Our view of the matter observed was that on which the Martin is that Sir John's great strength with been deceived by the acknowledged & Deacon letter was written to the Vancouver city council, the Colonist representative at Vancouver called upon Mr. Ludgate, who said to him for publication: "I heard from Attorney-General Martin to-day. He is still my counsel." It seems hardly necessary to say anything more. The case of the Colonist is proven beyond the ghost of a doubt, namely that Mr. Martin's position as a private practitioner has brought him ful in the politics of any country. into collision with his duties as the chief adviser of the crown in this province.

THE ANGLO-RUSSIAN

AGREEMENT. Only an outline of the Anglo-Russian agreement in regard to China has been given to the public, but sufficient has been told to show it to be of very great importance. In a general way, the unit of the cause is beyond the reach of legislation. It is the same as leads the people of rural communities to seek the cities. It is well known to all observed that both victoria performances were an eminent success financially as well as artistically, and it is not too much to anticipate equal success over importance. In a general way the understanding is that Russia will not seek to acquire any concession in the valley rovided to take the place of that which well as artistically, and it is not too much to anticipate equal success over the water, where a brand new list of local jests will be utilized.

A request has been made for a return of the Yang-Tse-Kiang and that Great Britain will abstain from intruding into northern China. There is no definite agreement as to the dividing line between the two spheres of influence. The motive of Russie in coming to a communities. This will brown whether or not the ladies will a third time brave the footlights under their burnt cork disguises. It's an old actor's saying that the hardest thing in the world for a woman young or ald agreement as to the dividing line between the two spheres of influence. The motive of Russia in coming to such an arrangement is said to be in order to secure the co-operation of British capital communication between the two countries became easy and tween the Siberian rail.

trip were not a capitalist?

Passengers on the westbound train over e Crow's Nest Pass railway on Thursday last had a novel experience about three or four miles east of Kitchener, where one of the box freight cars had left the track in a manner unique and almost unprecedented. The train consisted of fifteen freight cars, a baggage and a very ancient combined grant for the \$4,000 per mile subsidy, as passenger and smoking coach. From about with coke, had left the rails, and after running about fifty yards on the ties, had jumped the track altogether, and turned ompletely over, and was lying on its tor diagonally down the side of the embanl ment. The body of the car was apparently very little injured. The trucks were en tirely clear of the track and the whole chinery were completely demolished. The car before and that behind the eratic car were not distrubed from their usual posiion, and not a passenger realized that an accident had occurred, which might, under other circumstances, have been serious in its results.

NELSON.

at 7 o'clock by John Harbottle, the foreman employed by contractors C. Hillyer & Co.

The equipment of the Nelson fire brigade was supplemented vesterday by 600 feet of paragon hose, two rubber play pipes and The

rigade has now some 2,800 feet of hose. Superintendent Marpole and H. J. Cambie. ngineer for the Canadian Pacific Railway ompany, returned to Nelson yesterday after a trip to Lardo, at the head of Koot enay lake, where they were looking over a portion of the line which has been located for the new branch which will run from Arrowhead to Kootenay lake. The officials made the trip to Lardo on the tug Ymir. They went over a portion of the line and made the return trip on the steamer Nelson. They say that it is the intention of the company to proceed with the construction of this eighty-mile branch as soon as the line is located by the en-

It was rumored about the streets yesterday that the representatives of the company which proposes putting in the tramway in Nelson had made considerable purchases in realty in Bogustown. The purchases of said to have been made in the interests of the same people, so that it would appear hat the company contemplates making on real estate advances and rentals what it expects to lose in the operation tramway for the first few years. the operation of the

Walter S. Ashptal died suddenly last even-ing at the residence of J. R. Rowley. He was taken ill about 4 o'clock in the afternoon, when medical aid was summoned, but he died in about two hours and a half afterwards. Heart disease is assigned as the cause. The deceased came to Nel-son in the summer of 1896, and shortly afterwards became interested in the business now carried on by the Nelson Soda-water Factory. After disposing of his aterest in the sodawater works, he carried several mercantile agencies, and at the who is time of his death was the owner of the party. Club hotel building. He was well known and generally liked.

the southeast corner of Victoria and Ward streets to A. H. Clements for \$4,000 cash. streets to A. H. Clements for \$2,000 cash. The property was originally owned by S. M. Davys, superintendent of the Silver King mine, and the house was one of the first residences built in Nelson. Mr. Scully bought it last fall, paying \$2,600 for it. I said that the site may be the which the Dominion government will build the post office and custom house here. There was a mix-up at a Baker street hotel this morning between a mining nan and a hotel manager, in which a dismissed government official took a hand. The min-

ing man and the dismissed official did not get any the best of it. There is an unwonted amount of activity ound the Hall Mines smelter this week Several days ago the long-expected run upor plast furnace, the company using a mixture of Silver King ores with the purchased of Silver King ores with the purchased ores, and on Saturday the 250-ton furnace was blown in on high-grade copper ore from the King. With both blast furnaces

on Tuesday Capt. Bacon ran the Hyal up the Columbia river as far as Carbonate with a view to starting the season's navigation. He found the water very low, and on his return was stopped by a log jam and H. Norman.....Call Man... had to leave the boat some distance up river. It was hoped that the season's navigation would have been opened dur ing the coming week, but owing to continuation of cold weather and the low state of the water it is impossible as yet to say when the boats will open

