woods and a large number of immensely strong redoubts. The capture of each of these trenches represented an operation of some importance, and the whole of them are now in our hands."

"German Success Short-Lived."  
"The German success in the recapture of Tignes wood, after several attacks, was of short duration. We captured nearly the whole of this wood. All but the northernmost end is again in our hands."

"Apart from the number of guns hidden in houses and buried in the debris, etc., we have, in the course of these operations, brought in 26 field guns, one naval gun, one anti-aircraft gun, and one heavy howitzer, while the number of German prisoners captured exceeds 7,500."

"Continuation of the report on aerial combats on July 9, one of our aeroplanes was shot down by a direct hit from an anti-aircraft gun, and three other machines have not returned to our lines."

"Heavy fighting continues in Tignes wood."

## ALLIES MAKING STEADY ADVANCE ON ALL FRONTS

Nearly 300,000 Prisoners Are  
Taken East and West.

A NOTABLE BRITISH GAIN  
Germans Had Assigned the  
Prussian Guard To Defend  
Contalmaison.

[Canadian Press Cable.]  
London, July 11.—(10:52 p.m.)—This was another good day for the Allies who are making a steady advance on all fronts. A striking illustration of the difference in the relative positions of the Allies and the German forces is the remarkable change from the monotonous trench warfare which characterized the Allied operations for so many weary months, until the present summer, to the number of prisoners and guns taken. These, for the battle of the Somme amount to 22,000 prisoners and 104 guns captured from the Germans, while the official figures for the Russian General Brusilov's drive to the 10th of July are 27,420 prisoners, 312 guns and 868 machine guns.

## MAKINS COMMENTS ON N. PERTH RESULT

Says Temperance, Liquor and  
Germans Beat Him.

HERALD HAS THE WEEPS

Says North Perth's Fair  
Name Has Been  
Blighted.

[Special to The Advertiser.]

STRAITFORD, July 11.—The official count of yesterday's voting in North Perth will not be made until Friday. Returns came in from the county today, but did not materially change the situation, adding three more to the majority for Mr. Hay as first announced, making it 627.

"Harken to This!"

Discussing the result, Mr. Makins, Conservative, said: "We have been kicked, but as Conservatives I hope that we can take a licking and come back fighting. We had unbeatable forces arrayed against us. The result was a combination of the liquor interests and the temperance Liberals, coupled with the vote of the pro-Germans in the riding."

Probably the oldest voter in the riding, Alex. McLean, of Oakbank, aged 93, was out on Monday, and recorded his vote for the Liberal candidate.

Referring to the German vote, he says: "In so doing these electors (the Germans), were more sinned against than sinning. Men of British name and British blood did not scruple to 'poison' the minds of their fellow-citizens of German extraction with stories that were a disgrace."

The Herald naturally expresses disappointment at what it terms the "unfortunate manner of its capture by our political opponents."

"North Perth's fair name," it asserts, "has been blighted by what happened on Monday, and that the liquor interests and the German vote were responsible for the win."

## Trouble at Camp Gives Black Eye To Recruiting

Officers in Toronto Declare  
Something Must Be Done  
at Once.

[Special to The Advertiser.]

TORONTO, July 11.—Recruiting in Toronto got its worst black eye today, according to recruiting officers. Men refused to enlist and some of those enlisted asked to withdraw.

The reasons advanced were invariably being mortally wounded. Letten says the gallant soldier practically mowed the Huns down by the score before a bullet drilled him through the heart. He was found with his hand still clutching the trigger of the gun.

Woodworth, in charge of a machine gun, the crew of which had been wounded, faced the Germans single-handed. Three times he was hit in the chest, being mortally wounded. Letten says the gallant soldier practically mowed the Huns down by the score before a bullet drilled him through the heart. He was found with his hand still clutching the trigger of the gun.
