

NEW-BRUNSWICK
PROVINCIAL PARLIAMENT.

HOUSE OF ASSEMBLY.

February 13, 1851.
The House was chiefly occupied to-day receiving bills and petitions.
The House went into Committee of the whole, and passed a bill to incorporate the Miramichi and Richibucto Electric Telegraph Company.
Several petitions were presented, by Messrs. Earle, Beardsley and Ryan, in favour of incorporating Orange Lodges.
There was a conversation about the Stationery required for the House. Two specimens of foolscap were shown, provided for the House, and not of an extra quality, charged respectively 30s. and 41s. per ream!!! Mr. Needham moved that every member should be allowed, for the purchase of Stationery during the Session, fifteen shillings and no more. The motion was not seconded.

ADDRESS.
TO CHARLES CONNELL ESQ., M. P. P.
Sir, I have the pleasure to inform you that an appointment is about being made from this County to the Legislative Council of this Province, and that you are likely to have the refusal of such appointment, and we regarding you as being better entitled to such appointment than any other person—have to recommend that in the event of such being offered, that you do accept. We view that we shall sustain a loss from the want of your services to the House of Assembly, but would prefer looking to the Constitution of this County for one to supply your place, rather than run the risk of some one being called to the Legislative Council, having comparatively few claims to such station.
We are Sir,
Your Obedient Servants,
James Wood, M. D.,
G. W. Cleary, J. C. P.,
and 70 others.

Woodstock, January 27, 1851.

REPLY.
GENTLEMEN.—I have received your Address stating it is rumored an appointment is about being made to the Legislative Council for the County of Carleton, and I am likely to have the refusal of such.
It is very gratifying to be assured that you deem me better qualified than any other.
I have to inform you that such appointment has been tendered to me, and in consequence of your recommendation have been induced to accept.
Although you seem to think a loss will be sustained from the want of my services.—Such is my confidence in your judgement as to satisfy me that some one will be chosen to supply my place, who will serve you, and have always endeavored to do faithfully.
I trust that my course in the Upper branch of the Legislature will be such as to satisfy you that no conditions or restrictions were attached to my acceptance, and that I shall always be in such a position as to Legislate freely and independently for the best interests of the County.
I have the honour to be with much respect,
Yours faithfully,
CHARLES CONNELL.
To Mr. Wood, G. W. Cleary, and others, the signers to the Request.

MORE SPEAK.—We understand that the owners of the Steamer Admiral intend her to run during the coming season from Boston to St. John, touching at Portland and Eastport, leaving Boston on Tuesdays at 11 A. M., Portland same evening at 8 o'clock. Returning, she will leave St. John on Thursdays at 6 A. M., for Eastport, Portland and Boston. It is expected that the Admiral will be ready to commence her first trip on Tuesday the 25th instant, but positively on Tuesday the 4th of March.—Courier.

A LONG PASSAGE.—The Ship Ismahague, Capt. Gaskin, of this Port, which arrived here yesterday morning, has been 64 days out from the Clyde. We learn that during the passage the crew mutinied, and the Captain was under the necessity of running for Barbados, where the mutineers were shipped on board a Man of Vessel. They would have been brought to trial in the Admiralty Court, if the captain could have waited, but as the detention of the vessel would have been serious, it was thought advisable

to leave them on board one of Her Majesty's ships.—lb.

LEGISLATIVE SUMMARY.—Since the great debate on the "want of confidence" resolution the House has been occupied with routine business, receiving petitions, introduction of Bills, and formation of committees. On the 13th, a bill to provide for the pay of Members of the Legislature was introduced, and Mr. Tilley gave notice of his intention to propose that the Members' pay be fixed at 10 shillings per day. This is a more in the right direction, but we fear, retrenchment in this case will not be found in the Legislative dictionary.

On the 14th, a number of important Despatches from the Colonial Office were laid before both Houses. The reading of the Despatch relative to an Elective Legislative Council, caused a sensation in the Upper House, and drew down some strong remarks, in opposition to the principle, from the Hon. Mr. Hatch, who enquired what action the Government intended taking on the subject.

Hon. Mr. Chandler replied, that the matter was under consideration. Hon. Mr. Botsford claims that whatever change was proposed to be made in the Upper House, should originate in that body.

A Committee was appointed to take into consideration the question of reporting the debates, and to report on Saturday.

Mr. Barrie obtained leave to bring in a bill to permit religious newspapers, and agricultural books and pamphlets, to be sent by Post, within this Province, free of postage.

Mr. Bliss Botsford introduced a bill, to provide that after the dissolution of the present Assembly, neither the Province Treasurer nor any Deputy Treasurer, nor any Officer of the Customs, shall vote in the House of Assembly, but shall be altogether ineligible to a seat in that body.

The petitions for Scrutinies are ordered to be taken up next month. Boyd vs. Fitzgerald on the 8th and Gilbert vs. Chapman on the 12th march. It is stated that these scrutinies will be gone into once on the days named; but with little prospect of arriving at a decision, during the present Session. Time only will tell.

On the 15th, an important Despatch, relative to the Civil List Bill and the reduction of Salaries, was presented to both Houses.

Earl Grey declines at present to yield the surplus of the Civil List to the Province, conceiving that as yet there are no good reasons for reconsidering the solemn agreement entered into upon the settlement of the Civil List. If the House will surrender the initiation of money votes to the Executive, Earl Grey would not then object to placing the salary of the Master of the Rolls upon the surplus of the Civil List—as also compensation to the Judges in lieu of fees, to be paid out of the same surplus, the fees being either abolished or applied to other purposes, as the House might decide.

His Lordship alludes to the Lines of Railway in this Province, and the difficulty of obtaining funds in England, if by any proceeding of the Legislature's doubt should arise as to the fulfilment of any of its engagements.

A single instance of such disregard, Earl Grey says, would deprive Legislature of all hope of obtaining the confidence of capitalists, so as to induce them to advance money for works connected with the improvement of the Colony. In the event of any vacancy Earl Grey has no objection to reducing the Salary of the Surveyor General to Six Hundred pounds Currency, and abolishing the office of Receiver General altogether, on proper arrangements being made for the receipt of public money.

Then our immediate neighbours, whose own ports for a thousand miles are on these very waters on which we claim the sole right of Navigation, are compelled by these restrictions to seek the sea board from another port

besides Quebec, and where this produce is found to require ships to carry it thence, there will those ships be found. Let this boon be granted—a large fleet of carrying vessels will be built on the upper lakes,—they will be freighted with flour to Quebec, in preference to any of their own ports, from the facilities afforded for sending it home. A vastly increased revenue will repay the outlay of our costly but invaluable canals,—and at Quebec will congregate the fleets of the commercial world to carry the bounties, with which Providence has blessed this land to the uttermost ends of the earth.