Mr. W. C. Wells, M.P.P., will interview These works will include moval of the court house from Donald to Golden, Canyon creek, Fifteen-Mile creek, isiness property made this week are also road on Toby creek, government buildings at Windermere, repair to government road between Golden and Canal Flat, impovement to road between railway station and boat landing at Golden, and other required works. Mr. Wells will also insist on the government putting men on at once to clear out the Moberly trail between Golden and Canoe river, and to open it through to Tete Jaune Cache. On his return Mr. Wells will make a tour of the electorate to ascertain the full requirements of his constituents, and will visit the settlers along the Golden-Fort Steele road from Golden to Canal Flat, putting in some time at Windermere, which district will merit special attention at the hands of the government during the coming season. At Van. works. Mr. Wells will also insist ernment during the coming season. At Van-couver Mr. Wells will meet his brothe. who is one of Sir Wm. Van Horne's holiday

Yesterday an interesting event was celbrated at the Catholic church, Golder Yesterday M. Scully sold the two lots on when the Rev. Father Thayer performed the ceremony of uniting in wedlock Frank Dargis, proprietor of the Athalmer house, Athalmer, and Miss Annie Tolmie, former-ly of the Queen's hotel. Miss Jaura Kenny acted as bridesmaid and Mr. A. Mc-Millan as bridegroom's man. After the ceremony the bicyclists with their wheels prettily decorated with ribbons formed up n line on either side of the street leading from the church and pelted the weddin party with rice. A procession was formed back of the Queen's hotel, where the welding breakfast was partaken of, and the bride and bridegroom will leave for their new home at Athalmer.

> KILLING AND BURNING. Another Town in the Philippines Experiences the Horrors of War.

Manila, May 4. (noon)—Gen. MacArthur is now assaulting the town of Santomas, about five miles northwest of Calumpit. The Americans are fighting for the bridge and the rebels are burning the town.

CHANGES IN THE BRIGADE. New Waterous Engine to Be Tested To-day-The Rearrangement of

Forces.

The new Waterous steam fire engine which has just arrived from the East to increase the fire-fighting resources of the city of Victoria was seen on the street for the first time yesterday, when it was taken up to the emergency tank on Pioneer street and had water run through it in the presence of Chief Deasy, several of the aldermen and fire wardens, and Messrs. A. S. Long and Hugh B. Gilmore—representatives of the manufacturing commany.

The formal test of the new machin which is in every way a beauty, will take place at 3 o'clock this afternoon, which has not yet been christened, go into service just as soon as it has been formally accepted by the city from the manufacturers.
With this new steamer and the Cham

pion chemical engine that is due to ar rive on or before the 23rd instant, the apparatus for the protection of the Centre, South and part of the will be fairly complete and satisfactory. It will include (with the working crews) the following: One Merryweather steam fire engine,

with engineer and driver.
One Waterous steam fire engine, with engineer and driver. One small Merryweather steam fire engine, in reserve.

One Champion chemical engine, with driver and three call men.

One combined chemical engine and hose wagon, for the upper Yates street station with driver and on, with driver and hoseman One hose carriage, with driver, fore

One hose wagon, for the James Bay station, with driver and hoseman. One exercise wagon, in reserve.

One engineer, in reserve. One relief driver and engineer. One call man caretaker

One Preston aerial truck, with driver erman, foreman and six call men. The districts which will next demand attention are Oaklands and Victoria West, the latter more particularly deserving improved apparatus and a regulargly equipped and manned station similar to that at James Bay or in construction at the corner of Yates and amosun streets. The work on this structure has now reached the second story and is progressing very satisfactor-It is expected that the No. 2 station on Yates street will be vacated on Saturday of this week.

Removal from No. 1 station at the city hall to the new quarters in the marbuilding will require more time, as the fire alarm system and other auxiliary machinery must be properly stalled, and there does not appear to be any occasion for special haste in vacat ing the premises now in use

Of course, the opening of the station on upper Yates street and the bringing into use of the new apparatus necessitates a material change in the composi tion of the force at Chief Deasy's command, and the addition of a number of men to the permanent department.

At the suggestion of the Chief, it has been decided to accept call man R. A. Murrant's resignation, appointing A. Brown as his successor. The permanent

or paid brigade has been augmented by the appointment of Colin Blain, George E. Moss, H. Norman and F. J. Shepherd-four call men.

Four extra call men to replace these transferred fire fighters will placed to the The option 1900.—Nelson 1900.—Nelson the central station. He will remain the central station. He will remain
