

A Proven Cure For Indigestion

A healthy stomach does two things: 1st—gives up enough gastric juice to digest food—and 2nd—churns food, by means of its muscular action, until digestive juice and food are thoroughly mixed. An unhealthy stomach is either too weak to properly churn the food or it does not give up enough gastric juice to make digestion complete. Then you have Indigestion—Heartburn—Distress after Eating—Sour Stomach—Headaches—and finally chronic Dyspepsia.

Thousands have been cured of Indigestion and Dyspepsia by "Fruit-a-tives" alone.

and Biliousness with which so many Dyspeptics suffer. "Fruit-a-tives" are intensified fruit juices, combined with tonics and antiseptics—and are an infallible cure for all Stomach Troubles. Try them, 50c a box—6 for \$2.50. At all dealers or from Fruit-a-tives Limited, Ottawa.

MINARD'S LINIMENT CO., LIMITED

Gentlemen,—In June, '36, I had my hand and wrist bitten and badly mangled by a vicious horse. I suffered greatly for several days and the tooth cuts refused to heal until your agent gave me a bottle of MINARD'S LINIMENT, which I began using. The effect was magical; in five hours the pain had ceased and in two weeks the wounds had completely healed and my hand and arm were as well as ever.

Yours truly,
A. E. ROY,
Carriage Maker.

WHERE THE MONEY GOES.

Money is scarce these days. It does not require the aid of a microscope to discover this. The tightness of the money market has been attributed to many causes, but probably one of the best explanations is to be found in the wild scheme of Cobalt. These are hundreds and thousands, who, in order to make fortunes out of the rich silver mines of that district, mortgaged their furniture, life insurance policies and any other collateral they possessed to raise sufficient funds to enable them to buy Cobalt stocks. Millions of dollars have been tied up in these investments, many of which are not only unrepayable, but worthless. Loans in Cobalt stock nearly proved the undoing of one Canadian bank, and for a time caused much uneasiness in financial circles. So long as people are ready to invest in wild-cat schemes, we will have more or less of wild-cat money market. Money that should be invested in legitimate industries is placed at the disposal of men whose whole prospectus is made up of wind. Just now considerable space is being given to mining schemes by Maritime Province newspapers, but the man who has a few dollars to spare had better assure himself thoroughly as to the soundness of any scheme before investing his hard earned dollars.—Kings Co. Record.

OUR SCHOOLS.

In a few days the public schools open up. Everything is swept, garnished and in running order, and all that are eligible are expected. Boys and girls, be there the first day. It's the best day in all the year. Don't miss it, but make the first days enrollment the greatest in the history of the schools.

To make our schools eminently successful there should be the co-operation of teachers, scholars and parents.

The first two we have, will the parent now do their duty?

The true purpose of education is to cherish and unfold the seed of immortality already sown within us, to develop to their fullest extent the capacities of every kind with which the God who made us has endowed us.

Education commences at the mother's knee, and every word spoken within the hearing of little children tends towards the formation of character.

COAL PRODUCTION LAST YEAR.

Statistics compiled for the Geological Survey by Edward W. Parker, show a remarkable increase in the coal mining output of the survey, total production of coal in the United States during 1936 over the preceding year.

The production in 1936 was 414,039,581 short tons of 2000 pounds, valued at \$512,610,744. In 1935 the output amounted to 392,919,341 tons, valued at \$476,756,963. The increase in quantity was 5 per cent, and in value 7 per cent.

West Virginia supplanted Illinois as the State second to Pennsylvania in coal production, attributed chiefly to the almost complete suspension of mining in Illinois during all of April and a part of May, when the miners and operators were in conflict over the wage scale.—Washington Post.

LOOK AFTER THE AGED.

Deal gently with the aged that are still among you. The time will come when you will wish you had given a few moments to brighten the declining years of father or mother. It is so easy to become engrossed in the things that belong to your own life and to seek refuge behind the claim that you are too busy. We forget how much little tokens of interest are treasured by those who themselves are not any longer able to do anything for us. The time will come for all of us to go back and sit down, and ours will be the pain of seeing other strong hands do what was once our joy to undertake. May ours not be the greater pain of seeing those we once nurtured and cared for as our own life become cold or indifferent to our happiness, or, worse still, impatient with our weakness or childishness. One of the sweetest things we have seen in many a day was a young woman on a railroad train endeavoring to make her aged mother comfortable and posting her gray, furrowed head on her bosom. One of the commendations that needs sounding in the ears of the more mature as well as the young is, "Honor thy father and thy mother."—Home Journal.

TO PUNISH ROCKFELLER AND HARRIMAN.

Washington, Aug. 12.—John D. Rockefeller and Edward H. Harriman will stand, ere long, in the criminal dock if Atty.-Gen. Bonaparte can put them there with the conviction that he can land them in the penitentiary.

The attorney-general returned to his desk this morning, after his vacation at Lenox. On his way to Washington he had stopped off at Oyster Bay and had discussed with President Roosevelt the question of the criminal prosecution of the men who are at the head of the great corporations, whose defiance of the laws this administration is determined to stop.

It is clear that President Roosevelt and Atty.-Gen. Bonaparte are entirely agreed that the most effective way to make the corporations obey the laws is to punish the head officials, and not to punish the head officials by merely assessing fines upon the corporations.

It Is Grand

To live in a time of such great opportunities. Some years ago, we had difficulty in finding situations for all our graduates. Now it is difficult to keep our students till they graduate, so great is the demand for proficient bookkeepers and stenographers.

We have not yet advanced our rates, but the great advance in almost everything we have to buy may soon compel an increase. Students can enter at any time.
