

## Make The Returning Soldier Welcome

**T**HIS is an important hour for Canada. The nation is entering on a new era. It is passing from war to peace. Let us start this new era right. There are thousands of soldiers returning from overseas. The Government is doing all in its power to get these men back to civil life.

It is giving a *War Service Gratuity*—more than any other nation—to keep the soldier going till he gets a job.

It gives him a *pension*—where his usefulness is impaired by his service.

It teaches a man a *new trade* when his service unfits him for his former trade.

It gives him *free medical treatment* when illness recurs, and supplies free artificial limbs and surgical appliances.

It is bringing back to Canada at the public expense the *soldiers' dependents* now overseas.

But the Government, however willing, cannot provide the personal touch needed in this work of repatriation. That must be given by the people themselves.

The men who went from these parts to fight in Flanders deserve a real welcome home—the best we can give.

In most towns committees of citizens have already been organized to meet the soldiers and their dependents at the station, to provide hot meals, supply automobiles, afford temporary accommodation when necessary.

In addition, many other towns are organizing social gatherings to give public welcome to returned men after they have been home a few days.

After he has rested, the soldier must be provided with an opportunity for employment. In towns of 10,000 population, Public Employment Offices have been established to help soldiers, as well as war-workers, secure good jobs quickly. Where these exist, citizens should co-operate. Where they do not exist, the citizens themselves should help put the soldier in touch with employment.

The fighting job is done. It has cost many a heart-burning. But it has been well done. The least we can do is to show our appreciation in no uncertain manner.

Don't let the welcome die away with the cheers.

## More Maple Sugar

Last year's crop of maple sugar and syrup is all gone. Prices this year will be just about as profitable. The export trade is developing. What the dealers want is more maple sugar, more maple syrup, and better quality. Make your maple bush pay this year by tapping all the trees you can handle. As far as the boiling goes it is just about as easy to handle the sap of 5,000 trees as 500.

## WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to stuffy, badly ventilated rooms. It is so often stormy that the mother does not get him out in the fresh air as often as she should. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. They regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
