Brandon's Big Crop. Brandon, Man., Sept. 3.—Two days of beautiful harvest weather has brought the South Brandon district were cutting their wheat today. In North Brandon the crop is heavier and a few days later, but if the hot weather continues the cutting will be general here, too, by Wednesday or Thursday. The farmers in North Brandon claim they have one of the biggest crops ever reaped in this district and claim the yield will be from thirty to thirty-five bushels to the acre.

Are You a Woman Needing Strength

Not long ago you were able to enjoy life. You had vigor, strength, ambition—did everything with zest and pleasure. Upon your cheeks was the hue of health, in your eyes the sparkle of vim and animation. Today all is a drudge. Not actually sick, but if your work were less imperative, how gladly you would rest. You are breaking down. Nervous system is out of gear. Digestive powers are weak. Blood lacks nourishment. Just one thing to do—Build up—Win back your health with Ferrozone.

No remedy restores so fast, builds up so permanently, instills such vigor or surplus strength like Ferrozone. A case showing how Ferrozone acts is illustrated by the following from Mrs. H. Wright of Enfield, N. S.

Six months ago I experienced a serious illness. It commenced with splitting headaches, dull pains through the chest and shoulders, I found it hard to get satisfying sleep—would roll and toss and in the morning felt tired all over. Then I grew nervous, lost flesh, got pale and had heavy dark circles under my eyes. My strength got so low I couldn't do housework. I was worried and unable to eat and feared I would not get well. Ferrozone braced me up in a few weeks. It seemed to supply wonderful strength. I gained in flesh, looked better and was able to sleep. In all I took twelve boxes of Ferrozone and my cure was complete.

If Ferrozone doesn't help and cure you—then nothing ever will; your druggist sells it in 50c boxes—Better try Ferrozone.

Terrible Accident at Quebec. Quebec, Aug. 30.—The toll of death caused by the collapse last night of the great cantilever bridge which spans the St. Lawrence river at Levis, two miles above the city of Quebec, numbers at least 75 and may reach 80. Up to an early hour today less than 20 bodies had been recovered. The terrific drop of the great structure from 180 feet above the surface of the river crushed the bodies of many of the workmen in a frightful manner and it is feared many of them never will be found.

Many of the dead were Americans brought here by the Phoenix Bridge Co., of Phoenixville, Pa., which had the contract for the iron work on the bridge.

PLAIN TALK FROM THE DOCTOR A prominent physician, famous for his success in the treatment of kidney and bladder troubles, stated that to the following prescription is due a great deal of his success: One ounce fluid extract dandelion; One ounce compound salatanine; Four ounces compound syrup sarsaparilla.

Mix and take a teaspoonful after meals and at bedtime, drinking plenty of water. This mixture will, he says, positively cure any diseases arising from weak, clogged or inactive kidneys, and will assist these organs to cleanse the blood of the poisonous waste matter and acids, which if allowed to remain, cause lumbago, lame back, rheumatism and sciatica, and at the same time will restore the kidneys to healthy normal action.

The ingredients, which are purely vegetable and entirely harmless, can be procured from any good druggist and mixed at home at very little cost. This advice will undoubtedly be much appreciated by many readers.

The Hon. W. J. Hanna Settles the Question Raised.

The Free Press reporter interviewed the member for West Lambton in reference to the question of whether there was any truth in the report he was to become Attorney General and be a candidate in Toronto instead of this constituency, with the following result:—

"The provincial secretary was asked if there was any truth in the report to the effect that he might tackle the office of attorney general, and also that he might change his place of residence from Sarnia to Toronto and run for one of the Toronto divisions."

Mr. Hanna laughed. "That is one of the hot weather stories that people get up when they haven't anything else to do," he said. "There is absolutely nothing in it. I have no thought of moving to Toronto. West Lambton is my home. West Lambton is where all my interests are. West Lambton is where I intend to stay."

"Then it is your intention to run for West Lambton in the next campaign?" "That is not a matter for me to decide. That is for a convention. But Lambton is my county. It was there I was brought up and there I entered politics. Whatever little I may have accomplished, either in my profession or in politics, it was by the friendship and encouragement of the people of Lambton that I accomplished it. My services are at the command of the electors of West Lambton so long as they want them. It falls to few men to be as well treated by a constituency as West Lambton has treated me."

"They gave it to you pretty hard the first time you ran?" "They did. But let me tell you I did not suffer in the end from that. I found a lot of friends in that campaign, and I have been finding more good friends ever since. The second time I ran, I had friends enough to put me close up to the winning mark. The third time I had friends enough to carry me over and elect me; and last time I had friends enough to put me in by a majority which ought to have been big enough to satisfy anybody. Whether I ever deserved what the people here have done for me is a matter about which I have some doubt but that my friends in the riding deserved from me the very best service that I can give them in a matter about which I have no doubt at all. As to leaving West Lambton and looking for a seat in some other constituency, not any of that for me."
