Furthermore, the average woman is far more concerned about the state of her wardrobe than she is about the state of her immortal soul, and she yearns far more after an imported frock than she does for righteous-

And this being the case, amount of propaganda is going to convert her from the error of her ways and make her give up her frills and furbelows for a costume that is just exactly like every other woman's costume, and whose only merit is that it is a decent garment Great Campaign Starts in Octo-that wears well and doesn't show

Nor will the arguments in favor of the standardized dress appeal to her. Suppose it does save money! What's the good of money if you can't buy the chiffons with it that enhance a woman's beauty? Suppose it does save time? What do you want with more time, if you can't spend it in the delirious pastime

of shopping? Suppose it does save thought? What mental effort so engrossing and fascinating as that of planning ravishing new costumes that will make men rubber and other women green with envy? Suppose it does save effort? Why, women rise from sick beds and go downstairs when Felice telephones that she has got in a new importation of gowns straight from Paris!

Women will reject the standardized dress idea not only because it would rob life of its chief joy for them and take away from them a sport of which they never tire and of which they never fail to get a kick, but because they find in dress their real medium of self-

expression. Woman thinks in groups, so far as her politics, and her religion, and her culture goes, but her clothes are her own. They represent her taste. Rowley, the president, presided over a good attendance of members, and They symbolize her personality, and a good attendance of members, and after a short business session a program was given. It included violin numbers by Bruce Wells, accompanied by Miss Dorothy Cahill; vocal solos by Miss Eva Metcalf, accompanied by Miss M. McLeisch: guitar solos by Miss Madeline Piercey.

C. A. Brown, principal of the is going to be something different C. A. Brown, principal of the school, was the speaker of the evenand express the magenta longings of ing, giving an excellent address on "School Work." He dealt mainly her soul in her hat if she wants to.

This is what makes it possible for women to size up each other at a glance. All that a woman needs in order to psychoanalyze a sister woman is a passing glance at her clothes. If her dress is neat and trim, with no frivolous excretions or fluffy protuberances, she knows that the wearer has a tailor-made soul; that she runs her house on a budget; is a conservative in politics, orthodox in religion and that everything in her linen closet is in neat labeled packag

On the other hand, if a woman runs to beads, and laces, and dangling ends, and tags; if she wears a mauve chiffon when she should have on blue serge; if her frocks are mussy and look as if they needed a visit to the cleaner and presser, no feminine observer needs to be told that she is a woman who lacks judgment and practicality; that she is a woman who yields to the impulse of the moment and does the things she wants to do, whether it is the wise thing to do or not: and that she is a thriftless and sloppy housekeeper, who lets her servants steal from her and her children run over her.

The first meeting of the season for the Hale street mothers' club was held last evening in the Pottersburg woman dressed like a slim young school. There was just a fair attenschool. There was just a fair attendance and the new president, Mrs. R. J. Kelly, was in the chair. No defining an anatomical display of her bones, they say, "Ah, here's colossal plans were made at this session, vanity! You can feed her on ful the plans were made at this session, but a small program was given, including solos by Mrs. Neely, and reading by Miss Florence Lewis. At the conclusion of the program a social some flattery with a shovel and

thereby work her to a finish!" But with all women dressed alike their individuality would be submerged into the common mass of femininity. There would be no way to tell who and what they were; no fascinating glimpses into their

hearts and minds. They would be as dull and drab frs. Adda Elliott of Euphemia.
Only immediate relatives and close only immediate relatives and close riends were present for the cereinds were present for the cereinds, which was performed by Rev.
W. Button, B.A. the church school room, at which Miss moment you observe a woman's George was presented with several arto pursue her acquaintance.

Another objection to the standardized clothes for women is that it will wipe so much beauty out of a world that has none to spare. You never can realize how much women's gay clothes do to brighten and cheer things up until you look down upon a big women's banquet and a big men's banquet. The women's banquet will be like a flower garden, masses of lovely color, or flashing jewels, or soft, alluring fabrics. The man's banquet will be a hideous picture in hard black and white, with blobs of bald heads making the high lights.

Probably the men are just as goodlooking as the women, but the women have about them the glamour of their gay clothes. They camouflage whatever defects their possessors may have, and it will be a sad day if women are ever idiotic enough to cast away the help of the dress-maker and the milliner, and be as

The Operation I Avoided—

IF there is one thing more than another a woman dreads, it is a surgical operation, and to be told that one is necessary is a surgical operation, and to be told that one is necessary is very disheartening.

Hospitals are grand institutions, and undoubtedly many operations are necessary. However, we have received hundreds of letters from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after an operation had been deemed advisable.

Every woman who suffers as Mrs. Coffman did naturally wishes to avoid an operation if possible, and the remarkable statements which she makes in her letter will be read with interest by women everywhere.
