

# GOFFATT'S PLYMOUTH ROCKS.

I believe it is widely known that I breed a high strain of this species. This belief is based upon the correspondence I have received from New Foundland to British Columbia. I shall only particularize prizes won the present season, *i. e.*, last fall and this winter. I may say, however, that I won more prizes the season before than any other Plymouth Rock breeder in the Province.

At Toronto Industrial, 1886, 1st and 2nd on Cocks, 1st and 2nd on hens. 1st and 2nd on Cockerels, 1st and 2nd on Pullets.

At the Toronto Show last December, 1st and 2nd on Hens, 1st and 2nd on Cockerels, 1st and 2nd on Pullets, and three cards of Merit on Cockerel, Pullet and Hen. I have never put my birds into small shows, they have faced the strongest competition in our country and have mostly come out with the brightest honors.

More honors at Rochester, N. Y., Feb. 2nd to 8th. In the company of eighteen American breeders of Plymouth Rocks my birds won 1st on Fowls, 3rd on Chicks (shown in pairs), the special prize offered for the highest scoring pair of Plymouth Rocks in the show, and the special for the highest scoring, single bird. Six of my birds were shown there and won those four grand prizes.

I have some grand stock mated up. Those who favor me with orders for eggs will get them fine. \$3.00 for 13, \$5.00 for 26.

What Mr. Beyer says: "Please accept my

best thanks for the splendid seeds received from your firm. It would be a rather lengthy list if I should name all, but will say that amongst 32 first, and 3 second premiums awarded me at our fairs in Northern Indiana and Southern Michigan, 28 first premiums were for vegetables raised from your seeds. What firm can beat this?"

Seed of this quality I am now ready to sell to every one who tills a farm or plants a garden, sending them FREE my Vegetable and Flower Seed Catalogue, for 1887. Old customers need not write for it. I catalogue this season the native wild potato. JAS. J. H. GREGORY, Seed Grower, Marblehead, Mass.
